07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Netstock's own pages, its app-store listings and our grades. Every fact in it is on Netstock's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.4

GPA, above 0 of the 47 other inventory management tools we grade

Netstock is a cloud planning tool that connects to an ERP and turns its sales and stock data into demand forecasts, reorder suggestions and supplier performance reports. It is aimed at manufacturers, wholesalers and retailers. It is sold on annual subscriptions, with pricing that depends on the product bundle chosen.

To get you started, here are **8 things to know about Netstock**, taken from its own pages and our grades.

1 **Best for firms with an ERP that want better buying decisions**

Netstock reads your ERP data to forecast demand and suggest what to order.

2 **Paid plans start at $900 a month**

As its pricing page puts it: $900 per month, annual subscription.

3 **It runs on Web**

Web.

4 **Inventory forecasting**

Predicts demand from ERP sales history and flags opportunities and risks in stock levels.

5 **Inventory optimization**

Sets stock targets to cut excess and avoid stock-outs, with the vendor's AI pack surfacing items that need attention.

6 **Inventory ordering**

Produces suggested orders based on forecasts and supply conditions.

7 **A 1.4 GPA, above 0 of 47**

That is against the other inventory management tools we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

The plain part of Netstock you could make: inventory and reports. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

FREE TRIAL None stated	RUNS ON Web
MADE BY Netstock	CATEGORY Inventory Management
OUR GRADE 1.4 GPA, weak	

The report card

Best for firms with an ERP that want better buying decisions

Netstock reads your ERP data to forecast demand and suggest what to order. It starts at $900 a month on an annual subscription, and it only plans purchasing, so you still need a system underneath it.

TOOLGPA REPORT CARD — **Netstock** — Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	$900 a month is where the dearest tenth of inventory tools starts, and that is only the starting figure.

SUBJECT	GRADE	COMMENT
Free plan and trial	F	No free plan and no trial; quotes come after a form.
Features	D	It forecasts, optimises and plans orders, but it does not hold stock or run orders and needs a supported ERP or inventory system to work at all.
Ease of use	C	No store rating on record, and the vendor says implementation takes 6 to 10 weeks.
Platforms and integrations	B	Web only, with connections to NetSuite, Sage, Acumatica, Microsoft Dynamics, SAP Business One, Cin7 Core and Fishbowl.
Grade point average		Weak, out of 4.0 **1.4**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Netstock is for

- ✓ Fits if you run a supported ERP and your buying is the problem
- ✓ Works for a company with a planner who will use the forecasts every week

Who it is not for

- ✗ Skip it if you want one product that holds stock, since this only plans purchasing
- ✗ Pricey if you are small: $900 a month on an annual subscription is the floor
- ✗ Not for you if you need to start this month, because implementation runs 6 to 10 weeks
- ✗ Watch out: no plan-by-plan prices, a form decides the quote
- ✗ Watch out: it works only with ERPs it supports

Good to know

Good for

- ✓ Manufacturers and distributors planning purchasing from ERP data
- ✓ Teams that want planning added to an ERP they already run
- ✓ Businesses that want guided onboarding with a named contact

Worth knowing

- ⓘ Pricing is by annual subscription and starts at $900 a month, so it is priced above small-seller tools.
- ⓘ Implementation typically takes 6 to 10 weeks, per the vendor's FAQ.
- ⓘ It plans purchasing only and needs a supported ERP or inventory system underneath.
- ⓘ Exact quotes require filling in a form; no plan-by-plan prices are listed.

PART 02 · PRICING

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$900

A month to start

Netstock is a paid product, starting at $900 per month, annual subscription.

> **No free plan and no trial; quotes come after a form.**

From our grade for free plan and trial

NETSTOCK SUBSCRIPTION

$900

per month and up, annual subscription

Cost depends on the product and bundle chosen; the page says pricing starts at $900 a month and quotes come after a short form.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Demand and supply planning that reads your ERP data. Here is what it does, as its own site describes it, and what it covers: AI features, reports, inventory, dashboards.

Inventory forecasting

Predicts demand from ERP sales history and flags opportunities and risks in stock levels.

Inventory optimization

Sets stock targets to cut excess and avoid stock-outs, with the vendor's AI pack surfacing items that need attention.

