07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Photoleap's own pages, its app-store listings and our grades. Every fact in it is on Photoleap's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 6 of the 168 other AI image and video generators we grade

Photoleap is a mobile photo editor from Lightricks that combines layered editing, masking and filters with AI tools: text-to-image, background swaps, object removal, headshots and photo animation. It is distributed as a free download with in-app purchases and a 7-day free trial.

To get you started, here are **8 things to know about Photoleap**, taken from its own pages and our grades.

> **It is free to download, the AI sits behind a subscription whose price we couldn't read, and it is iPhone only.**
>
> From our report card of Photoleap

1 **Best for phone photo editing with AI tools, on iPhone**

Photoleap is a Lightricks phone editor with layers, masks, filters and AI tools such as text-to-image and object removal.

2 **You can try it first**

7-day free trial, cancel anytime.

3 **It runs on iOS**

iOS.

4 **Layers and masking**

Combine photos on layers with blending modes, transparency and transforms, with masking built into most tools.

5 **AI image generator**

Generate images from a typed idea, then keep editing the result with the app's regular tools.

6 **One-tap AI edits**

Enhance image quality, remove unwanted objects, replace or generate backgrounds, and extend an image.

7 **A 1.6 GPA, above 6 of 168**

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Photoleap you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for phone photo editing with AI tools, on iPhone

Photoleap is a Lightricks phone editor with layers, masks, filters and AI tools such as text-to-image and object removal. It is free to download, the AI sits

behind a subscription whose price we couldn't read, and it is iPhone only.

TOOLGPA REPORT CARD	Photoleap	Graded Nov 12, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	The in-app subscription price wasn't readable on the vendor's pages, so none is on record.
Free plan and trial	D	A 7-day trial is offered, but the AI tools sit behind the paid subscription.
Features	C	Layers and masking, an AI image generator, one-tap edits and photo animation.
Ease of use	C	No rating on record, and layers and masking mean a learning curve.
Platforms and integrations	D	iOS only, per the vendor's site: no Android, web or desktop.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Photoleap is for

- ✓ Fits if you edit on an iPhone and want layers and masks
- ✓ Makes sense if you want AI edits like object removal on the phone

Who it is not for

- ✗ Skip it if you use Android or a computer, because it is iOS only
- ✗ Tight if you want to stay free, as AI tools and some editing are paid
- ✗ Watch out: the subscription price isn't on the vendor's pages
- ✗ Watch out: the trial is 7 days

Good to know

Good for

- iPhone and iPad users who want AI tools inside a full photo editor
- Social creators making memes, collages and thumbnails on a phone
- People who want to blend and layer photos rather than only generate them

Worth knowing

- Prices for the in-app subscription were not readable from the vendor's pages, so none is listed here.
- The vendor's site says it is available for iOS only; no Android or desktop version is listed.
- The App Store listing shows a free download with in-app purchases; AI tools and some editing features sit behind a paid subscription.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Photoleap's current pricing could not be confirmed from its own site.

> **The in-app subscription price wasn't readable on the vendor's pages, so none is on record.**
>
> From our grade for value for money

We could not confirm Photoleap's current prices from its own site, so this guide lists no plans. photoleapapp.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: iOS

iPhone photo editor with AI image generation and layered edits. Here is what it does, as its own site describes it, and what it covers: AI features, image generation, video generation.

> **Layers and masking, an AI image generator, one-tap edits and photo animation.**

From our grade for features

Layers and masking

Combine photos on layers with blending modes, transparency and transforms, with masking built into most tools.

AI image generator

Generate images from a typed idea, then keep editing the result with the app's regular tools.

One-tap AI edits

Enhance image quality, remove unwanted objects, replace or generate backgrounds, and extend an image.

Photo animation

Add motion to a still photo, including 3D effects, and turn an image into a short video.

Pro editing support

The App Store listing names RAW support and 16-bit image depth for tonal adjustments.

Where it runs

iOS

What it works with

Its own pages name no integrations.

Photoleap is made by Lightricks Ltd.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

