07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Odyssey's own pages, its app-store listings and our grades. Every fact in it is on Odyssey's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.2

GPA, above 0 of the 168 other AI image and video generators we grade

Odyssey is an AI research company building world models, including Odyssey-3 and the multi-agent Agora-2, aimed at robotics, autonomous driving, agent training and gaming. It runs a developer API whose access is requested. No public prices were found.

To get you started, here are **7 things to know about Odyssey**, taken from its own pages and our grades.

> **It runs a developer API you request access to, and no public prices turned up on its site.**
>
> From our report card of Odyssey

1 **Best for following world-model research**

Odyssey is an AI research company building world models aimed at robotics, driving, agent training and games.

2 **It runs on Web**

Web.

3 **Odyssey-3 world model**

A foundation world model the company says learns physics, dynamics and cause and effect.

4 **Agora-2**

A multi-agent world model where several people or AIs share one simulated world in real time.

5 **PROWL-2**

A training framework in which agents and their world model each learn from their own curriculum.

6 **A 1.2 GPA, above 0 of 168**

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Odyssey you would be making a video model, which you can rent by the second but not make. That is not a weekend's work, with an AI app builder or without one.

OUR GRADE 1.2 GPA, weak	

The report card

Best for following world-model research

Odyssey is an AI research company building world models aimed at robotics, driving, agent training and games. It runs a developer API you request access

to, and no public prices turned up on its site. It's a research company first, and image and video makers have little here to buy today.

TOOLGPA REPORT CARD	Odyssey	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, so it sits in the middle of what AI image and video tools charge. API access is by request.
Free plan and trial	F	No free plan or trial on record. There's a 'Try Odyssey-3' link, but no allowance is listed.
Features	D	World models for robotics, driving and agent training, plus a developer API. Few of those fit an image or video creator's job.
Ease of use	D	No rating on record. It's an API you request access to, and what you do with it is up to you and your code.
Platforms and integrations	C	Web only: a company site and a developer API requested by form. No apps and no integrations are listed.
Grade point average		Weak, out of 4.0 **1.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Odyssey is for

- ✓ Fits if you build robotics, driving or agent-training systems that need world models
- ✓ Makes sense if you follow world-model research and want API access

Who it is not for

- ✗ Not for you if you want a tool that makes pictures or videos from a prompt
- ✗ Skip it if you need a price before you start, as none is public
- ✗ Watch out: API access is by request, and a new model was going to existing users first
- ✗ Too light for everyday use: there's no app or self-serve plan on record

Good to know

Good for

- ✓ Robotics and simulation teams exploring world models
- ✓ Developers who want to request API access to interactive video models

Worth knowing

- ⓘ No pricing was found on the company's site or its developer site.
- ⓘ API access is by request, and a new model was being rolled out to existing users first.
- ⓘ It is a research-led company, and its pages are aimed at robotics, driving and agent training more than image creators.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Odyssey's current pricing could not be confirmed from its own site.

> **No price is published, so it sits in the middle of what AI image and video tools charge.**
>
> From our grade for value for money

We could not confirm Odyssey's current prices from its own site, so this guide lists no plans. odyssey.systems has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Foundation world models for robotics, simulation and interactive video. Here is what it does, as its own site describes it, and what it covers: public API, AI features, video generation.

> **World models for robotics, driving and agent training, plus a developer API.**

From our grade for features

Odyssey-3 world model

A foundation world model the company says learns physics, dynamics and cause and effect.

Agora-2

A multi-agent world model where several people or AIs share one simulated world in real time.

PROWL-2

A training framework in which agents and their world model each learn from their own curriculum.

Developer API

The Odyssey API site says Odyssey-2 Max is rolling out to existing API users, with priority access by request.

Where it runs

Web

What it works with

Its own pages name no integrations.

