Outwrite's GPA of 2.4 is higher than 59 of the 136 other writing tools we grade, and level with 16.

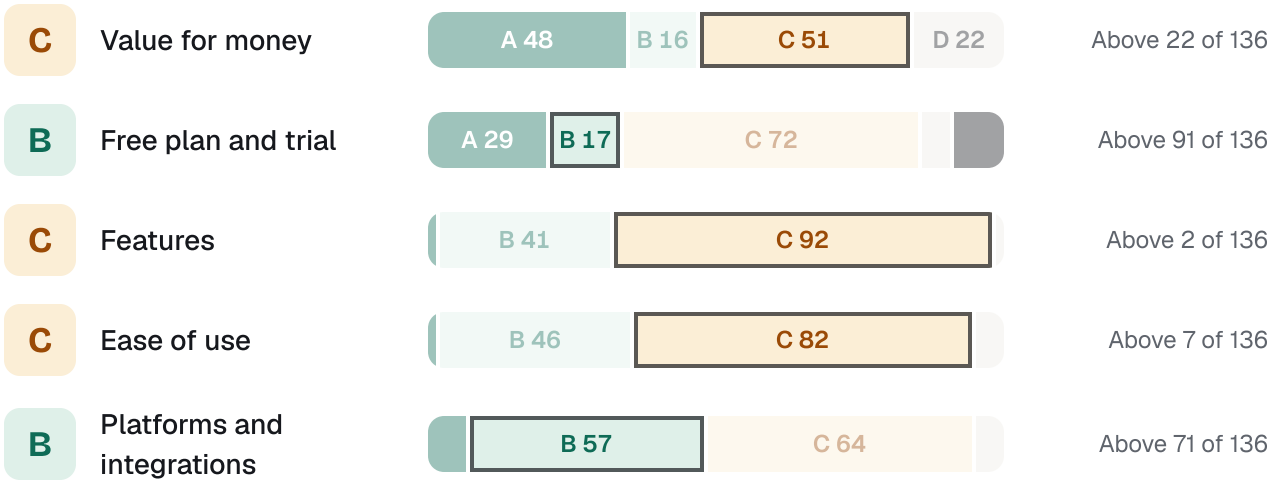

It stands best on free plan and trial (B, above 91 of 136) and worst on features (C, above 2).

Its paid plans start at $9.95 a month, against a middle price of $8.66 for the category: 45 of the 81 others that charge start lower.

Each grade against the category

Every bar is all 137 writing tools we grade, cut by the letter each got. Outwrite's own letter is outlined.

Price against what you get

Each dot is one of 107 writing tools. Further left costs less; higher up scores better on features, ease of use and platforms. Outwrite is the marked dot.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Your call

A writing app at its plainest is a page that saves what you type.

Outwrite sits between: not beyond making, and not a weekend's work either. What you would give up is listed below. Whether that is worth the price is your call. It costs $119.40 a year.

What you could make

- It runs in a browser, which is where something home-made would run too.

What you could not

- Grammar checking as you type, wherever you type.

- ✕ It plugs into other products, Google Docs, Microsoft Word and Outlook among them.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Outwrite's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