6/168

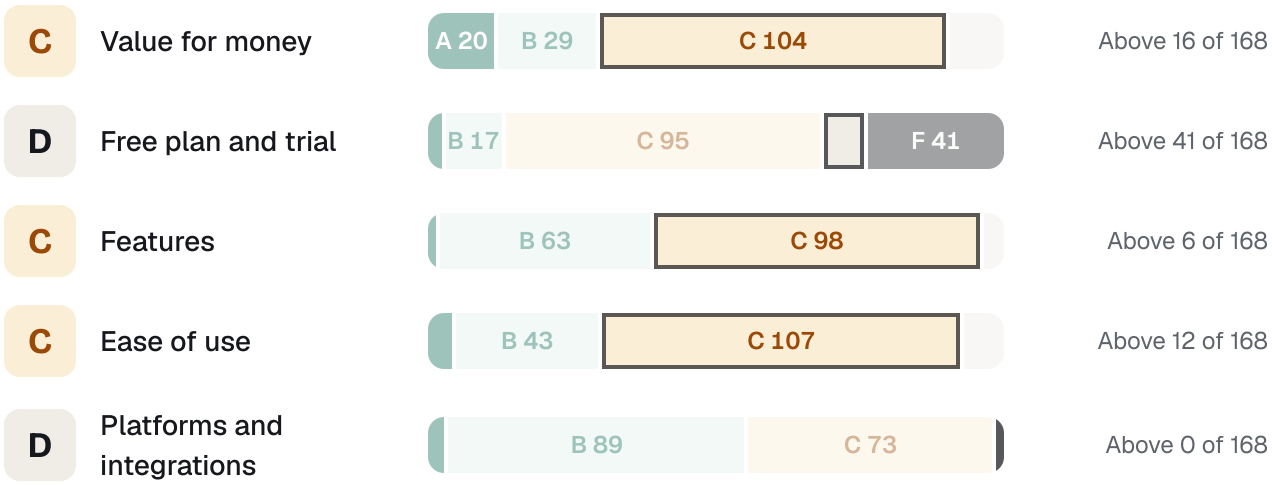

Other AI image and video generators it is graded above

Photoleap's GPA of 1.6 is higher than 6 of the 168 other AI image and video generators we grade, and level with 7.

It stands best on value for money (C, above 16 of 168) and worst on platforms and integrations (D, above 0).

Each grade against the category

Every bar is all 169 AI image and video generators we grade, cut by the letter each got. Photoleap's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Photoleap you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 155 of the 168 other AI image and video generators grade higher.

What you could not

- ✕ An image model, which you can rent by the picture but not make.
- ✕ A video model, which you can rent by the second but not make.
- ✕ A real app for iOS. Something home-made would be a web page.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Photoleap's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Pixlr, Fotor, Picsart, Lensa and Remini

The 5 tools Photoleap is most often weighed against, with where each one differs from it.

3.2 GPA

Pixlr

Free plan · from $1.99/mo

Browser photo editors with AI image, video and audio tools.

- Pixlr has a free plan. Photoleap does not, though it has a free trial.
- Only Pixlr lists a web app.
- Only Pixlr lists an Android app.

Photoleap and Pixlr compared in full

3.0 GPA

Fotor

Free plan · from $39.99/yr

Photo editor and AI image and video generator with credit plans.

- Fotor has a free plan. Photoleap does not, though it has a free trial.
- Only Fotor lists a web app.
- Only Fotor lists Android, Windows and macOS apps.

Photoleap and Fotor compared in full

2.0
GPA

Picsart

Paid

Photo and video editor with AI generation and design tools.

- Only Picsart lists a web app.
- Only Picsart lists a macOS app.
- Picsart also covers templates and video editing.

Photoleap and Picsart compared in full

2.4
GPA

Lensa

Free plan · from $2.99

Phone photo editor with AI effects, retouching and an eraser.

- Lensa has a free plan. Photoleap does not, though it has a free trial.
- Only Lensa lists an Android app.
- Photoleap also covers video generation.

Photoleap and Lensa compared in full

2.2
GPA

Remini

Free plan · from $4.99

AI photo enhancer that sharpens old and blurry pictures.

- Remini has a free plan. Photoleap does not, though it has a free trial.
- Only Remini lists a web app.
- Photoleap also covers video generation.

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

9

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Photoleap free?

No, Photoleap is a paid product, but you can try it first. 7-day free trial, cancel anytime.

What platforms does Photoleap work on?

Photoleap is available on iOS.

Does Photoleap have an Android app?

No Android app was listed when its pages were read on Nov 12, 2026. Photoleap is listed for iOS.

Does Photoleap have a Windows app?

No Windows app was listed when its pages were read on Nov 12, 2026. Photoleap is listed for iOS.

Is Photoleap open source?

Photoleap is not described as open source on its own site, as read on Nov 12, 2026.

Who makes Photoleap?

Photoleap is made by Lightricks Ltd.

What are the alternatives to Photoleap?

The closest alternatives to Photoleap in our directory are Pixlr, Fotor, Picsart, Lensa and Remini.

How does Photoleap compare with other AI image and video generators?

Photoleap's GPA of 1.6 is higher than 6 of the 168 other AI image and video generators we grade, and level with 7.

Could I make my own version of Photoleap?

To replace Photoleap you would be making an image model, which you can rent by the picture but not make.

Where this guide comes from

The prices, plans, platforms and features were read from Photoleap's own pages on Nov 12, 2026, and the grades were given on Nov 12, 2026. Graded from this listing, whose facts were read from Lightricks's own pages on 12 November 2026. Its site would not load here, so the grades follow the listing. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Lightricks Ltd. Prices change, so check photoleapapp.com before you buy.
