Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from nexos.ai's own pages, its app-store listings and our grades. Every fact in it is on nexos.ai's page too, where it is kept up to date. Checked Nov 13, 2026.

# Welcome

What it is, who it suits, its grades and the ten things to know first

**1.8**

GPA, above 2 of the 87 other AI assistants we grade

nexos.ai is a business AI platform in two parts: a Workspace where staff chat with a choice of models, build agents and use knowledge bases, and a Gateway API for applications. Admins set usage limits, access and roles. Its pricing pages sit behind a bot check, so plan prices could not be read.

To get you started, here are **7 things to know about nexos.ai**, taken from its own pages and our grades.

> "
>
> **Look elsewhere if you want something personal to try tonight.**
>
> From our report card of nexos.ai

**1** **Best for a business AI workspace with admin controls**

It's a business product, no price is public in what we could read, and the site answered our request with a bot check.

**2** **It runs on Web**

Web.

**3** **Multi-model chat**

Pick a model from one interface, or choose Auto and let nexos.ai route the request using the context and workspace rules. Models can be compared side by side.

**4** **Agent Builder**

A no-code builder for reusable agents with their own instructions, tools, integrations and knowledge, with optional human approval steps.

**5** **Deep Research and web search**

Chat supports web search and a Deep Research mode, plus file upload and analysis.

**6** **A 1.8 GPA, above 2 of 87**

That is against the other AI assistants we grade, on value, the free plan, features, ease of use and platforms.

**7** **Keep it**

To replace nexos.ai you would be making an AI model, which you can rent by the request but not make. That is not a weekend's work, with an AI app builder or without one.

## The report card

### Best for a business AI workspace with admin controls

nexos.ai is a workspace where staff chat with several models, build agents and use knowledge bases, with a gateway API for apps, and admins set usage limits and roles. It's a business product, no price is public in what we could read, and the site answered our request with a bot check. Look elsewhere if you want something personal to try tonight.

TOOLGPA REPORT CARD — **nexos.ai** — Graded Nov 13, 2026

| SUBJECT | GRADE | COMMENT |
|---|---|---|
| **Value for money** | C | No price is published in what we could read, so it sits in the middle, and with an organisation product you'd have to ask. Usage is counted in credits shown per chat. |
| **Free plan and trial** | F | No free plan or trial is on record, and the pricing pages sat behind a bot check when we looked. |
| **Features** | C | Multi-model chat, an agent builder, deep research, knowledge bases, memory and admin controls. The docs describe a business set-up, not a personal app. |
| **Ease of use** | C | No rating on record. Admins have roles, limits and integrations to set up before a team can use it. |
| **Platforms and integrations** | B | Web workspace, plus a gateway API for applications and an integrations page in the docs. No phone or desktop app on record. |

**Grade point average** — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

### Who nexos.ai is for

- ✓ Fits if you run a team and want one place with usage limits and roles for several models
- ✓ Makes sense if developers need one gateway API in front of several models

### Who it is not for

- ✗ Not for you if you want a personal chat app, as the docs describe organisation settings
- ✗ Watch out: no plan or price is public, so you can't cost it before talking to them
- ✗ Skip it if you need a free trial, as none is on record
- ✗ Watch out: usage is measured in credits, so the monthly bill depends on how people chat

## Good to know

### Good for

- ✓ Companies that want one governed place for staff to use several models
- ✓ Admins who need to set usage, access and roles centrally

### Worth knowing

- ⓘ Pricing could not be verified: nexos.ai answers automated requests with a bot check, so no plan or price is recorded.
- ⓘ Usage in the Workspace is measured in AI Workspace credits, which the chat shows per conversation.
- ⓘ The documentation describes a business product with organization settings, not a personal app.

# What it costs

Every plan, the free plan, ways to pay less and how prices have moved

nexos.ai's current pricing could not be confirmed from its own site.

> **No price is published in what we could read, so it sits in the middle, and with an organisation product you'd have to ask.**
>
> From our grade for value for money

We could not confirm nexos.ai's current prices from its own site, so this guide lists no plans. nexos.ai has them.

# What it does

Its main features, where it runs, what it works with and who makes it

**1**

Place it runs: Web

Business AI workspace and gateway for many models. Here is what it does, as its own site describes it, and what it covers: public API, AI features, chat assistant, AI agents, no-code, research.

> **Multi-model chat, an agent builder, deep research, knowledge bases, memory and admin controls.**
>
> From our grade for features

### Multi-model chat

Pick a model from one interface, or choose Auto and let nexos.ai route the request using the context and workspace rules. Models can be compared side by side.

### Agent Builder

A no-code builder for reusable agents with their own instructions, tools, integrations and knowledge, with optional human approval steps.

### Deep Research and web search

Chat supports web search and a Deep Research mode, plus file upload and analysis.

### Knowledge bases and memory

Knowledge bases, memory and personalization, a prompt library and shared chats are documented.

## Admin controls

Organization settings cover roles and permissions, usage limits and observability.

## Gateway API

A separate Gateway API gives applications endpoints and authentication to reach models.

### Where it runs

Web

### What it works with

Its own pages name no integrations.

nexos.ai is made by nexos.ai.

