Who Pomodoro Timer Online is for

- ✓ Fits if you want a free Pomodoro timer on a desktop browser with no sign-up
- ✓ Works for people who like music and streaks beside the timer

Who it is not for

- ✗ Skip it if you work across devices, as tasks, streaks and settings live only in one browser
- ✗ Not for you if you mostly use a phone or tablet; the vendor says mobile browsers can freeze the timer
- ✗ Watch out: the lofi music streams, so it needs a connection even in the installed app
- ✗ Watch out: the pop-out mini timer works only in Chromium browsers

Good to know

Good for

- ✓ Students and remote workers who want music and a timer in one tab
- ✓ People who want no sign-up and no data sent to a server

Worth knowing

- ⓘ Tasks, streaks and settings live only in the browser's storage, with no account or sync across devices.
- ⓘ The vendor says the experience on phones and tablets is poor, because mobile browsers can freeze the timer or drop alerts, and recommends desktop use.
- ⓘ The lofi music streams, so it needs an internet connection even in the installed app.
- ⓘ The pop-out mini timer works only in Chromium browsers.
