07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Pixop's own pages, its app-store listings and our grades. Every fact in it is on Pixop's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 14 of the 168 other AI image and video generators we grade

Pixop is a Danish video technology company selling machine-learning video enhancement to broadcasters, streamers and media companies. Pixop Prime is licensed software for live and file-based work, and Pixop FILE is a managed cloud service used through a web app or REST API.

To get you started, here are **7 things to know about Pixop**, taken from its own pages and our grades.

> **It publishes no prices at all, and it is built for media companies rather than someone with one clip to fix.**
>
> From our report card of Pixop

1 **Best for upscaling broadcast and archive video**

Pixop runs machine-learning upscaling and restoration on video for broadcasters and archives.

2 **It runs on Web**

Web.

3 **Super resolution**

Upscales HD and SD sources toward 4K UHD; the site says output depends on source quality and that a legacy SD source realistically targets clean HD.

4 **Restoration and deinterlacing**

Reduces compression artifacts, noise and flicker, and converts interlaced sources to progressive.

5 **HDR and color conversion**

Converts SDR to HDR10, HLG or PQ and BT.709 to BT.2020, with each pipeline stage optional.

6 **A 1.8 GPA, above 14 of 168**

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Pixop you would be making a video editor. That is not a weekend's work, with an AI app builder or without one.

OUR GRADE 1.8 GPA, weak	

The report card

Best for upscaling broadcast and archive video

Pixop runs machine-learning upscaling and restoration on video for broadcasters and archives. It publishes no prices at all, and it is built for

media companies rather than someone with one clip to fix.

TOOLGPA REPORT CARD	Pixop	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No price is published; the site says to get in touch, and Prime and FILE are priced separately, so there is nothing to set against the category's $10 middle.
Free plan and trial	F	No free plan, no trial and no price on the page.
Features	C	Upscaling, deinterlacing, SDR to HDR conversion, live enhancement and a managed file service. It handles video only, not still images, so it sits oddly in an image category.
Ease of use	C	No store rating on record, and it is sold through a sales process with AWS storage to connect, not started in a browser tab.
Platforms and integrations	B	Web app and REST API, with AWS and S3 hooks, plus licensed software you run in your own cloud. No phone or desktop apps.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Pixop is for

- ✓ Fits if you run a broadcast channel or archive and want live HD-to-4K upconversion
- ✓ Works for media teams that want video enhancement through an API

Who it is not for

- ✗ Skip it if you want to enhance a few photos or clips yourself, as there are no self-serve plans
- ✗ Not for you if you need a price before talking to anyone, as none is published
- ✗ Too light for still-image work: it processes video, not images or text-to-image
- ✗ Watch out: Prime is licensed software you run in your own cloud or on-premises, and Prime and FILE are priced separately

Good to know

Good for

- ✓ Broadcasters upconverting HD live channels to 4K
- ✓ Media companies remastering large video archives
- ✓ Teams that want video enhancement through a REST API

Worth knowing

- ⓘ No prices are published; the site directs visitors to get in touch, and Prime and FILE are priced separately.
- ⓘ Pixop Prime is licensed software you run in your own cloud or on-premises, aimed at broadcast workflows.
- ⓘ The vendor's pages describe a business and enterprise product with no self-serve plans for individual creators.
- ⓘ It processes video, not still images or text-to-image generation.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Pixop's current pricing could not be confirmed from its own site.

> **No free plan, no trial and no price on the page.**
>
> From our grade for free plan and trial

We could not confirm Pixop's current prices from its own site, so this guide lists no plans. pixop.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

ML video upscaling and restoration for broadcasters and archives. Here is what it does, as its own site describes it, and what it covers: public API, AI features, video editing.

> **Upscaling, deinterlacing, SDR to HDR conversion, live enhancement and a managed file service.**
>
> From our grade for features

Super resolution

Upscales HD and SD sources toward 4K UHD; the site says output depends on source quality and that a legacy SD source realistically targets clean HD.

Restoration and deinterlacing

Reduces compression artifacts, noise and flicker, and converts interlaced sources to progressive.

HDR and color conversion

Converts SDR to HDR10, HLG or PQ and BT.709 to BT.2020, with each pipeline stage optional.

Real-time live enhancement

Pixop Prime runs before the encoder in a live chain with a stated latency of about 600 ms.

Managed file processing

Pixop FILE runs on AWS, accepts input over HTTPS, S3 or a MAM system, and returns output to S3 or pre-signed URLs.

Where it runs

Web

What it works with

AWS

Amazon S3

Pixop is made by Pixop ApS.

