Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 17 of the 49 other shift scheduling apps we grade

Planerio is a German software for duty rosters and time recording, used in healthcare, social services, security, retail and similar fields. It builds rosters with an algorithm, handles absences, records working time and prepares payroll data. A free employee app is available for iOS and Android.

To get you started, here are **7 things to know about Planerio**, taken from its own pages and our grades.

>
> **But no price is published, and the site and product are in German.**
>
> From our report card of Planerio

1 **Best for German care and shift teams**

Planerio plans rotas with an AI algorithm, tracks time under German law and prepares payroll data.

2 **It runs on 3 platforms**

Web, iOS and Android.

3 **Automatic rota planning**

An algorithm builds a duty roster from the rules and wishes entered, which the vendor says saves up to 90% of planning time.

4 **Absence management**

Handles short-notice absences and freed-up shifts, including across locations.

5 **Employee app**

Staff see the current roster and time sheets on iOS and Android; the vendor describes the app as free.

6 **A 2.0 GPA, above 17 of 49**

That is against the other shift scheduling apps we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Planerio you would be making payroll taxes worked out and filed with the government for you. That is not a weekend's work, with an AI app builder or without one.

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Planerio is for

- ✓ Fits if you run a German team and need time recording that follows German and EU law
- ✓ Works for care and shift businesses that use DATEV or Personio

Who it is not for

- ✗ Skip it if you don't read German, since the site and product are in German
- ✗ Not for you if you want a price, as none is published
- ✗ Watch out: it claims over 100 interfaces, and which come with each contract isn't shown

Good to know

Good for

- ✓ German clinics, practices, care homes and social organizations
- ✓ Teams with complex rotations across several locations
- ✓ Employers who need DATEV or Personio data handoff

Worth knowing

- ⓘ No prices are published; the site points to demos and a webinar instead.
- ⓘ The site and product are in German, and the time recording rules follow German and EU law.
- ⓘ Planerio says it has over 100 interfaces; which ones are included in each contract is not shown.

What it costs

Automatic rota planning

An algorithm builds a duty roster from the rules and wishes entered, which the vendor says saves up to 90% of planning time.

Absence management

Handles short-notice absences and freed-up shifts, including across locations.

Employee app

Staff see the current roster and time sheets on iOS and Android; the vendor describes the app as free.

Time recording

Working time is recorded in line with the German Working Time Act and the EU court ruling on time recording, and visible to staff.

Payroll preparation and analytics

Payroll data is prepared for the month-end close, with reports and visualizations of staffing data.

Digital personnel file

HR documents are stored in each employee profile and can be shared with the team.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

17/49

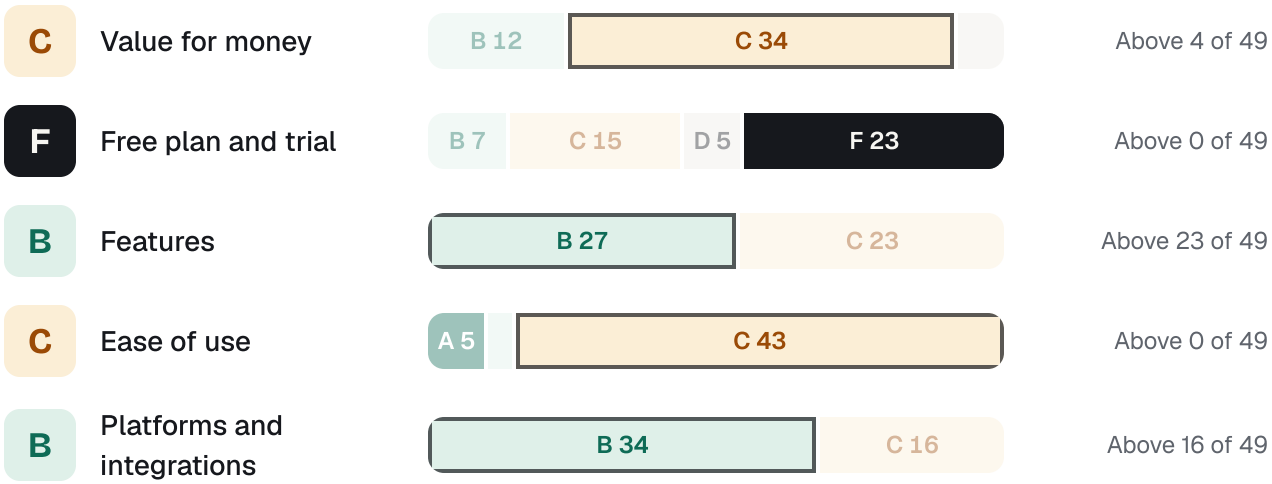

Other shift scheduling apps it is graded above

Planerio's GPA of 2.0 is higher than 17 of the 49 other shift scheduling apps we grade, and level with 8.

It stands best on features (B, above 23 of 49) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 50 shift scheduling apps we grade, cut by the letter each got. Planerio's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Planerio you would be making payroll taxes worked out and filed with the government for you. That is not a weekend's work, with an AI app builder or without one.

What you could make

- Time off, employee records and reports: an app builder makes these well.

What you could not

- Payroll taxes worked out and filed with the government for you.
- A rota the whole staff sees on their phones, with swaps and alerts.
- Clocking in from a phone, checked against where and when.
- A real app for iOS and Android. Something home-made would be a web page.
- It plugs into other products, DATEV, SAP and Personio among them.
- Sharing with other people, which means accounts and invitations.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Planerio's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
