07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Nintex's own pages, its app-store listings and our grades. Every fact in it is on Nintex's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.4

GPA, above 90 of the 134 other automation tools we grade

Nintex offers workflow automation, process management, application development, document automation, eSign and RPA across cloud, self-hosted K2 and Salesforce editions. Pricing is handled through its contact page; a 30-day free trial is offered.

To get you started, here are **8 things to know about Nintex**, taken from its own pages and our grades.

1 **Best for workflow and document automation for enterprises**

Nintex covers workflow, process mapping, document automation, e-signing and RPA, with 30-day trials per product.

2 **You can try it first**

30-day free trial (Workflow and Apps trial and a Process Manager trial)

3 **It runs on Web**

Web.

4 **Workflow**

Nintex Automation CE manages and automates business processes and workflows.

5 **Process management**

Maps, documents and optimizes business processes.

6 **Document automation**

Generates documents, also inside Salesforce.

7 **A 2.4 GPA, above 90 of 134**

That is against the other automation tools we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Nintex you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for workflow and document automation for enterprises

Nintex covers workflow, process mapping, document automation, e-signing and RPA, with 30-day trials per product. No price is published, the pricing link goes to a contact page, and editions are split across cloud, K2 and Salesforce.

TOOLGPA REPORT CARD **Nintex** Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published: the pricing link goes to a contact page. It sits in the middle.
Free plan and trial	C	A 30-day free trial, listed separately for Workflow and Apps and for Process Manager. The pages read do not mention a card.
Features	B	Workflow, process management, document automation, eSign, RPA and a self-hosted K2 option. Nothing in the listing shows a gap in the core work.
Ease of use	C	No store rating on record. Workflows and forms have to be built.
Platforms and integrations	B	Web platform with Salesforce and Microsoft connections. No desktop or phone app listed.
Grade point average		Fair, out of 4.0 **2.4**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Nintex is for

- ✓ Fits if you run Microsoft or Salesforce and want workflow plus e-signing
- ✓ Works for a team that wants to try each product for 30 days

Who it is not for

- ✗ Skip it if you want a price on the page, as none is published
- ✗ Watch out: separate editions exist for cloud, K2 and Salesforce
- ✗ Watch out: free trials are listed product by product
- ✗ Not for you if you are one person, as it is aimed at companies

Good to know

Good for

- ✓ Microsoft and Salesforce-centered organizations
- ✓ IT teams that need self-hosted workflow software
- ✓ Teams wanting workflow, signatures and documents together

Worth knowing

- ⓘ No price is published; the pricing link goes to a contact page.
- ⓘ Separate editions exist for cloud, K2 and Salesforce.
- ⓘ Free trials are listed per product.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Nintex's current pricing could not be confirmed from its own site.

> **No price is published: the pricing link goes to a contact page.**
>
> From our grade for value for money

We could not confirm Nintex's current prices from its own site, so this guide lists no plans. nintex.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Workflow, process and document automation platform. Here is what it does, as its own site describes it, and what it covers: AI features, workflow automation, documents, forms.

> **Nothing in the listing shows a gap in the core work.**

From our grade for features

Workflow

Nintex Automation CE manages and automates business processes and workflows.

Process management

Maps, documents and optimizes business processes.

Document automation

Generates documents, also inside Salesforce.

eSign

Electronic signatures are part of the cloud platform.

RPA

Robotic process automation is listed on the platform.

Self-hosted K2

Nintex Automation K2 is self-hosted software for workflow and app development.