Odyssey is made by Odyssey.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

0/168

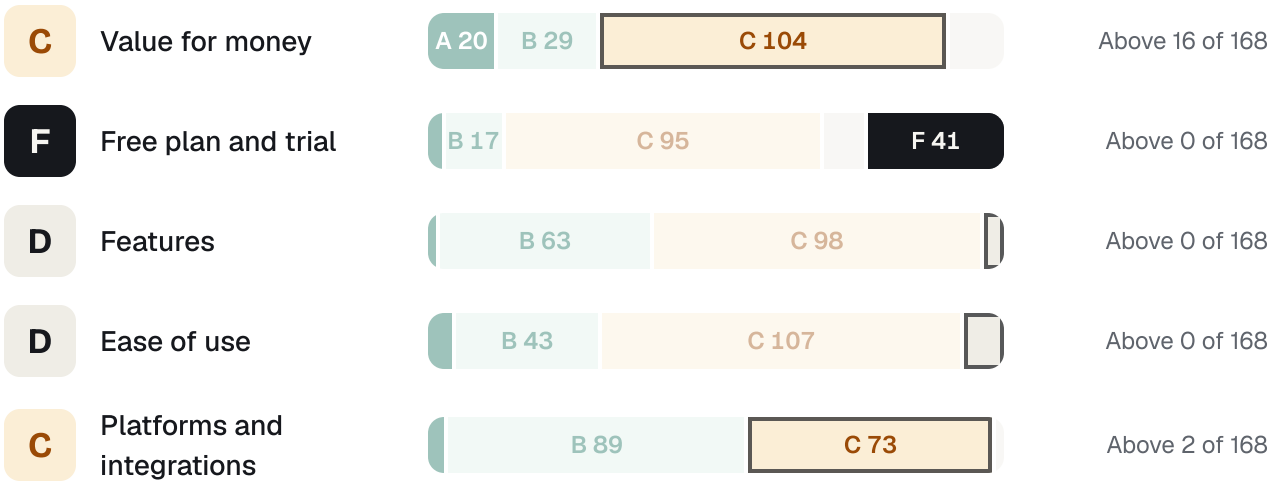

Other AI image and video generators it is graded above

Odyssey's GPA of 1.2 is higher than 0 of the 168 other AI image and video generators we grade.

It stands best on value for money (C, above 16 of 168) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 169 AI image and video generators we grade, cut by the letter each got. Odyssey's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Odyssey you would be making a video model, which you can rent by the second but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 168 of the 168 other AI image and video generators grade higher.

What you could not

- ✕ A video model, which you can rent by the second but not make.
- ✕ An API that other software can build on.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Odyssey's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Decart, Runway, Luma and Google Veo

The 4 tools Odyssey is most often weighed against, with where each one differs from it.

2.0 GPA

Decart

Free trial

Real-time AI video editing and world models through an API.

- Decart also covers image generation.

Odyssey and Decart compared in full

2.6 GPA

Runway

Free trial · from $12/mo

AI video, image and audio studio with its own Gen-4.5 model.

- Only Runway lists iOS and Android apps.
- Runway also covers video editing, AI agents and image generation.

Odyssey and Runway compared in full

2.0
GPA

Luma

Free trial · from $25/mo

Creative agents for video and images, built on Luma's Ray models.

- Luma also covers video editing, AI agents and image generation.

Odyssey and Luma compared in full

2.0
GPA

Google Veo

From $4.99/mo

Google DeepMind's text-to-video model with native audio.

Odyssey and Google Veo compared in full

Quick answers

The questions people ask about it, each answered in a line or two

10

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Odyssey free?

No. Odyssey is a paid product.

What platforms does Odyssey work on?

Odyssey is available on Web.

Does Odyssey have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Odyssey is listed for Web.

Does Odyssey have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Odyssey is listed for Web.

Is Odyssey open source?

Odyssey is not described as open source on its own site, as read on Nov 13, 2026.

Does Odyssey have an API?

Yes. Odyssey offers a public API, according to its own site.

Who makes Odyssey?

Odyssey is made by a company of the same name.

What are the alternatives to Odyssey?

The closest alternatives to Odyssey in our directory are Decart, Runway, Luma and Google Veo.

How does Odyssey compare with other AI image and video generators?

Odyssey's GPA of 1.2 is higher than 0 of the 168 other AI image and video generators we grade.

Could I make my own version of Odyssey?

To replace Odyssey you would be making a video model, which you can rent by the second but not make.

Where this guide comes from

The prices, plans, platforms and features were read from Odyssey's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Odyssey's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Odyssey. Prices change, so check odyssey.systems before you buy.

PART 07 · ABOUT

About ToolGPA

Who made this guide, what else is on the site, and how to cite it

7,721

Tools graded, in 95 categories

ToolGPA grades software the way a school report grades a pupil: five subjects, a letter for each with the reason written beside it, and a GPA that averages them. Prices, plans and platforms are read from each maker's own pages and dated, so you always know how fresh a figure is.

Every grade, review and ranking on ToolGPA is our own judgement. No company can pay for a grade or change one. Every tool on the site has a guide like this one, free to download and pass on. It all lives at **toolgpa.com**.
