Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 15 of the 60 other therapy and clinic software we grade

OptimisPT is an EMR for physical, occupational and speech therapy clinics. It combines documentation with embedded clinical decision support, scheduling, billing, a patient portal and an ambient-listening AI scribe. The vendor also sells access to contract therapists through a staffing network. Pricing is not published.

To get you started, here are **7 things to know about OptimisPT**, taken from its own pages and our grades.

> **It publishes no price, free plan or trial, and it doesn't list counselling or mental health workflows.**
>
> From our report card of OptimisPT

1 **Best for EMR with AI notes for PT, OT and speech therapy**

OptimisPT is an EMR for physical, occupational and speech therapy clinics, with AI documentation, scheduling, billing and a patient app.

2 **It runs on 3 platforms**

Web, iOS and Android.

3 **Documentation with decision support**

Notes use built-in alerts, reminders, electronic outcome measures and customizable text templates, with compliance prompts.

4 **AI scribe**

Ambient listening captures a visit and drafts documentation, which the clinician reviews.

5 **Scheduling and billing**

A customizable schedule that handles multi-site clinics, plus billing and OptimisPay, an embedded payment tool.

6 **A 1.8 GPA, above 15 of 60**

That is against the other therapy and clinic software we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace OptimisPT you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for EMR with AI notes for PT, OT and speech therapy

OptimisPT is an EMR for physical, occupational and speech therapy clinics, with AI documentation, scheduling, billing and a patient app. It publishes no price, free plan or trial, and it doesn't list counselling or mental health workflows.

TOOLGPA REPORT CARD	OptimisPT	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; a demo is the way to a quote, so it sits in the middle.
Free plan and trial	F	No free plan and no self-serve trial is advertised.
Features	C	Documentation with decision support, an AI scribe, scheduling, billing, a portal and HL7 interfaces. Aimed at rehab therapy only.
Ease of use	C	Bought through a demo and set up with the vendor; no store rating on record.
Platforms and integrations	B	Web plus iOS and Android, with Kareo and Tebra links, but no desktop app.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who OptimisPT is for

- ✓ Fits if you run a PT, OT or speech therapy clinic
- ✓ Works for clinics that want AI-written notes in the same system as billing

Who it is not for

- ✗ Skip it if you want a price before a demo
- ✗ Not for you if you offer counselling or mental health care, as those workflows aren't listed
- ✗ Tight if you want a free plan or a trial, as neither is advertised
- ✗ Watch out: a staffing network is part of the offer, and nothing is said about what it costs

Good to know

Good for

- ✓ Physical, occupational and speech therapy clinics
- ✓ Multi-site rehab practices
- ✓ Clinics that want help covering open therapist positions

Worth knowing

- ⓘ No prices are published; a demo request is the way to get a quote.
- ⓘ No free plan or self-serve trial is advertised.
- ⓘ It targets rehab therapy and does not list counseling or mental health workflows.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

OptimisPT's current pricing could not be confirmed from its own site.

> **No price is published; a demo is the way to a quote, so it sits in the middle.**

From our grade for platforms and integrations

Documentation with decision support

Notes use built-in alerts, reminders, electronic outcome measures and customizable text templates, with compliance prompts.

AI scribe

Ambient listening captures a visit and drafts documentation, which the clinician reviews.

Scheduling and billing

A customizable schedule that handles multi-site clinics, plus billing and OptimisPay, an embedded payment tool.

Patient portal and app

A portal for intake paperwork and optimumMe, a patient app on iOS and Android, with NPS surveys and mass email.

Staffing network

The Optimum Care Provider Network supplies licensed therapists for a hybrid care model when a clinic is short-staffed.

Reports and HL7 interfaces

Custom reports and analytics, ready-made HL7 integrations with other software and custom interface work.

Where it stands

Its grades against its category, and whether to keep it or make your own

15/60

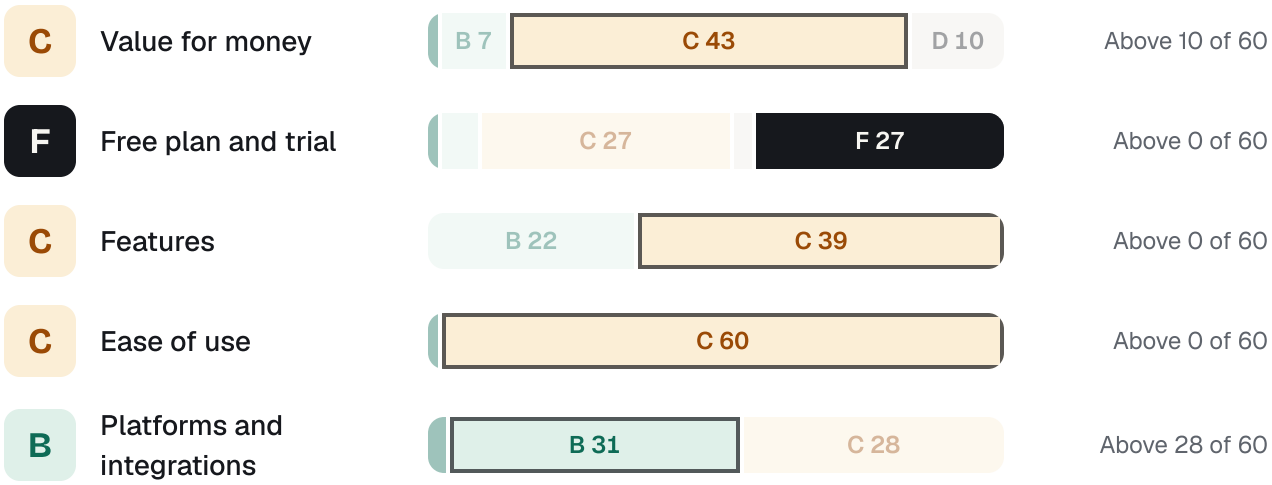

Other therapy and clinic software it is graded above

OptimisPT's GPA of 1.8 is higher than 15 of the 60 other therapy and clinic software we grade, and level with 11.

It stands best on platforms and integrations (B, above 28 of 60) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 61 therapy and clinic software we grade, cut by the letter each got. OptimisPT's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace OptimisPT you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 34 of the 60 other therapy and clinic software grade higher.

What you could make

- Clinical notes and reports: an app builder makes these well.

What you could not

- Insurance claims sent to payers through a clearinghouse.
- A real app for iOS and Android. Something home-made would be a web page.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. OptimisPT's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
