Parcel Monkey is a UK courier comparison and booking service. You enter a parcel's weight and size and it returns quotes from carriers such as DHL, DPD, Parcelforce, DX and CitySprint, covering UK, European and worldwide delivery. It serves individuals and businesses, and bookings can include several parcels or a bulk upload.

To get you started, here are **7 things to know about Parcel Monkey**, taken from its own pages and our grades.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

2/80

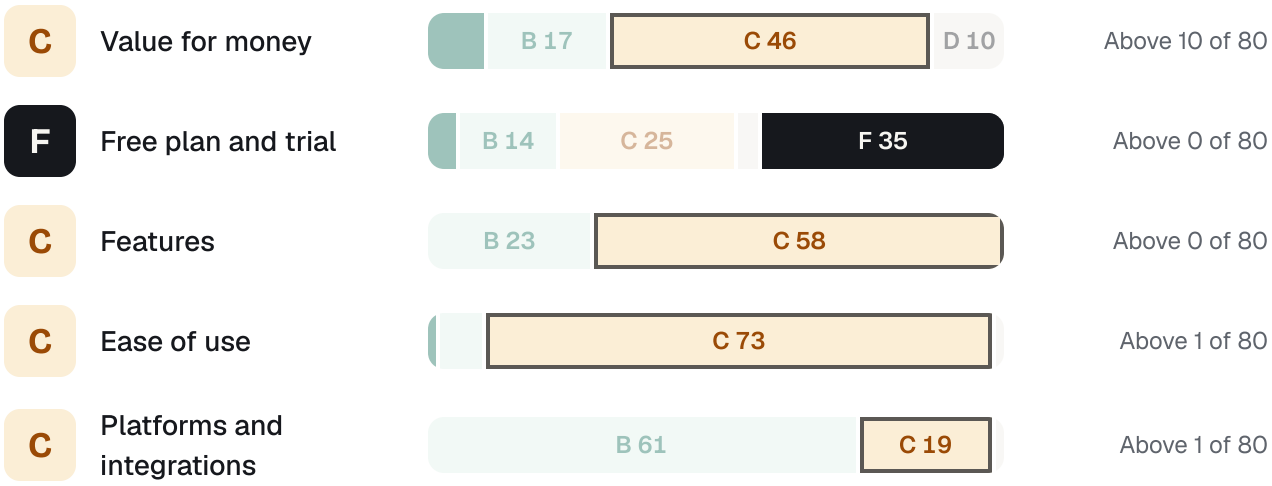

Other shipping software it is graded above

Parcel Monkey's GPA of 1.6 is higher than 2 of the 80 other shipping software we grade, and level with 9.

It stands best on value for money (C, above 10 of 80) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 81 shipping software we grade, cut by the letter each got. Parcel Monkey's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Parcel Monkey you would be making discounted carrier rates and labels, which take an agreement with each carrier. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 69 of the 80 other shipping software grade higher.

What you could not

- ✕ Discounted carrier rates and labels, which take an agreement with each carrier.
- ✕ Connections to other products, each kept working as those products change.

What this rests on. Parcel Monkey's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

Where this guide comes from

The prices, plans, platforms and features were read from Parcel Monkey's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from ParcelMonkey's own pages on 13 November 2026; the site returned a bot check on a later read, so the grades rest on the listing alone. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Parcel Monkey Ltd. Prices change, so check parcelmonkey.co.uk before you buy.
