Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 14 of the 168 other AI image and video generators we grade

Neolemon generates cartoon characters from a text description, a photo or existing art, then edits poses, outfits and backgrounds while trying to keep each character consistent across scenes. Scenes can be assembled into pages with text and speech bubbles and exported as a print-ready PDF or a flipbook.

To get you started, here are **9 things to know about Neolemon**, taken from its own pages and our grades.

>
> **It is a web app where the work is building the characters and the book.**
>
> From our grade for ease of use

1 **Best for consistent cartoon characters for children's books**

Neolemon makes consistent cartoon characters for illustrated children's books, with scene editors, book assembly and print-ready export to Amazon KDP.

2 **Paid plans start at $29 a month**

As its pricing page puts it: $29 per month, billed monthly.

3 **You can try it first**

4 **It runs on Web**

Web.

5 **Character illustration**

Describe a character, upload a photo or bring your own art to start a cartoon character.

6 **Consistency editors**

Change pose, outfit, expression or background while keeping the character the same across pages.

7 **Multi-character scenes**

Combine several characters in one setting to build a scene for each page.

8 **A 1.8 GPA, above 14 of 168**

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace Neolemon you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for consistent cartoon characters for children's books

Neolemon makes consistent cartoon characters for illustrated children's books, with scene editors, book assembly and print-ready export to Amazon KDP. There is one plan, $29 a month with no yearly option, and credits do not roll over.

TOOLGPA REPORT CARD **Neolemon** Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	One plan at $29 a month, billed monthly, for 600 credits. That is above the $25 line where the category's dearest tenth starts, with no yearly price.
Free plan and trial	C	20 free credits on signup with no card. Commercial rights are stated for the paid plan only.
Features	C	Characters, consistency editors, multi-character scenes, book assembly and print-ready export. It does that one job fully and it is a smaller job than most of the category.
Ease of use	C	No store rating is on record. It is a web app where the work is building the characters and the book.
Platforms and integrations	C	Web only, with an Amazon KDP link and nothing else listed.

Grade point average Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Neolemon is for

- ✓ Fits if you are making a children's picture book and need the same character on every page
- ✓ Works for authors who publish through Amazon KDP

Who it is not for

- ✕ Pricey if you work on one book, as it is $29 a month with no yearly plan
- ✕ Watch out: credits do not roll over, and extra credits are for active subscribers only
- ✕ Tight if you stay free, as 20 credits go quickly and commercial rights are for the paid plan
- ✕ Too light for anything beyond illustrated books and character avatars

Good to know

Good for

- ✓ First-time authors illustrating a children's book
- ✓ Teachers and parents making custom storybooks

Worth knowing

- ⓘ There is one paid plan, monthly only; the page says no yearly plan is offered.
- ⓘ Credits do not roll over, and extra credits can be bought only by active subscribers.
- ⓘ Character Turbo images cost 4 credits each; prompt tools are free.
- ⓘ Commercial rights are stated for the Creator Plan, not for the free credits.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

14/168

Other AI image and video generators it is graded above

Neolemon's GPA of 1.8 is higher than 14 of the 168 other AI image and video generators we grade, and level with 16.

