07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Packeta's own pages, its app-store listings and our grades. Every fact in it is on Packeta's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 12 of the 80 other shipping software we grade

Packeta, which trades as Zásilkovna in Czechia, is a parcel delivery network for online shops. It delivers to pick-up points, Z-BOX lockers and home addresses in 33 countries, and gives shops free plugins that print labels and show a pick-up point picker at checkout.

To get you started, here are **7 things to know about Packeta**, taken from its own pages and our grades.

> **The shop plugin cannot fill in customs declarations, so parcels to carriers outside the EU cannot go through it.**
>
> From our report card of Packeta

1 **Best for pick-up point and locker delivery for shops**

No plans or subscription prices are published, only per-parcel fees in Czech koruna.

2 **It runs on Web**

Web.

3 **Pick-up points and Z-BOX lockers**

Parcels go to a network of more than 160,000 pick-up points, or to solar-powered Z-BOX lockers that open from a phone.

4 **Home delivery**

Delivery to a home or office address through partner carriers, plus Packeta's own home delivery service in Czechia and Slovakia.

5 **Free shop plugins**

Plugins for Shoptet, WooCommerce, PrestaShop, OpenCart, Adobe Commerce and VirtueMart submit parcels and print labels from the shop admin. The site says all are free.

6 **A 1.8 GPA, above 12 of 80**

That is against the other shipping software we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Packeta you would be making discounted carrier rates and labels, which take an agreement with each carrier. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for pick-up point and locker delivery for shops

Packeta is a parcel delivery service with pick-up points and Z-BOX lockers, which shops reach through plugins for Shoptet, WooCommerce, PrestaShop and others. No plans or subscription prices are published, only per-parcel fees in Czech koruna. The shop plugin cannot fill in customs declarations, so parcels to carriers outside the EU cannot go through it.

TOOLGPA REPORT CARD

Packeta

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; it is sold through a demo or a quote, so it sits in the middle by default. The price list page shows per-parcel fees in Czech koruna and says products vary by country.
Free plan and trial	F	No free plan and no trial are listed, so nothing is free to try.
Features	C	Pick-up points and lockers, home delivery, cash on delivery, returns, a checkout widget and an API. The plugin cannot do customs declarations and the WooCommerce plugin lacks block checkout support.
Ease of use	C	No store rating on record. You install a plugin, connect your account and set delivery options.
Platforms and integrations	B	Free plugins for Shoptet, WooCommerce, PrestaShop, OpenCart, Adobe Commerce and VirtueMart, plus an API. The listing shows a web client login only.

Grade point average Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Packeta is for

- ✓ Fits if you sell in Central Europe and want customers to collect from pick-up points or lockers
- ✓ Works for a Shoptet or WooCommerce shop that wants a delivery option at checkout

Who it is not for

- ✕ Not for you if you ship outside the EU through the plugin: it cannot fill in customs declarations
- ✕ Skip it if you use WooCommerce block checkout, which the plugin does not support
- ✕ Watch out: no plans or subscription prices are published, only per-parcel fees in koruna
- ✕ Watch out: products and fees vary by country
- ✕ Not for you if you want a multi-carrier label tool: it is a delivery service

Good to know

Good for

- ✓ Central European online shops that want pick-up point delivery at checkout
- ✓ Shops on Shoptet, WooCommerce or PrestaShop that want a free official plugin
- ✓ Stores selling across Czechia, Slovakia, Hungary, Poland and Romania

Worth knowing

- ⓘ No plans or subscription prices are published. The price list page shows per-parcel delivery fees in Czech koruna, and the site says products vary by country.
- ⓘ The shop plugin cannot fill in customs declarations, so parcels to carriers outside the EU cannot be sent through it.
- ⓘ The WooCommerce plugin does not support the WP blocks checkout, only the default cart and checkout layout.
- ⓘ Packeta is a delivery service rather than a standalone shipping app, and its listed platform is a web client login.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Packeta's current pricing could not be confirmed from its own site.

> **No price is published; it is sold through a demo or a quote, so it sits in the middle by default.**
>
> From our grade for value for money

We could not confirm Packeta's current prices from its own site, so this guide lists no plans. packeta.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Pick-up point and locker parcel delivery for online shops. Here is what it does, as its own site describes it, and what it covers: public API, online store, shipping labels.

