07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Numeric's own pages, its app-store listings and our grades. Every fact in it is on Numeric's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 22 of the 127 other accounting and invoicing tools we grade

Numeric is a finance platform that began as month-end close management and now also covers account reconciliation, flux analysis, cash matching, billing and revenue recognition. It can sit on top of an existing ERP, and a newer ERP replacement option is offered for teams that want it as their system of record.

To get you started, here are **7 things to know about Numeric**, taken from its own pages and our grades.

> **No store rating on record, and it connects to your ERP, banks and data tools before it is useful.**
>
> From our grade for ease of use

1 **Best for finance teams that want close management on top of their ERP**

But no prices are published, every plan is quoted after a demo, and it is sold by module.

2 **It runs on Web**

Web.

3 Close management

A project-management view of the month-end close with live ERP connections, automatic reconciliations, transaction monitoring and review notes.

4 Flux analysis and reporting

Compares account balances period over period and supports custom reports, with an in-app AI called Prism that surfaces items needing review.

5 Cash management

Matches bank transactions to the ledger automatically (the page says up to 95%), automates journal entries and parses bank statements for reconciliations.

6 A 2.0 GPA, above 22 of 127

That is against the other accounting and invoicing tools we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace Numeric you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for finance teams that want close management on top of their ERP

Numeric covers close management, reconciliation, flux analysis, cash matching, billing and revenue recognition, and now offers an ERP replacement. But no prices are published, every plan is quoted after a demo, and it is sold by module.

TOOLGPA REPORT CARD — **Numeric** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published and every plan is quoted after a demo, so we can't compare cost.
Free plan and trial	F	No free plan and no trial on the listing.
Features	B	Close management, flux analysis, cash management, billing and revenue recognition, and ERP replacement. The listing shows no gap in the close work.
Ease of use	C	No store rating on record, and it connects to your ERP, banks and data tools before it is useful.
Platforms and integrations	B	Web only, with Stripe, Snowflake, Databricks, HubSpot, Salesforce, Brex and Ramp.

Grade point average — Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Numeric is for

- ✓ Fits if you run a finance team that already has an ERP and wants a faster close
- ✓ Makes sense if you want billing and revenue recognition from the same vendor

Who it is not for

- ✗ Skip it if you want a price on the page, because every plan is quoted after a demo
- ✗ Not for you if you're a freelancer or sole trader, since it is aimed at companies with an accounting team
- ✗ Watch out: modules are priced separately, and the ERP replacement is separate again
- ✗ Tight if you want to try it first, because there is no free plan or trial

Good to know

Good for

- ✓ In-house accounting teams running a monthly close on top of an ERP
- ✓ Finance teams that want reconciliations and flux review in one place
- ✓ Companies weighing a replacement for NetSuite

Worth knowing

- ⓘ No prices are published; every plan is quoted after a demo, so cost cannot be compared here.
- ⓘ Sold by module: close management, cash management and billing and revenue are priced separately from the ERP replacement.
- ⓘ Aimed at companies with an accounting team, not at freelancers or sole traders.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Numeric's current pricing could not be confirmed from its own site.

> **No price is published and every plan is quoted after a demo, so we can't compare cost.**
>
> From our grade for value for money

We could not confirm Numeric's current prices from its own site, so this guide lists no plans. numeric.io has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Month-end close, cash matching and revenue tools for finance teams. Here is what it does, as its own site describes it, and what it covers: AI features, workflow automation, reports, dashboards.

> **Close management, flux analysis, cash management, billing and revenue recognition, and ERP replacement.**
>
> From our grade for features

Close management

A project-management view of the month-end close with live ERP connections, automatic reconciliations, transaction monitoring and review notes.

Flux analysis and reporting

Compares account balances period over period and supports custom reports, with an in-app AI called Prism that surfaces items needing review.

Cash management

Matches bank transactions to the ledger automatically (the page says up to 95%), automates journal entries and parses bank statements for reconciliations.

Billing and revenue recognition

Ingests usage events, matches them to contract line items, creates invoices and keeps revenue schedules updated for ASC 606.

ERP replacement

A newer option that replaces NetSuite with Numeric's own system of record, with subledger automation and the billing and revenue suite included.