Where it runs

Web

What it works with

Salesforce

Microsoft

Nintex is made by Nintex, and has been around since 2006.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

90/134

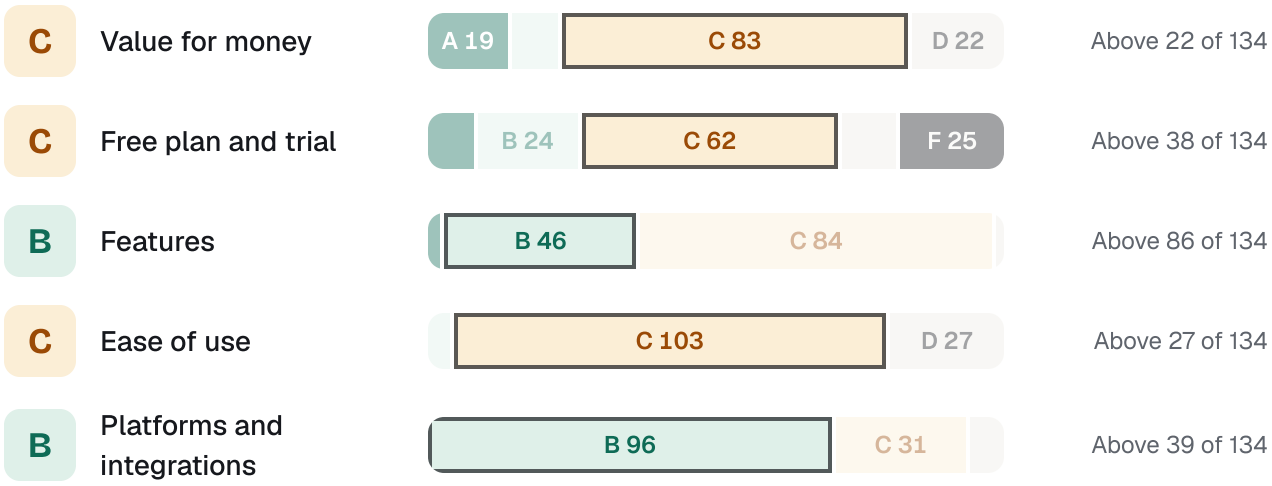

Other automation tools it is graded above

Nintex's GPA of 2.4 is higher than 90 of the 134 other automation tools we grade, and level with 23.

It stands best on features (B, above 86 of 134) and worst on value for money (C, above 22).

Each grade against the category

Every bar is all 135 automation tools we grade, cut by the letter each got. Nintex's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Nintex you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.4 is higher than 90 of the 134 other automation tools we grade.

What you could make

- Documents and forms: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.
- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Nintex's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Microsoft Power Automate, Kissflow, Appian, Pega and Zapier

The 5 tools Nintex is most often weighed against, with where each one differs from it.

2.8 GPA

Microsoft Power Automate

Free plan · from $15/mo

Cloud workflows and desktop RPA in the Microsoft Power Platform.

- Microsoft Power Automate has a free plan. Nintex does not, though it has a free trial.
- Only Microsoft Power Automate lists a Windows app.
- Nintex also covers documents and forms.

Nintex and Microsoft Power Automate compared in full

1.6 GPA

Kissflow

Paid

Enterprise low-code platform for workflows, apps and portals.

- Nintex also covers documents.
- Kissflow also covers app builder and no-code.

Nintex and Kissflow compared in full

Appian

2.0 GPA

Free plan

Low-code process automation platform for large enterprises.

- Appian has a free plan. Nintex does not, though it has a free trial.
- Nintex also covers documents and forms.
- Appian also covers AI agents, app builder, no-code and case management.

Nintex and Appian compared in full

Pega

2.0 GPA

Free trial

Enterprise workflow, decisioning and AI agent platform.

- Nintex also covers documents and forms.
- Pega also covers AI agents, no-code and case management.

Nintex and Pega compared in full

Zapier

2.6 GPA

Free plan · from $19.99/mo

Workflow automation across 9,000+ apps, with AI agents.

- Zapier has a free plan. Nintex does not, though it has a free trial.
- Only Zapier lists a browser extension.
- Nintex also covers documents and forms.

Nintex and Zapier compared in full

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

10

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

PART 07 · ABOUT

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at **toolgpa.com**.