Inventory ordering

Produces suggested orders based on forecasts and supply conditions.

Supplier performance

Tracks how suppliers perform so buyers can see where lead times and deliveries slip.

Demand planning and S&OP

Supports demand planning and sales and operations planning alongside the inventory views.

ERP integrations

The vendor says it integrates with more than 60 ERP systems and converts their raw data into the planning views.

Where it runs

Web

What it works with

NetSuite
Sage
Acumatica
Microsoft Dynamics
SAP Business One
Unleashed
Cin7 Core
Fishbowl

Netstock is made by Netstock.

Where it stands

Its grades against its category, and whether to keep it or make your own

0/47

Other inventory management tools it is graded above

Netstock's GPA of 1.4 is higher than 0 of the 47 other inventory management tools we grade, and level with 2.

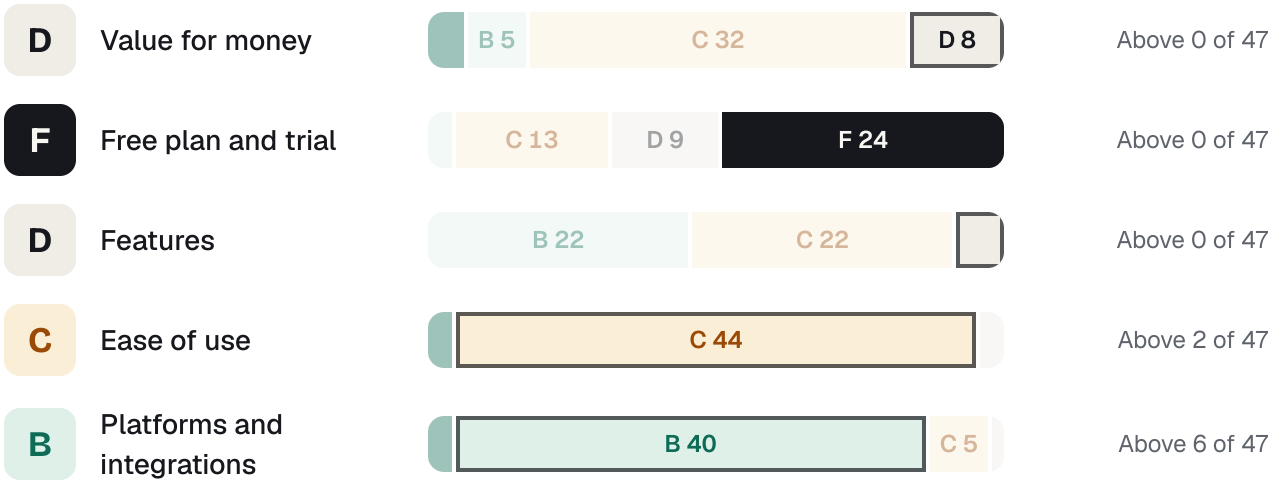

It stands best on platforms and integrations (B, above 6 of 47) and worst on free plan and trial (F, above 0).

Its paid plans start at $900 a month, against a middle price of $121.50 for the category: 29 of the 31 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 26 tools score higher and cost less.

