07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Net Health Therapy's own pages, its app-store listings and our grades. Every fact in it is on Net Health Therapy's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 15 of the 60 other therapy and clinic software we grade

Net Health Therapy is the rehab therapy line from Net Health: ReDoc for hospital outpatient and inpatient therapy, Optima for skilled nursing and senior living, and Limber for home exercise programs and remote therapeutic monitoring. Prices are not published.

To get you started, here are **7 things to know about Net Health Therapy**, taken from its own pages and our grades.

> **Every product goes through a demo, no price is shown, and the main products are aimed at larger organisations.**
>
> From our report card of Net Health Therapy

1 **Best for rehab therapy EMRs for hospitals and long-term care**

Net Health sells rehab therapy EMRs, including ReDoc and Optima, for hospitals and long-term care, with billing safeguards and remote care.

2 **It runs on Web**

Web.

3 **ReDoc EMR**

Therapy EMR for hospital outpatient care with rehab-specific templates and AI ambient documentation.

4 **Optima**

Long-term care therapy EHR with CMS-aligned documentation rules for skilled nursing.

5 **Billing safeguards**

Flags invalid CPT codes before submission and tracks billable minutes.

6 **A 1.8 GPA, above 15 of 60**

That is against the other therapy and clinic software we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Net Health Therapy you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for rehab therapy EMRs for hospitals and long-term care

Net Health sells rehab therapy EMRs, including ReDoc and Optima, for hospitals and long-term care, with billing safeguards and remote care. Every product goes through a demo, no price is shown, and the main products are aimed at larger organisations.

TOOLGPA REPORT CARD

Net Health Therapy

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; every product goes through a demo, so it sits in the middle.
Free plan and trial	F	No free plan and no self-serve trial is advertised.
Features	C	EMRs, billing safeguards, patient engagement, remote care and analytics. Built for hospitals and post-acute care, with private practice a smaller part.
Ease of use	C	Rolled out through a demo and onboarding; no store rating on record.
Platforms and integrations	B	Connects to Epic, MEDITECH, Oracle Health, PointClickCare and Waystar. The pages read don't say which platforms it runs on.

Grade point average — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Net Health Therapy is for

- ✓ Fits if you run therapy in a hospital, nursing home or post-acute setting
- ✓ Works for organisations that need links to Epic or MEDITECH

Who it is not for

- ✗ Skip it if you run a small private practice, as the main products target larger organisations
- ✗ Not for you if you want a price before booking a demo
- ✗ Tight if you want a free plan or trial, as neither is advertised
- ✗ Watch out: which platforms it runs on isn't stated on the pages read

Good to know

Good for

- ✓ Hospital outpatient therapy departments
- ✓ Skilled nursing and senior living therapy teams

Worth knowing

- ⓘ No prices are published; all products go through a demo request.
- ⓘ The suite is aimed at hospitals and post-acute care; private practices are listed as a care setting but the main products target larger organizations.
- ⓘ Which platforms the products run on is not stated on the pages read.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Net Health Therapy's current pricing could not be confirmed from its own site.

> **No price is published; every product goes through a demo, so it sits in the middle.**
>
> From our grade for value for money

We could not confirm Net Health Therapy's current prices from its own site, so this guide lists no plans. nethealth.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Rehab therapy EMR suite for hospitals and long-term care. Here is what it does, as its own site describes it, and what it covers: AI features, reports, clinical notes, insurance billing.

> **EMRs, billing safeguards, patient engagement, remote care and analytics.**

From our grade for features

ReDoc EMR

Therapy EMR for hospital outpatient care with rehab-specific templates and AI ambient documentation.

Optima

Long-term care therapy EHR with CMS-aligned documentation rules for skilled nursing.

Billing safeguards

Flags invalid CPT codes before submission and tracks billable minutes.

Patient engagement

Reminders, online intake forms, secure messaging and appointment requests.

Limber remote care

Home exercise programs and remote therapeutic monitoring for clinics.

Analytics

Staff productivity, units billed and referral-level reports.

PointClickCare
MatrixCare
Waystar

Net Health Therapy is made by Net Health.

Where it stands

Its grades against its category, and whether to keep it or make your own

15/60

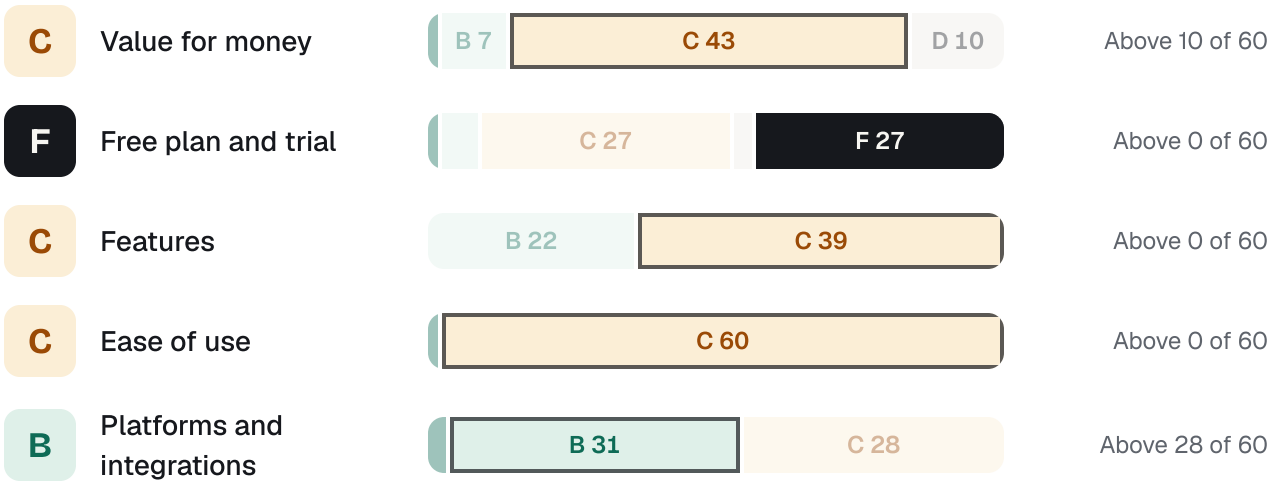

Other therapy and clinic software it is graded above

Net Health Therapy's GPA of 1.8 is higher than 15 of the 60 other therapy and clinic software we grade, and level with 11.

It stands best on platforms and integrations (B, above 28 of 60) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 61 therapy and clinic software we grade, cut by the letter each got. Net Health Therapy's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Net Health Therapy you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 34 of the 60 other therapy and clinic software grade higher.

What you could make

- Clinical notes and reports: an app builder makes these well.

What you could not

- Insurance claims sent to payers through a clearinghouse.
- It plugs into other products, Epic, MEDITECH and Oracle Health among them.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Net Health Therapy's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

WebPT, OptimisPT, Clinicient, Prompt Health and Raintree

PART 07 · ABOUT

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at toolgpa.com.
