Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from NextPax's own pages, its app-store listings and our grades. Every fact in it is on NextPax's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 3 of the 53 other vacation rental tools we grade

NextPax is a business-to-business distribution platform that connects property management systems, property managers and booking channels through one integration. It is built for portfolios of about 50 units or more, and it offers a dashboard for managers as well as APIs for software companies that want to build channel management into their own product.

To get you started, here are **8 things to know about NextPax**, taken from its own pages and our grades.

> **You connect your PMS or build to its API, and a customer success manager follows sign-up.**
>
> From our grade for ease of use

1 **Best for channel connections for 50-plus rentals**

NextPax connects your rentals to booking channels such as Airbnb, Booking.com, Vrbo and Expedia at $3.60 a unit a month.

2 **Paid plans start at $3.60 a month**

As its pricing page puts it: $3.60 per unit or room / month, billed annually ($4 billed monthly).

3 **It runs on Web**

Web.

4 **Channel management**

Rates, availability, bookings and content sync in both directions between your system and the booking channels NextPax connects to.

5 **Matchmaking**

Suggests which distribution channels suit a portfolio, using live market demand, so a manager can decide where to list first.

6 **Supply API (white label)**

Software companies can build channel management into their own product through an API, with NextPax staying out of sight of their users.

7 **A 1.8 GPA, above 3 of 53**

That is against the other vacation rental tools we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace NextPax you would be making two-way connections to Airbnb, Booking.com and Vrbo. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for channel connections for 50-plus rentals

NextPax connects your rentals to booking channels such as Airbnb, Booking.com, Vrbo and Expedia at $3.60 a unit a month. But there's a $350 monthly minimum, it's built for 50 or more units, and there's no free plan or trial.

TOOLGPA REPORT CARD — **NextPax** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	$3.60 a unit a month, but with a $350 monthly minimum covering the first 50 units. That floor is above the dearest tenth of rental software ($330).
Free plan and trial	F	No free plan or free trial on the pricing page.
Features	B	Two-way channel sync, a unified inbox, promotions, a booking engine and an API for builders.
Ease of use	C	No store rating on record. You connect your PMS or build to its API, and a customer success manager follows sign-up.
Platforms and integrations	B	Web with Airbnb, Booking.com, Vrbo, Expedia and others, plus a Supply API. No apps listed.

Grade point average — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who NextPax is for

- ✓ Fits if you run 50 or more units and need channel connections
- ✓ Works for software makers who want to build channel sync into their own product

Who it is not for

- ✕ Tight if you have a few rentals, because the minimum is $350 a month
- ✕ Skip it if you want to try it first, as there's no trial or free plan
- ✕ Not for you if you're a single host, since it's infrastructure for businesses
- ✕ Watch out: GDS, third-party platforms and payment providers can carry extra fees

Good to know

Good for

- ✓ Property managers with 50 or more units who want many channels through one connection
- ✓ PMS and software companies adding channel connectivity under their own brand
- ✓ Hotels, holiday parks and B&Bs that list on several booking channels

Worth knowing

- ⓘ A minimum monthly fee of $350 applies, which includes the first 50 units; the vendor says the plans are designed for 50 or more units.
- ⓘ GDS connectivity, third-party platforms and payment providers can carry extra fees on top of the per-unit rate.
- ⓘ It is infrastructure for businesses, not a tool for a single-host account; a customer success manager contacts you after sign-up.
- ⓘ No free plan or free trial is listed on the pricing page.

PART 02 · PRICING

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$3.60

A month to start

NextPax is a paid product, starting at $3.60 per unit or room / month, billed annually ($4 billed monthly).

"

No free plan or free trial on the pricing page.

From our grade for free plan and trial

SUPPORTED PMS

$3.60

per unit or room / month, billed annually ($4 billed monthly)

Keep working in an integrated PMS and add NextPax channel connections; minimum monthly fee of $350 covers the first 50 units.

WHITE LABEL API

$3.60

per unit or room / month, billed annually ($4 billed monthly)

Connect your own system through the Supply API, with the Messaging and Promotions APIs and priority support; same $350 minimum.

Stated on nextpax.com

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Channel connectivity layer for property managers and PMS builders. Here is what it does, as its own site describes it, and what it covers: public API, AI features, reports, channel manager.

> **Two-way channel sync, a unified inbox, promotions, a booking engine and an API for builders.**
>
> From our grade for features

Channel management

Rates, availability, bookings and content sync in both directions between your system and the booking channels NextPax connects to.

Matchmaking

Suggests which distribution channels suit a portfolio, using live market demand, so a manager can decide where to list first.

Supply API (white label)

Software companies can build channel management into their own product through an API, with NextPax staying out of sight of their users.

Unified inbox and reviews

Guest messages and reviews from the connected channels are handled in one place; the vendor names Booking.com, Airbnb, Expedia and Vrbo for this.

Promotions and rate plans

Rate plans, channel-specific prices and channel promotions can be managed from the same account.

Direct booking tools

A booking engine and a connection to Google Vacation Rentals and Google Hotels are listed as included in every plan.

Where it runs

Booking.com
Vrbo
Expedia
Mews
Ciirus
Oracle Hospitality
Escapia

NextPax is made by NextPax.com B.V., and has been around since 2006.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

3/53

Other vacation rental tools it is graded above

NextPax's GPA of 1.8 is higher than 3 of the 53 other vacation rental tools we grade, and level with 10.