Numeric is made by Numeric.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

22/127

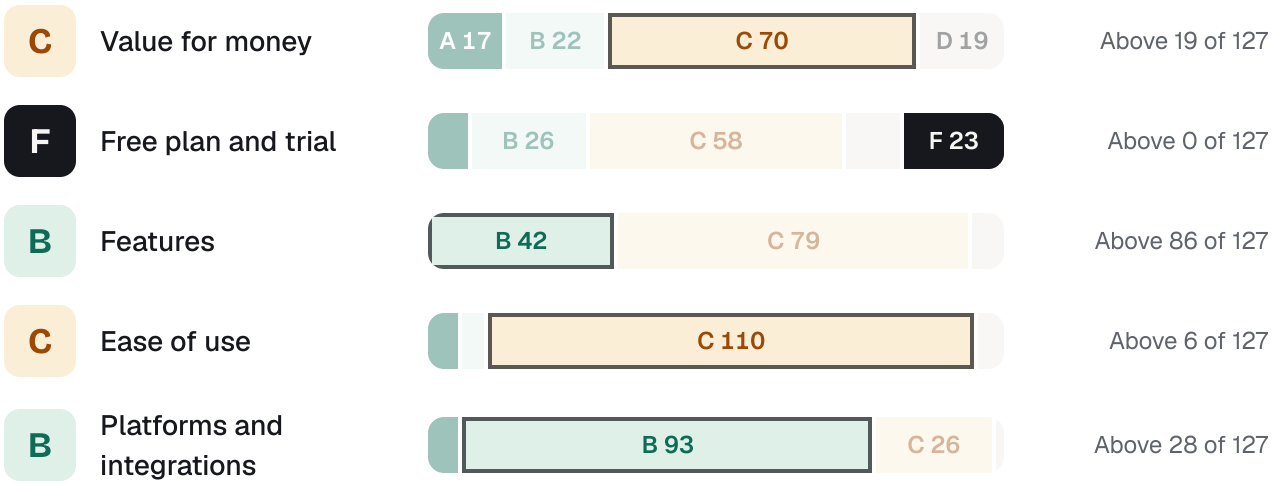

Other accounting and invoicing tools it is graded above

Numeric's GPA of 2.0 is higher than 22 of the 127 other accounting and invoicing tools we grade, and level with 20.

It stands best on features (B, above 86 of 127) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 128 accounting and invoicing tools we grade, cut by the letter each got. Numeric's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Numeric you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 85 of the 127 other accounting and invoicing tools grade higher.

What you could make

- Reports: an app builder makes this well.

What you could not

- Connections to other products, each kept working as those products change.
- Connections that pull numbers from dozens of other services.
- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Numeric's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

FloQast, BlackLine, NetSuite, Rillet and Puzzle

The 5 tools Numeric is most often weighed against, with where each one differs from it.

2.0 GPA

FloQast

Paid

Month-end close management and AI reconciliation for accounting teams.

- Numeric also covers dashboards.
- FloQast also covers bookkeeping.

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

10

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Numeric free?

No. Numeric is a paid product.

What platforms does Numeric work on?

Numeric is available on Web.

Does Numeric have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Numeric is listed for Web.

Does Numeric have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Numeric is listed for Web.

Is Numeric open source?

Numeric is not described as open source on its own site, as read on Nov 13, 2026.

What does Numeric integrate with?

Numeric's listing names Stripe, Snowflake, Databricks, HubSpot, Salesforce, Brex and Ramp.

Who makes Numeric?

Numeric is made by a company of the same name.

What are the alternatives to Numeric?

The closest alternatives to Numeric in our directory are FloQast, BlackLine, NetSuite, Rillet and Puzzle.

How does Numeric compare with other accounting and invoicing tools?

Numeric's GPA of 2.0 is higher than 22 of the 127 other accounting and invoicing tools we grade, and level with 20.

Could I make my own version of Numeric?

To replace Numeric you would be making connections to other products, each kept working as those products change.

Where this guide comes from

The prices, plans, platforms and features were read from Numeric's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Numeric's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Numeric. Prices change, so check numeric.io before you buy.