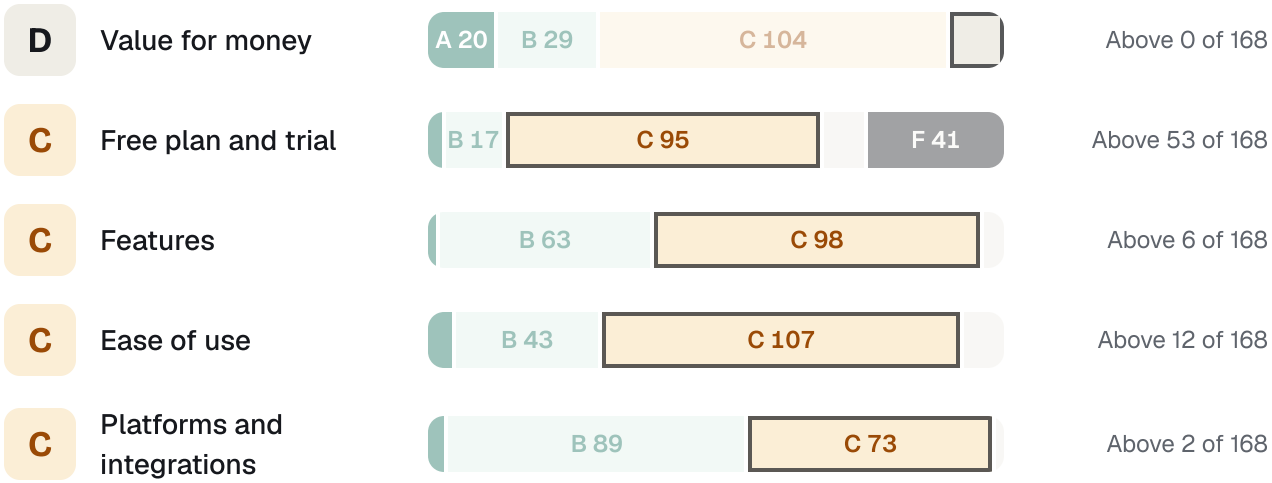

It stands best on free plan and trial (C, above 53 of 168) and worst on value for money (D, above 0).

Its paid plans start at $29 a month, against a middle price of $11.88 for the category: 110 of the 120 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 89 tools score higher and cost less.

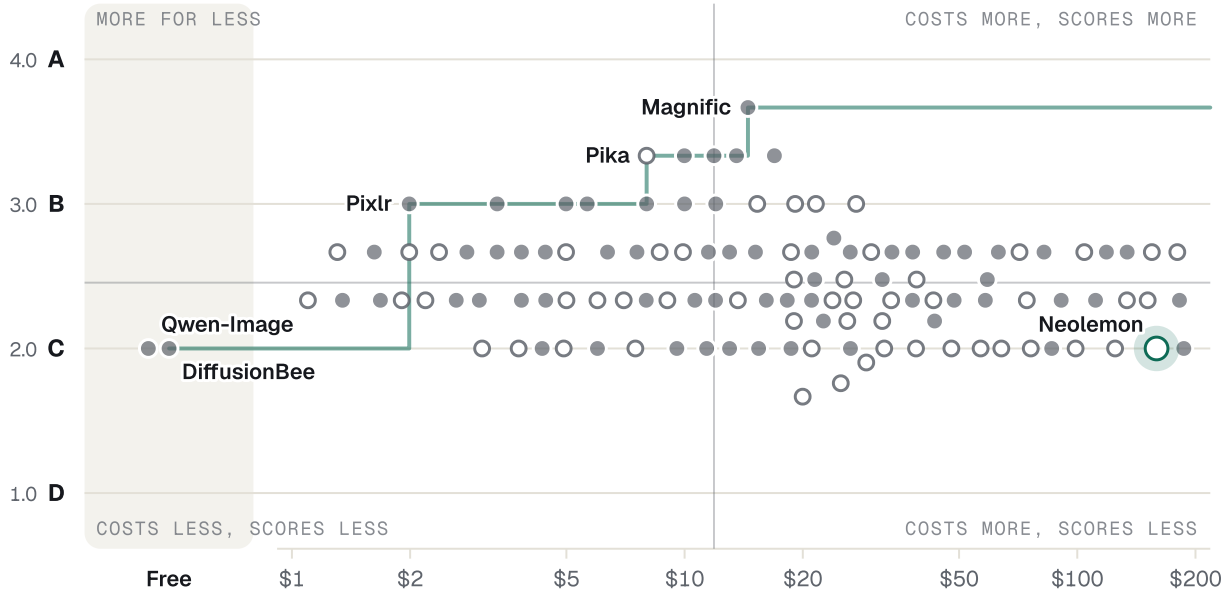

Each grade against the category

Every bar is all 169 AI image and video generators we grade, cut by the letter each got. Neolemon's own letter is outlined.

Price against what you get

Each dot is one of 123 AI image and video generators. Further left costs less; higher up scores better on features, ease of use and platforms. Neolemon is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Neolemon you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 138 of the 168 other AI image and video generators grade higher. It costs $348 a year.

What you could not

- ✕ An image model, which you can rent by the picture but not make.
- ✕ AI features, unless you pay a model provider for each request yourself.

- ✕ Sharing with other people, which means accounts and invitations.

What this rests on. Neolemon's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
