PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

39/45

Other PDF editors it is graded above

Online2PDF's GPA of 3.0 is higher than 39 of the 45 other PDF editors we grade, and level with 4.

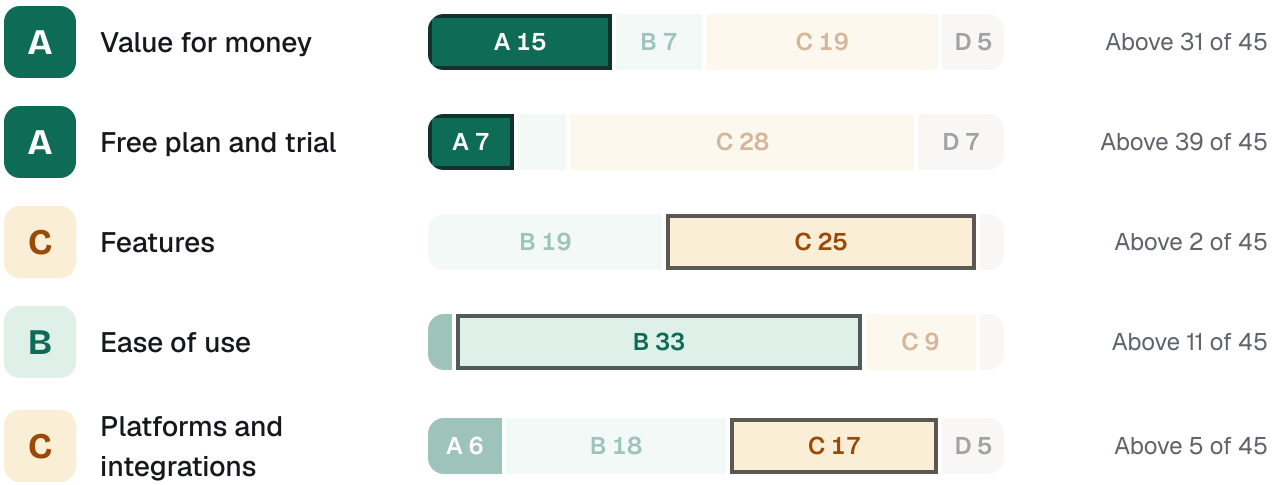

It stands best on free plan and trial (A, above 39 of 45) and worst on features (C, above 2).

Online2PDF has no paid plan.

On features, ease of use and platforms it scores 2.3 out of 4. Nothing scores higher for less, though at least one tool matches that score at a lower price.

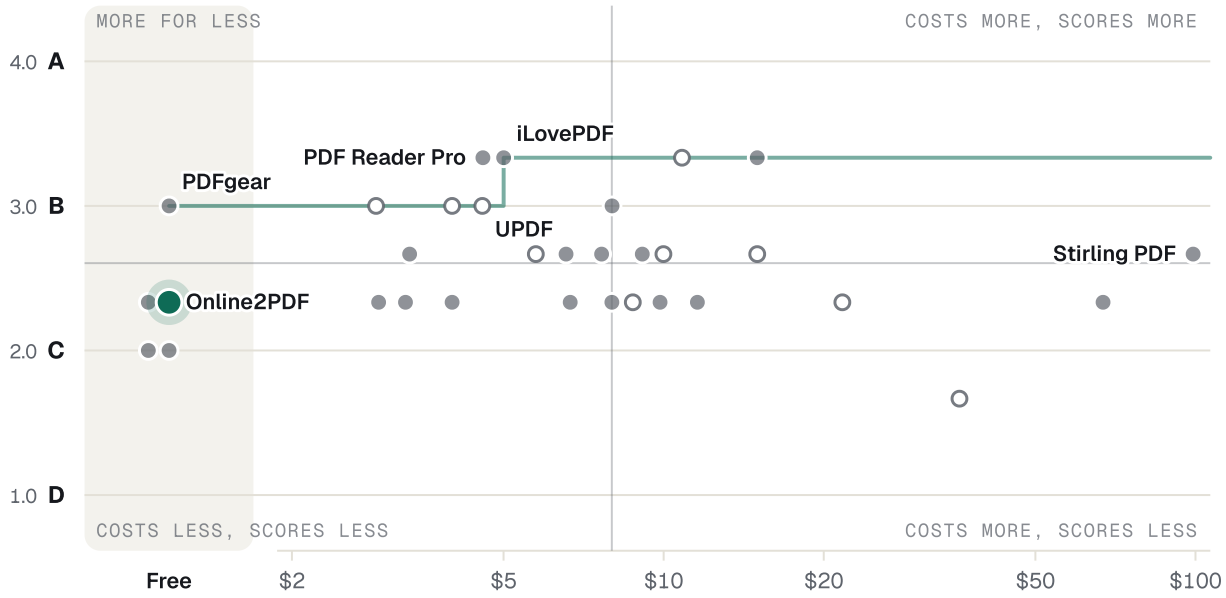

Each grade against the category

Every bar is all 46 PDF editors we grade, cut by the letter each got. Online2PDF's own letter is outlined.

Price against what you get

Each dot is one of 32 PDF editors. Further left costs less; higher up scores better on features, ease of use and platforms. Online2PDF is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

Online2PDF is free, so making your own would save you nothing.

And it is not the kind of software a weekend replaces. It is one of the better ones too: its GPA of 3.0 is higher than 39 of the 45 other PDF editors we grade.

What you could make

- File compression: an app builder makes this well.

What you could not

- Editing the text inside a PDF without breaking its layout.

What this rests on. Online2PDF's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
