Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace nichesss you would be making a library of papers and sources to search. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 54 of the 95 other SEO content tools grade higher. It costs $228 a year.

What you could make

- Long-form writing: an app builder makes this well.

What you could not

- A library of papers and sources to search.

- AI features, unless you pay a model provider for each request yourself.

What this rests on. nichesss's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
