Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 11 of the 72 other inventory management tools we grade

Orderwise is business software from the UK that combines stock control, warehouse management, multichannel order handling and accounts in one system. It is aimed at wholesale, distribution and retail businesses and is part of the Forterro group. It is sold through demos and quotes, with a newer cloud subscription alongside the original licensed software.

To get you started, here are **7 things to know about Orderwise**, taken from its own pages and our grades.

> **It is sold by demo and quote, the web client is only in the cloud version, and for a small shop it is more than a stock tracker.**

1 **Best for stock, warehouse and orders in one UK system**

Orderwise combines stock control, warehouse management, multichannel orders and accounts for wholesalers, distributors and retailers.

2 **It runs on Web**

Web.

3 **Stock control**

Real-time stock across warehouses and locations, with usage-based forecasting, dynamic reorder levels and expiry tracking.

4 **Traceability**

The stock page lists tools for forecasting, traceability and compliance.

5 **Multichannel selling**

Connects retail outlets, online marketplaces and third-party platforms, with courier integrations.

6 **A 1.8 GPA, above 11 of 72**

That is against the other inventory management tools we grade, on value, the free plan, features, ease of use and platforms.

7 **Your call**

You could make the core of Orderwise for yourself: inventory and reports.

Orderwise

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published and everything is quoted, so there is no figure to set against this category's $91 middle price.
Free plan and trial	F	No free plan or trial; it is sold by demo and quote.
Features	B	Stock control, traceability, multichannel selling, warehouse management and purchase orders in one system. The listing shows no gap in the core work, though it is a full ERP.
Ease of use	C	A full ERP and warehouse system takes a rollout, and no store rating is on record.
Platforms and integrations	C	The web client is described as exclusive to Orderwise Cloud, and the pages we read name no integrations.

Grade point average — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Orderwise is for

- ✓ Fits if you run a mid-sized wholesale or distribution business and want stock, warehouse and accounts together
- ✓ Makes sense if you already sell on several channels and need orders in one place

Who it is not for

- ✗ Skip it if you want a price on the page, as none is published
- ✗ Not for you if you only need a simple stock count, because this is a full ERP and warehouse system
- ✗ Watch out: the web client is part of the cloud offer only
- ✗ Watch out: no free plan or trial is shown, only demos

Good to know

Good for

- ✓ UK wholesalers and distributors with several warehouses
- ✓ Retailers syncing tills, websites and marketplaces
- ✓ Businesses that want ERP, stock and accounts in one system

Worth knowing

- ⓘ No prices are published; every plan is quoted through sales, so this listing records pricing as unverified.
- ⓘ The web client is described as exclusive to the Orderwise Cloud offering.
- ⓘ It is a full ERP and WMS aimed at mid-sized firms, heavier than a stock tracker for a small shop.

What it costs

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

11/72

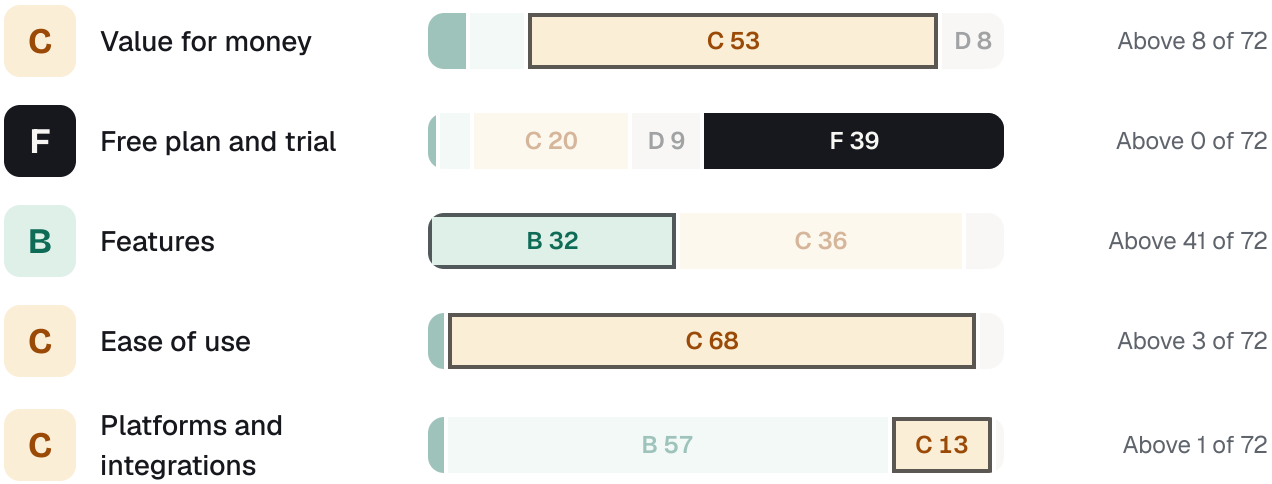

Other inventory management tools it is graded above

Orderwise's GPA of 1.8 is higher than 11 of the 72 other inventory management tools we grade, and level with 16.

It stands best on features (B, above 41 of 72) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 73 inventory management tools we grade, cut by the letter each got. Orderwise's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Your call

You could make the core of Orderwise for yourself: inventory and reports.

What you would give up is listed below. Whether that is worth the price is your call.

What you could make

- Inventory and reports: an app builder makes these well.
- It runs in a browser, which is where something home-made would run too.

What you could not

- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Orderwise's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