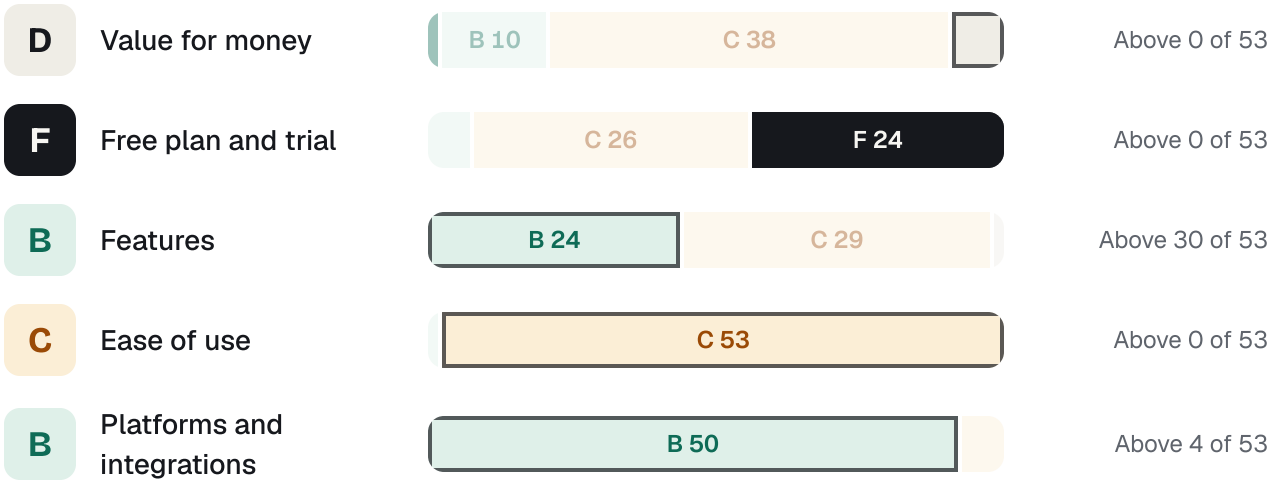

It stands best on features (B, above 30 of 53) and worst on free plan and trial (F, above 0).

Its paid plans start at $3.60 a month, against a middle price of $19.99 for the category: 1 of the 35 others that charge start lower.

On features, ease of use and platforms it scores 2.7 out of 4, and no tool on the category's chart scores higher without costing more.

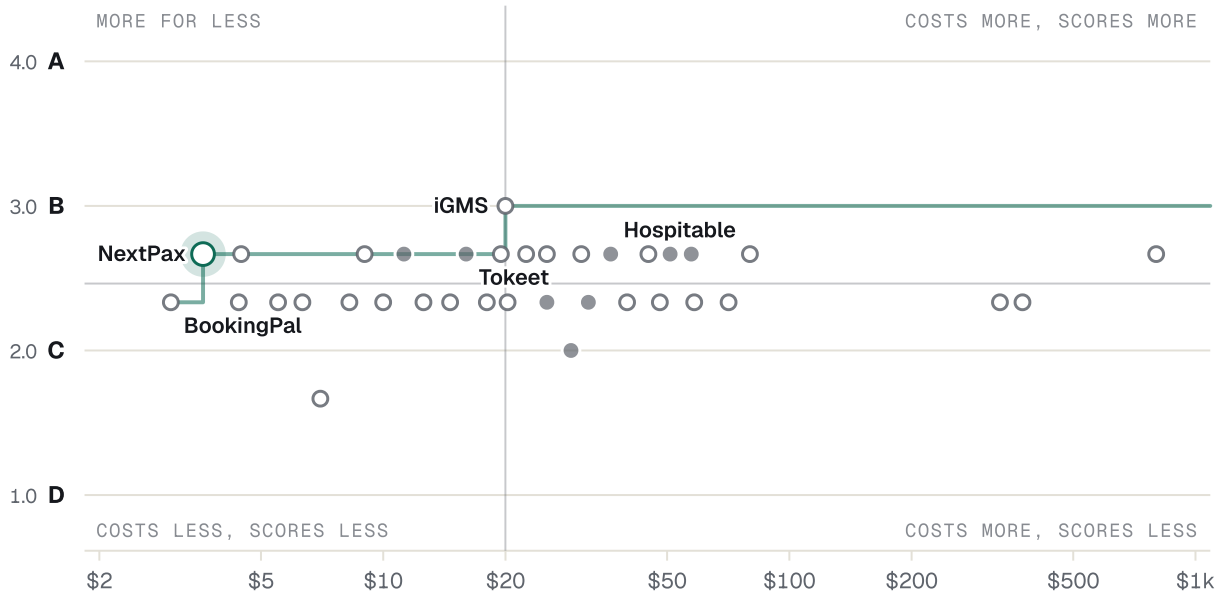

Each grade against the category

Every bar is all 54 vacation rental tools we grade, cut by the letter each got. NextPax's own letter is outlined.

Price against what you get

Each dot is one of 36 vacation rental tools. Further left costs less; higher up scores better on features, ease of use and platforms. NextPax is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace NextPax you would be making two-way connections to Airbnb, Booking.com and Vrbo. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 40 of the 53 other vacation rental tools grade higher. It costs $43.20 a year.

What you could make

- Reports: an app builder makes this well.

What you could not

- Two-way connections to Airbnb, Booking.com and Vrbo.

- It plugs into other products, Airbnb, Booking.com and Vrbo among them, and has an API.
- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. NextPax's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Rentals United, Hosthub, Smily, Beds24 and BookingPal