Where it stands

Its grades against its category, and whether to keep it or make your own

14/168

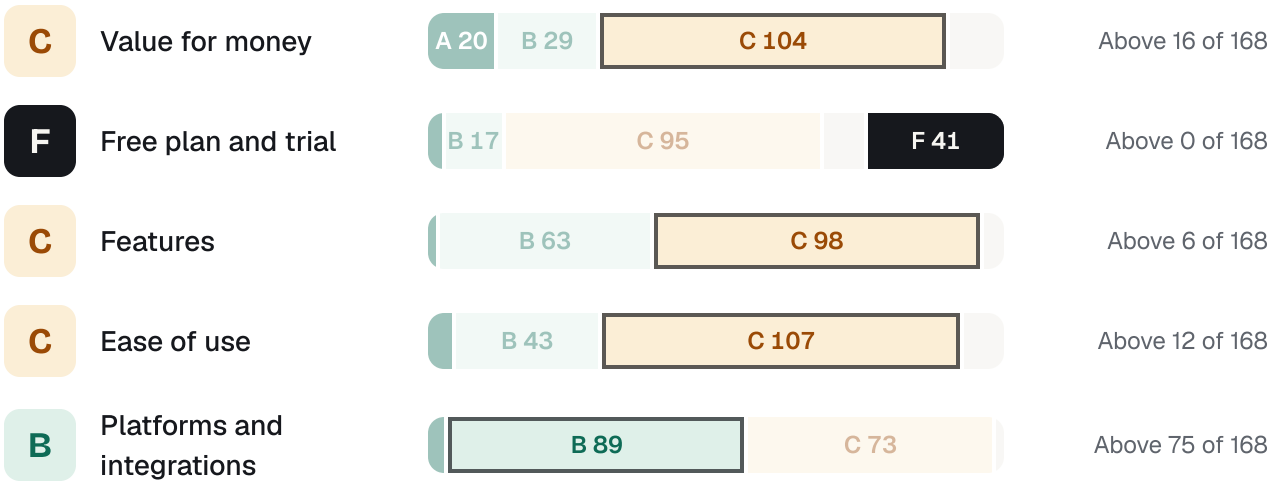

Other AI image and video generators it is graded above

Pixop's GPA of 1.8 is higher than 14 of the 168 other AI image and video generators we grade, and level with 16.

It stands best on platforms and integrations (B, above 75 of 168) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 169 AI image and video generators we grade, cut by the letter each got. Pixop's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Pixop you would be making a video editor. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 138 of the 168 other AI image and video generators grade higher.

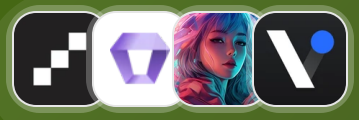

What you could not

- ✕ A video editor.
- ✕ It plugs into other products, AWS and Amazon S3 among them, and has an API.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Pixop's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Topaz Labs, Aiarty, HitPaw and VanceAI

The 4 tools Pixop is most often weighed against, with where each one differs from it.

2.0 GPA

Topaz Labs

From $19/mo

AI upscaling and enhancement apps for photos and video.

- Only Topaz Labs lists macOS, Windows and iOS apps.
- Topaz Labs also covers image generation.

Pixop and Topaz Labs compared in full

2.6 GPA

Aiarty

Free trial · from $75 one-time

Desktop AI image enhancer, video enhancer and background matting.

- Only Pixop lists a web app.
- Only Aiarty lists Windows and macOS apps.
- Aiarty can be bought with a one-time purchase.

Pixop and Aiarty compared in full

2.0
GPA

HitPaw

Free plan · from $9.99

AI photo, video and audio tools online and on desktop.

- HitPaw has a free plan. Pixop does not.
- Only HitPaw lists macOS, Windows, iOS and Android apps.
- Pixop also covers video editing.

Pixop and HitPaw compared in full

2.4
GPA

VanceAI

Free trial · from $15/mo

Credit-based image and video enhancer with a Windows desktop app.

- Only VanceAI lists a Windows app.
- Pixop also covers video editing.

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

11

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Pixop free?

No. Pixop is a paid product.

What platforms does Pixop work on?

Pixop is available on Web.

Does Pixop have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. Pixop is listed for Web.

Does Pixop have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. Pixop is listed for Web.

Is Pixop open source?

Pixop is not described as open source on its own site, as read on Nov 13, 2026.

Does Pixop have an API?

Yes. Pixop offers a public API, according to its own site.

What does Pixop integrate with?

Pixop's listing names AWS and Amazon S3. A listing names up to eight integrations, so it may connect to more.

Who makes Pixop?

Pixop is made by Pixop ApS.

What are the alternatives to Pixop?

The closest alternatives to Pixop in our directory are Topaz Labs, Aiarty, HitPaw and VanceAI.

How does Pixop compare with other AI image and video generators?

Pixop's GPA of 1.8 is higher than 14 of the 168 other AI image and video generators we grade, and level with 16.

Could I make my own version of Pixop?

To replace Pixop you would be making a video editor. That is not a weekend's work, with an AI app builder or without one.

Where this guide comes from

The prices, plans, platforms and features were read from Pixop's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from Pixop's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Pixop ApS. Prices change, so check pixop.com before you buy.
