Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 6 of the 168 other AI image and video generators we grade

Pebblely takes a photo of a product and generates a new background around it, adding shadows and reflections to match. It offers more than 40 background themes, custom text prompts and bulk generation, and is aimed at sellers who need listing, social and ad images without a photo shoot.

To get you started, here are **8 things to know about Pebblely**, taken from its own pages and our grades.

> **That is all it does, and there is no free plan, no trial that we could read, and no refunds.**
>
> From our report card of Pebblely

1 **Best for new backgrounds for product photos**

Pebblely puts a generated background, with matching shadows and reflections, behind a product photo.

2 **Paid plans start at $9 a month**

As its pricing page puts it: $9 per month for 30 images, billed monthly.

3 **It runs on Web**

Web.

4 **Generated backgrounds**

Upload a product photo and the AI builds a background around it, adding shadows and reflections that match the scene.

5 **Background themes**

Every paid plan includes more than 40 background themes, and the site's gallery lists more than 100 example prompts to start from.

6 **Custom prompts**

Describe the scene in text instead of picking a theme, for example a product standing on a marble floor beside a dog.

7 **A 1.6 GPA, above 6 of 168**

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Pebblely you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

Best for new backgrounds for product photos

Pebblely puts a generated background, with matching shadows and reflections, behind a product photo. That is all it does, and there is no free plan, no trial that we could read, and no refunds. Bulk generation is not on the $9 plan, so look elsewhere if you have a catalogue to do.

TOOLGPA REPORT CARD — **Pebblely** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	$9 a month buys 30 images, $19 buys 200 and $39 buys 500. That sits in the ordinary range for the category, whose middle is $11.88, but the entry plan is a small allowance.
Free plan and trial	F	The pricing page lists no free plan, and its free-trial answer could not be read. Nothing free is on record.
Features	C	Backgrounds from 40+ themes or a typed prompt, plus bulk generation. It does that one job fully and it is a smaller job than most of the category, and bulk is missing on the cheapest plan.
Ease of use	C	No store rating is on record. It is a web app where you upload a photo, pick a theme and judge the results yourself.
Platforms and integrations	C	Web only, with no apps and no integrations listed.

Grade point average — Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Pebblely is for

- ✓ Fits if you sell a few products and want lifestyle shots from plain photos
- ✓ Works for small shops that make social and ad images from one product shot

Who it is not for

- ✕ Skip it if you want to try before paying, as no free plan or readable trial is listed
- ✕ Tight if you have a catalogue, since bulk generation is not on the $9 Lite plan
- ✕ Watch out: the FAQ says refunds are not offered, because images are available at once
- ✕ Too light for editing photos you already have, as it builds backgrounds and little else

Good to know

Good for

- ✓ Online sellers who need lifestyle images from plain product shots
- ✓ Small shops making social and ad images in volume
- ✓ Jewelry, candle, skincare and beverage products, which the site features

Worth knowing

- ⓘ The pricing page lists no free plan, and its free-trial answer could not be read.
- ⓘ Image allowances reset monthly: 30 on Lite, 200 on Basic and 500 on Pro.
- ⓘ Bulk generation is not on Lite.
- ⓘ The FAQ says refunds are not offered, because generated images are available immediately.

Where it stands

Its grades against its category, and whether to keep it or make your own

6/168

Other AI image and video generators it is graded above

Pebblely's GPA of 1.6 is higher than 6 of the 168 other AI image and video generators we grade, and level with 7.

