07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Posh's own pages, its app-store listings and our grades. Every fact in it is on Posh's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 7 of the 79 other event ticketing platforms we grade

Posh is a ticketing platform and social app aimed at club nights, festivals, run clubs and similar events. Organizers build events and tickets in a dashboard, take payments through Stripe and scan tickets with the Posh mobile app. Attendees also use the app to find events and see who is going.

To get you started, here are **7 things to know about Posh**, taken from its own pages and our grades.

> "
>
> **Payouts need Stripe onboarding before you can start.**
>
> From our grade for ease of use

1 **Best for ticketing for parties and clubs**

Posh sells tickets for parties and clubs, with door scanning, table service and payouts through Stripe.

2 **It runs on 3 platforms**

Web, iOS and Android.

3 **Ticket tiers and groups**

Organizers create ticket types with quantity caps and group them on the checkout page. RSVP-only events, guest lists, comps and promo codes are supported.

4 **Door scanning**

Staff scan tickets with the Posh mobile app, either by entering a shared scanner PIN without an account or by logging in with a Doorperson role.

5 **In-person sales and table service**

Tickets can be sold at the door through the app, and organizers can offer table service from a seating map.

6 **A 1.8 GPA, above 7 of 79**

That is against the other event ticketing platforms we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Posh you would be making texts to thousands of numbers, registered with the carriers. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for ticketing for parties and clubs

Posh sells tickets for parties and clubs, with door scanning, table service and payouts through Stripe. No fee rate is published, and funds wait 24 to 48 business hours before you can withdraw them, unless you pay for instant payouts.

TOOLGPA REPORT CARD	Posh	Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No fee rate is published, only a note that a service fee is added to the ticket price. Nothing to place it against the category.
Free plan and trial	F	No free plan or trial is on record, and the fee isn't stated.
Features	C	Ticket tiers, door scanning, in-person sales, payouts and marketing tools. But sales tax auto-collection is live in select locations only.
Ease of use	C	No store rating on record. Payouts need Stripe onboarding before you can start.
Platforms and integrations	B	Web, iPhone and Android, with Stripe, Mailchimp, Affirm and Spotify. No desktop app.

Grade point average Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Posh is for

- ✓ Fits if you promote parties or club nights
- ✓ Works for organizers who want door scanning and table sales in one app

Who it is not for

- ✗ Skip it if you want to know the fee before you sign up: none is published
- ✗ Watch out: payouts sit pending for 24 to 48 business hours, bar instant payouts
- ✗ Not for you if you need sales tax handled everywhere, as it is live in select places only
- ✗ Tight if you need Stripe, since payouts can't start without that onboarding

Good to know

Good for

- ✓ Promoters of club nights, parties and festivals
- ✓ Organizers who want a door-scanning app and a consumer discovery app in one
- ✓ Events that sell table service

Worth knowing

- ⓘ No fee rate for organizers or attendees is published on the pages we read. The help center says a service fee is added to the ticket price, covering Posh and payment processing.
- ⓘ Payouts need Stripe onboarding, and funds sit as pending for 24 to 48 business hours before they can be withdrawn, except for instant payouts.
- ⓘ The help center describes sales tax auto-collection as live only for events in select locations.

What it costs

Where it stands

Its grades against its category, and whether to keep it or make your own

7 /79

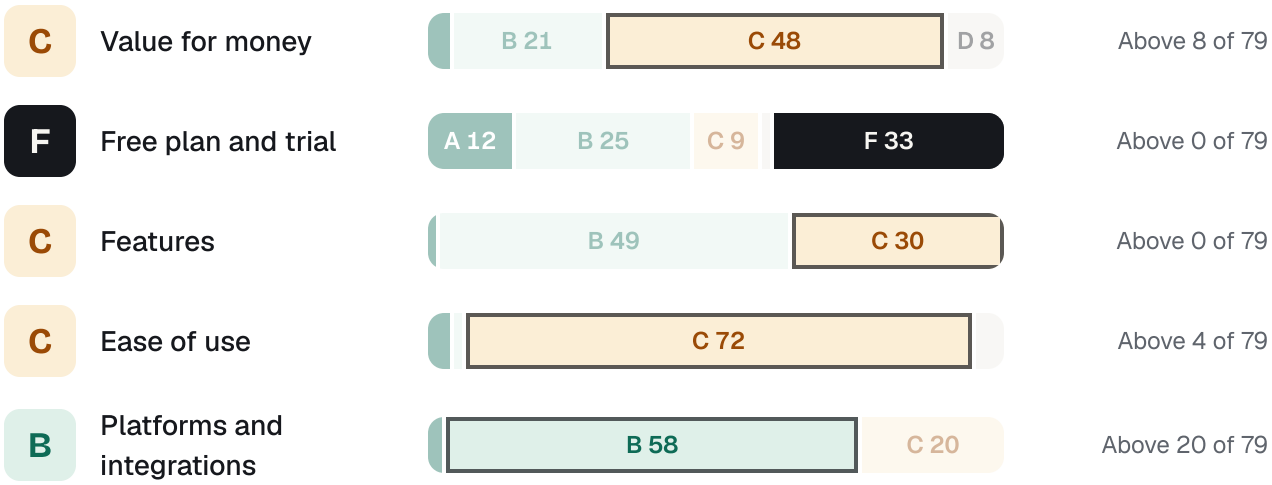

Other event ticketing platforms it is graded above

Posh's GPA of 1.8 is higher than 7 of the 79 other event ticketing platforms we grade, and level with 15.

It stands best on platforms and integrations (B, above 20 of 79) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 80 event ticketing platforms we grade, cut by the letter each got. Posh's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Posh you would be making texts to thousands of numbers, registered with the carriers. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 57 of the 79 other event ticketing platforms grade higher.

What you could not

- ✕ Texts to thousands of numbers, registered with the carriers.
- ✕ Selling tickets and checking them at the door.
- ✕ Scanning barcodes with a phone camera or a scanner.
- ✕ Every click and sale traced back to the right partner.
- ✕ A real app for iOS and Android. Something home-made would be a web page.

What this rests on. Posh's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
