Who Paraphraser.io is for

- ✓ Fits if you want to rewrite a short passage without signing up

- ✕ Pricey if you pay: $9 a week, or $23 a month at the low end
- ✕ Skip it if you want a yearly plan under $165, because Platinum is $165 a year
- ✕ Watch out: paid plans are measured in total words, so heavy use can run out early

Good to know

- ✓ Sites that need paraphrasing through an API

Worth knowing

Your call

A writing app at its plainest is a page that saves what you type.

Paraphraser.io sits between: not beyond making, and not a weekend's work either. What you would give up is listed below. Whether that is worth the price is your call. It costs $468 a year.

What you could make

- It runs in a browser, which is where something home-made would run too.

What you could not

- Grammar checking as you type, wherever you type.

- An API that other software can build on.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Paraphraser.io's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