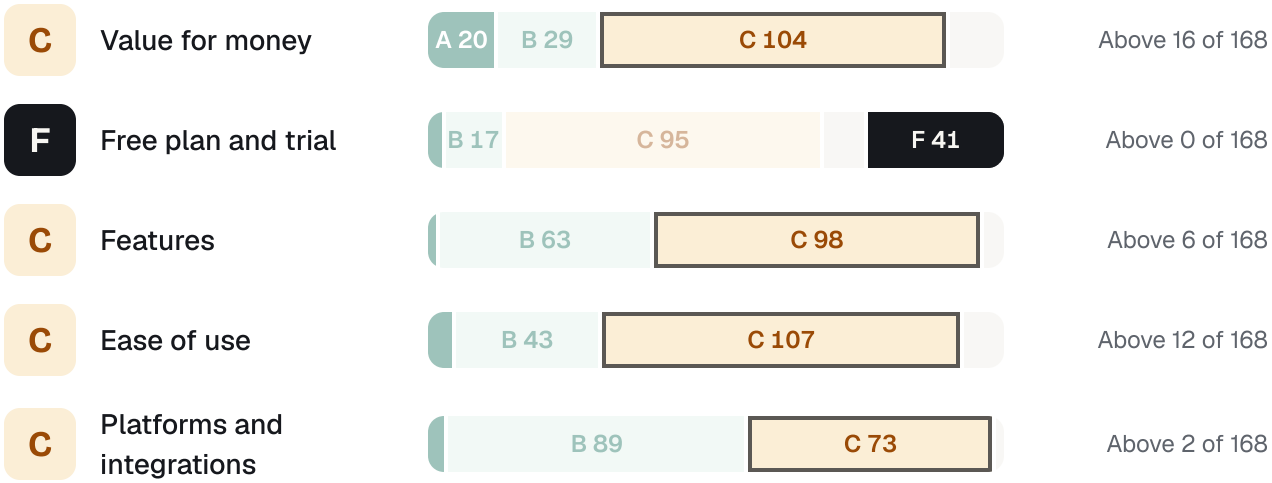

It stands best on value for money (C, above 16 of 168) and worst on free plan and trial (F, above 0).

Its paid plans start at $9 a month, against a middle price of $11.88 for the category: 37 of the 120 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 30 tools score higher and cost less.

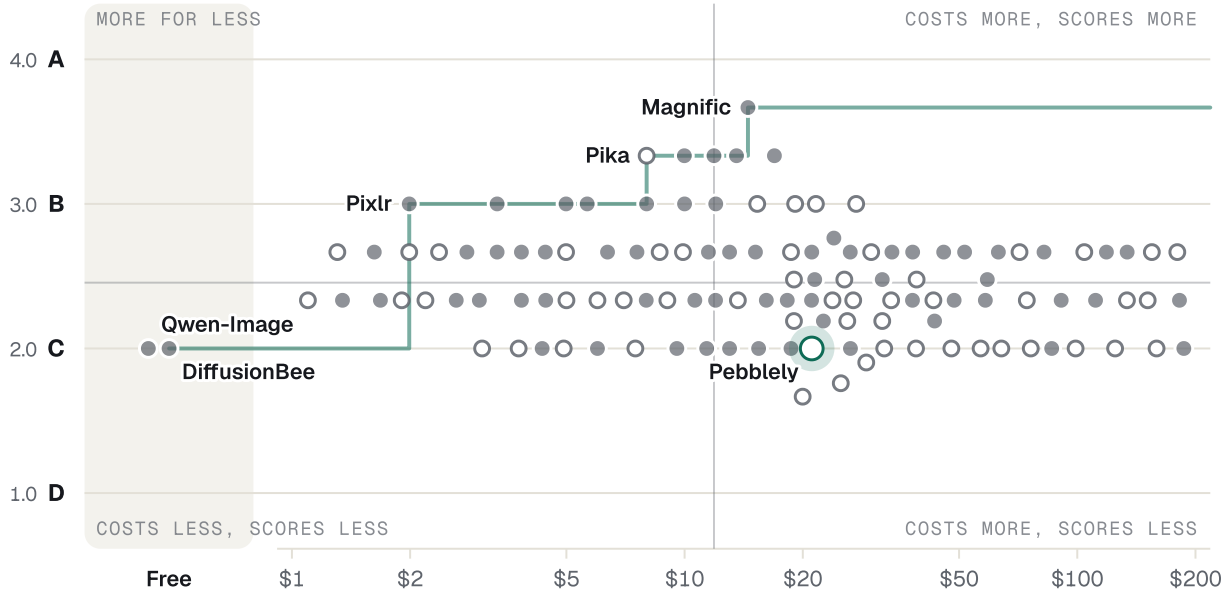

Each grade against the category

Every bar is all 169 AI image and video generators we grade, cut by the letter each got. Pebblely's own letter is outlined.

Price against what you get

Each dot is one of 123 AI image and video generators. Further left costs less; higher up scores better on features, ease of use and platforms. Pebblely is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Pebblely you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 155 of the 168 other AI image and video generators grade higher. It costs $108 a year.

What you could make

- Templates: an app builder makes this well.

What you could not

- An image model, which you can rent by the picture but not make.

- AI features, unless you pay a model provider for each request yourself.

What this rests on. Pebblely's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
