1/48

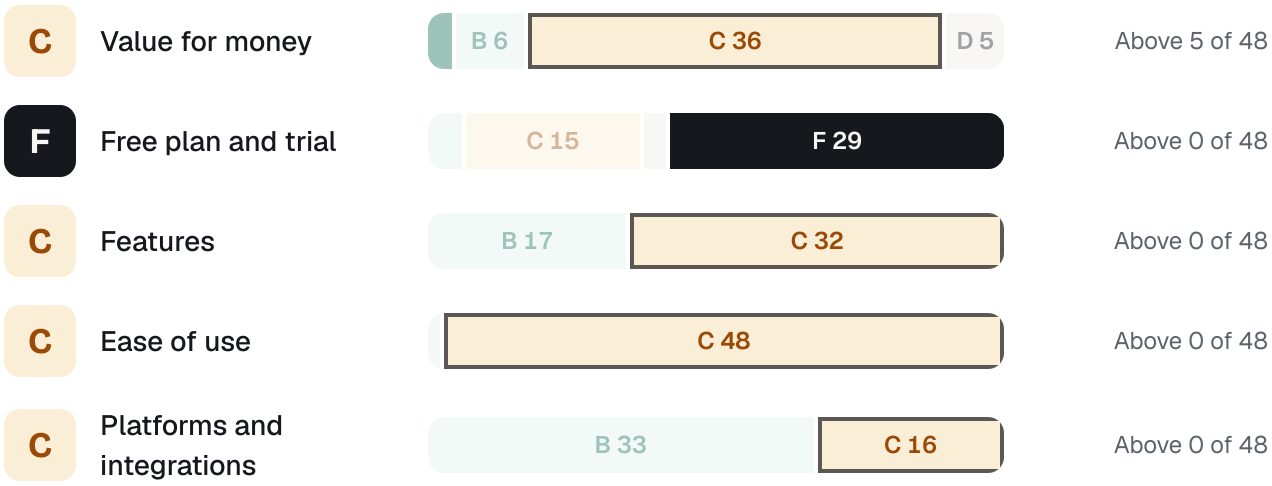

Other hiring and applicant tracking tools it is graded above

Occupop (Cezanne Recruitment)'s GPA of 1.6 is higher than 1 of the 48 other hiring and applicant tracking tools we grade, and level with 12.

It stands best on value for money (C, above 5 of 48) and worst on free plan and trial (F, above 0).

Every bar is all 49 hiring and applicant tracking tools we grade, cut by the letter each got. Occupop (Cezanne Recruitment)'s own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Occupop (Cezanne Recruitment) you would be making jobs posted to dozens of job boards at once, which takes an agreement with each board. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 35 of the 48 other hiring and applicant tracking tools grade higher.

What you could make

- Applicant tracking: an app builder makes this well.

What you could not

- Jobs posted to dozens of job boards at once, which takes an agreement with each board.
- AI features, unless you pay a model provider for each request yourself.
- Sharing with other people, which means accounts and invitations.

What this rests on. Occupop (Cezanne Recruitment)'s listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