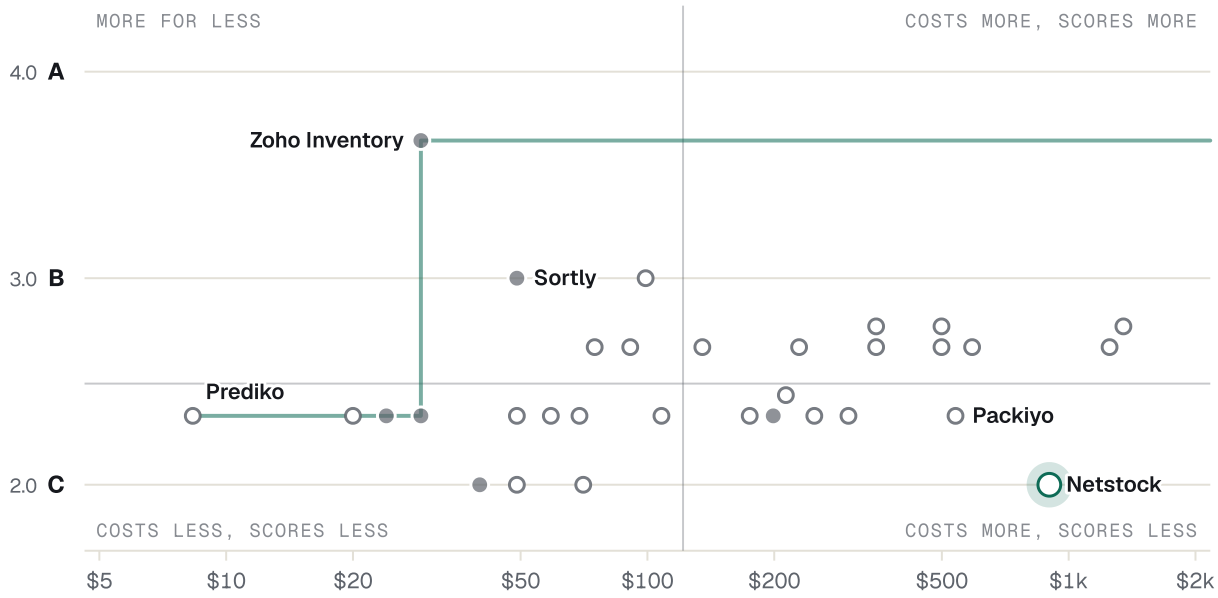

Each grade against the category

Every bar is all 48 inventory management tools we grade, cut by the letter each got. Netstock's own letter is outlined.

Price against what you get

Each dot is one of 32 inventory management tools. Further left costs less; higher up scores better on features, ease of use and platforms. Netstock is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Netstock you could make: inventory and reports. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 45 of the 47 other inventory management tools grade higher. It costs $10,800 a year.

What you could make

- Inventory and reports: an app builder makes these well.

What you could not

- Connections that pull numbers from dozens of other services.

- It plugs into other products, NetSuite, Sage and Acumatica among them.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Netstock's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Inventory Planner, StockTrim, Fishbowl, Unleashed and Cin7

The 5 tools Netstock is most often weighed against, with where each one differs from it.

1.8 GPA

Inventory Planner

Paid

SKU-level demand forecasting and replenishment planning.

- Netstock also covers dashboards.
- Inventory Planner also covers amazon selling.

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

12

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Netstock free?

No. Netstock is a paid product, starting at $900 per month, annual subscription.

How much does Netstock cost?

Netstock lists one plan. Netstock subscription: $900 per month and up, annual subscription.

What platforms does Netstock work on?

Netstock is available on Web.

Does Netstock have an Android app?

No Android app was listed when its pages were read on Nov 12, 2026. Netstock is listed for Web.

Does Netstock have an iPhone app?

No iPhone app was listed when its pages were read on Nov 12, 2026. Netstock is listed for Web.

Is Netstock open source?

Netstock is not described as open source on its own site, as read on Nov 12, 2026.

What does Netstock integrate with?

Netstock's listing names NetSuite, Sage, Acumatica, Microsoft Dynamics, SAP Business One, Unleashed, Cin7 Core and Fishbowl.

Who makes Netstock?

Netstock is made by a company of the same name.

What are the alternatives to Netstock?

The closest alternatives to Netstock in our directory are Inventory Planner, StockTrim, Fishbowl, Unleashed and Cin7.

How does Netstock compare with other inventory management tools?

Netstock's GPA of 1.4 is higher than 0 of the 47 other inventory management tools we grade, and level with 2.

Is Netstock good value for money?

ToolGPA grades Netstock D for value for money. Its paid plans start at $900 a month, against a middle price of $121.50 for the category: 29 of the 31 others that charge start lower.

Could I make my own version of Netstock?

The plain part of Netstock you could make: inventory and reports. What surrounds it you could not.

Where this guide comes from

The prices, plans, platforms and features were read from Netstock's own pages on Nov 12, 2026, and the grades were given on Nov 12, 2026. Graded from this listing, whose facts were read from Netstock's own pages on 12 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Netstock. Prices change, so check netstock.com before you buy.
