Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 64 of the 178 other AI agents we grade

Grep AI is the platform that Parcha became when it retired its original compliance product line. It runs AI agents for research, due diligence and compliance work, with a library of more than 250 built-in agents. Agents can be created in chat or through the API, and usage is billed in credits.

To get you started, here are **9 things to know about Grep AI**, taken from its own pages and our grades.

> **Building a custom agent from a description is a learning curve, not a click.**
>
> From our grade for ease of use

1 **Best for AI agents for compliance and due-diligence research**

Parcha has become Grep AI: a library of AI agents for compliance and due-diligence research, with swarms and agents built from a description.

2 **What it costs**

Paid plans start at $20 top-up, used as you go; $167 per month on Pro, billed annually.

3 **You can try it first**

100 one-time credits, about 5 medium-effort research tasks.

4 **It runs on Web**

Web.

5 Library of built-in agents

The site lists more than 250 agents, such as company research briefs, board briefs and audit readiness checklists, that can be used as a starting point.

6 Agent swarms

A lead agent assembles specialist agents for a job, such as rating a list of businesses for risk, and exports the results as a CSV.

7 Custom agents from a description

Teams describe a procedure or upload a policy document and get a reusable agent, which can be run from chat, TypeScript, Python, REST or MCP.

8 A 2.0 GPA, above 64 of 178

That is against the other AI agents we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace Grep AI you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for AI agents for compliance and due-diligence research

Parcha has become Grep AI: a library of AI agents for compliance and due-diligence research, with swarms and agents built from a description. You pay as you go from $20 or $167 a month on Pro, but exports, custom agents and the API are not in the free trial, and team plans have no published price.

TOOLGPA REPORT CARD — **Grep AI** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	Pay as You Go starts with a $20 top-up and Pro is $167 a month billed yearly. The category's middle is $25, so the cheap entry is real but the useful features sit on Pro.
Free plan and trial	C	100 one-time credits, about 5 medium research tasks. After that you pay, and the trial has no exports, custom agents or API.
Features	C	Built-in agents, swarms, custom agents and data controls. Premium data on Pay As You Go needs a balance of at least $50.
Ease of use	C	No store rating on record. Building a custom agent from a description is a learning curve, not a click.
Platforms and integrations	C	Web only. The listing shows an API on paid plans but names no integrations.

Grade point average — Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Grep AI is for

- ✓ Fits if you run compliance checks or onboarding research and want agents to do the legwork
- ✓ Works for teams that would rather pay per task than sign a contract

Who it is not for

- ✗ Tight if you are only testing: the 100 credits are one-time and cover about 5 tasks
- ✗ Pricey if you need exports or custom agents, which start on Pro at $167 a month
- ✗ Watch out: the Parcha line was retired and clients are sent to support@parcha.ai, so older material may not match
- ✗ Watch out: premium data on Pay As You Go needs a balance of at least $50
- ✗ Not for you if you want shared team agents and SSO, as those are sold through sales with no price

Good to know

Good for

- ✓ Banks and fintechs automating onboarding and compliance reviews
- ✓ Analysts who need cited research on companies and people
- ✓ Developers who want to call research agents from code

Worth knowing

- ⓘ Parcha retired its original product line; this listing follows the rebrand to Grep AI, and existing Parcha clients are pointed to support@parcha.ai.
- ⓘ Free Trial credits are one-time, and the free trial has no exports, custom agents or API access.
- ⓘ Premium data on Pay As You Go needs a balance of at least $50.
- ⓘ Team plans with shared agents, pooled credits and SSO are sold through sales, with no published price.

From our grade for features

Library of built-in agents

The site lists more than 250 agents, such as company research briefs, board briefs and audit readiness checklists, that can be used as a starting point.

Agent swarms

A lead agent assembles specialist agents for a job, such as rating a list of businesses for risk, and exports the results as a CSV.

Custom agents from a description

Teams describe a procedure or upload a policy document and get a reusable agent, which can be run from chat, TypeScript, Python, REST or MCP.

Compliance and due diligence work

The vendor lists KYB verification, AML screening, enhanced due diligence and document verification among its solutions for banks and fintechs.

Data controls

The vendor says it does not train on customer data and that agents reach data through an isolated proxy, so they never see credentials.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Grep AI you would be making an AI agent, with the models and the safeguards behind it. That is not a weekend's work, with an AI app builder or without one.

What you could not

- ✕ An AI agent, with the models and the safeguards behind it.
- ✕ A library of papers and sources to search.
- ✕ An API that other software can build on.

What this rests on. Grep AI's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
