Keep it

To replace Nymeria you would be making a library of papers and sources to search. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 54 of the 72 other lead and email finders grade higher. It costs $468 a year.

What you could not

- ✕ A library of papers and sources to search.
- ✕ Checking that an address exists without writing to it.

× An API that other software can build on.