> **Pick-up points and lockers, home delivery, cash on delivery, returns, a checkout widget and an API.**
>
> From our grade for features

Pick-up points and Z-BOX lockers

Parcels go to a network of more than 160,000 pick-up points, or to solar-powered Z-BOX lockers that open from a phone.

Home delivery

Delivery to a home or office address through partner carriers, plus Packeta's own home delivery service in Czechia and Slovakia.

Free shop plugins

Plugins for Shoptet, WooCommerce, PrestaShop, OpenCart, Adobe Commerce and VirtueMart submit parcels and print labels from the shop admin. The site says all are free.

Checkout widget and API

A pick-up point search widget lets customers filter points by opening hours, payment options and accessibility. Shops without a plugin can connect through the API.

Cash on delivery and returns

Customers can pay cash on delivery at the pick-up point, and returns are dropped off at any pick-up point after the parcel is registered in the Packeta app.

Where it runs

Web

What it works with

Shoptet
WooCommerce
PrestaShop
OpenCart
Adobe Commerce
VirtueMart

Packeta is made by Packeta, and has been around since 2010.

Where it stands

Its grades against its category, and whether to keep it or make your own

12/80

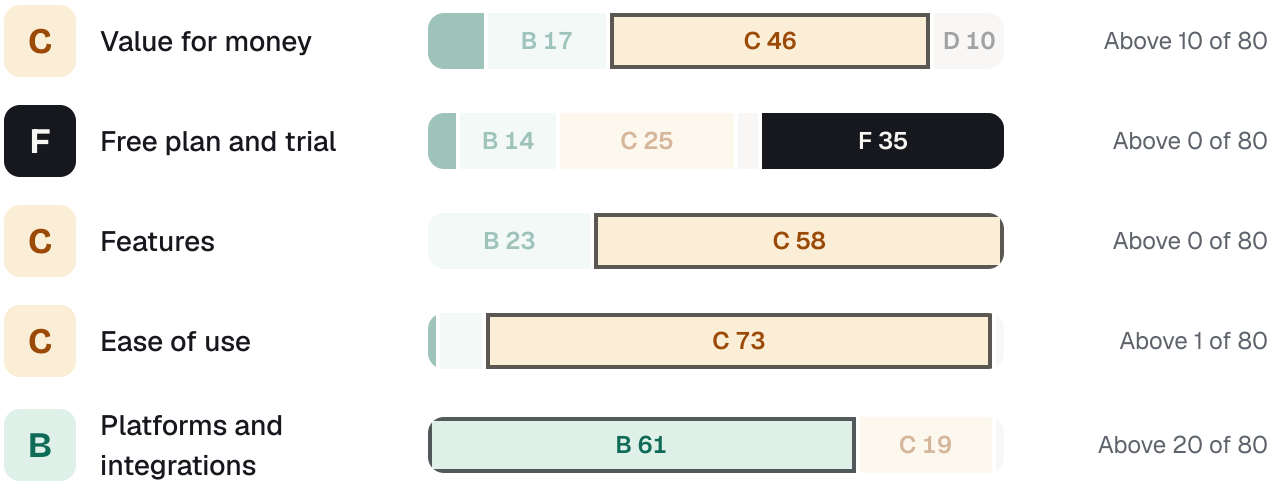

Other shipping software it is graded above

Packeta's GPA of 1.8 is higher than 12 of the 80 other shipping software we grade, and level with 18.

It stands best on platforms and integrations (B, above 20 of 80) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 81 shipping software we grade, cut by the letter each got. Packeta's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Packeta you would be making discounted carrier rates and labels, which take an agreement with each carrier. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 50 of the 80 other shipping software grade higher.

What you could not

- ✕ Discounted carrier rates and labels, which take an agreement with each carrier.
- ✕ Checkout, card payments and sales tax handled for you.
- ✕ It plugs into other products, Shoptet, WooCommerce and PrestaShop among them, and has an API.
- ✕ Hooks into the device itself: widgets.

What this rests on. Packeta's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

MyParcel, Sendcloud, Packlink PRO, Shipmondo and EasyPost

The 5 tools Packeta is most often weighed against, with where each one differs from it.

2.8 GPA

MyParcel

Free plan · from €5/mo

Shipping platform for Dutch online stores, with add-on subscriptions.

- MyParcel has a free plan. Packeta does not.
- Packeta also covers online store.
- MyParcel also covers workflow automation and reports.