PART 04 · STANDING

# Where it stands

Its grades against its category, and whether to keep it or make your own

**2/87**

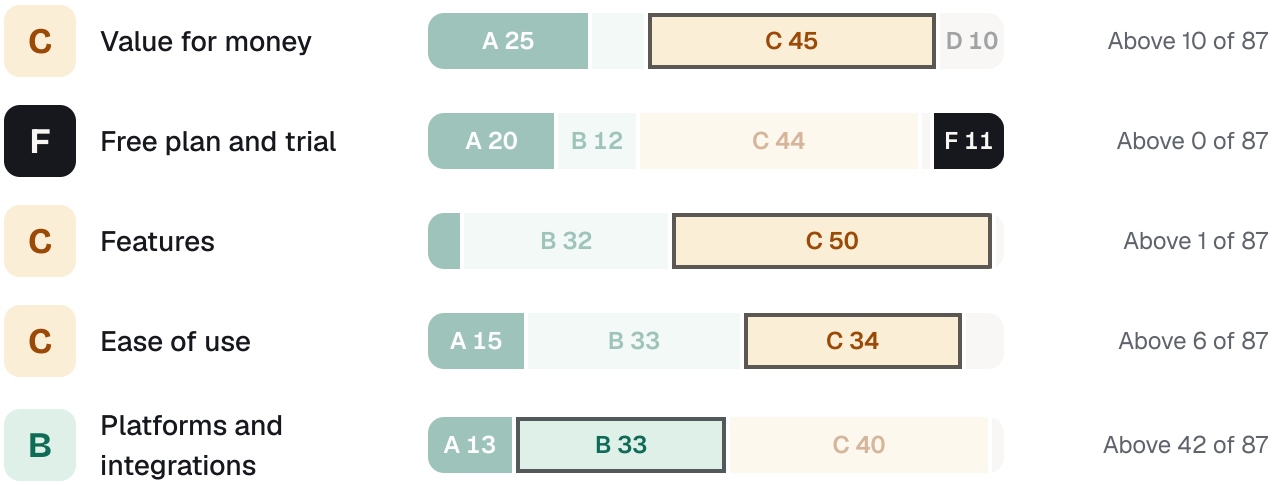

Other AI assistants it is graded above

nexos.ai's GPA of 1.8 is higher than 2 of the 87 other AI assistants we grade, and level with 6.

It stands best on platforms and integrations (B, above 42 of 87) and worst on free plan and trial (F, above 0).

## Each grade against the category

Every bar is all 88 AI assistants we grade, cut by the letter each got. nexos.ai's own letter is outlined.

## Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

## Keep it

To replace nexos.ai you would be making an AI model, which you can rent by the request but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 79 of the 87 other AI assistants grade higher.

### What you could not

- An AI model, which you can rent by the request but not make.
- An AI agent, with the models and the safeguards behind it.
- A builder that other people can use without writing code.
- A library of papers and sources to search.
- An API that other software can build on.
- What a company asks for before it lets staff use something: roles and permissions.

**What this rests on.** nexos.ai's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

# The alternatives

The tools it is most often weighed against, side by side

Langdock, Cohere North, Glean Assistant and Writer

The 4 tools nexos.ai is most often weighed against, with where each one differs from it.

2.6 GPA

## Langdock

Free trial · from €23.20/mo

Model-agnostic AI chat, agents and workflows for companies.

- Only Langdock lists macOS, Windows, iOS and Android apps.
- nexos.ai also covers no-code and research.
- Langdock also covers workflow automation.

nexos.ai and Langdock compared in full

---

1.8 GPA

## Cohere North

Paid

Enterprise AI workspace with agents, search and automations.

- nexos.ai also covers no-code and research.
- Cohere North also covers AI search and workflow automation.

nexos.ai and Cohere North compared in full

1.8
GPA

## Glean Assistant

Paid

Workplace AI assistant that searches and acts across company apps.

- nexos.ai also covers no-code and research.
- Glean Assistant also covers AI search and workflow automation.

nexos.ai and Glean Assistant compared in full

2.0
GPA

## Writer

Free trial

Enterprise AI agent platform with playbooks and governance.

- nexos.ai also covers no-code and research.
- Writer also covers workflow automation and long-form writing.

PART 06 · QUESTIONS

# Quick answers

The questions people ask about it, each answered in a line or two

**10**

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

### Is nexos.ai free?

No. nexos.ai is a paid product.

### What platforms does nexos.ai work on?

nexos.ai is available on Web.

### Does nexos.ai have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. nexos.ai is listed for Web.

### Does nexos.ai have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. nexos.ai is listed for Web.

### Is nexos.ai open source?

nexos.ai is not described as open source on its own site, as read on Nov 13, 2026.

### Does nexos.ai have an API?

Yes. nexos.ai offers a public API, according to its own site.

### Who makes nexos.ai?

nexos.ai is made by a company of the same name.

### What are the alternatives to nexos.ai?

The closest alternatives to nexos.ai in our directory are Langdock, Cohere North, Glean Assistant and Writer.

### How does nexos.ai compare with other AI assistants?

nexos.ai's GPA of 1.8 is higher than 2 of the 87 other AI assistants we grade, and level with 6.

### Could I make my own version of nexos.ai?

To replace nexos.ai you would be making an AI model, which you can rent by the request but not make.

## Where this guide comes from

The prices, plans, platforms and features were read from nexos.ai's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from nexos.ai's own documentation on 13 November 2026. Its pricing pages would not load for us, so no price is checked. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by nexos.ai. Prices change, so check nexos.ai before you buy.
