Welcome

What it is, who it suits, its grades and the ten things to know first

2.2

GPA, above 36 of the 90 other social media schedulers we grade

PostFast schedules posts to 11 platforms from one composer and calendar, with approvals, a social inbox and analytics. Plans are priced by social accounts, queued posts and workspaces rather than per seat, and every plan includes the REST API and an MCP server for AI assistants such as Claude and ChatGPT.

To get you started, here are **9 things to know about PostFast**, taken from its own pages and our grades.

> "
>
> **A web app where you connect accounts and set up workspaces.**
>
> From our grade for ease of use

1 **Best for one composer for 11 networks**

PostFast posts to 11 networks from one composer, with workspaces, an inbox, analytics and an API.

2 **Paid plans start at about $13.97 a month**

As its pricing page puts it: €12.50 per month for 4 accounts, billed yearly (€15 billed monthly).

3 **You can try it first**

7-day free trial, no credit card required

4 **It runs on 3 platforms**

Web, iOS and Android.

5 **One composer for 11 platforms**

Write once, edit captions, media and first comments per account, and preview each network before scheduling up to a year ahead.

6 **AI agent access**

An MCP server, a Claude connector and a ChatGPT plugin let assistants create and schedule posts; posts can be held for approval.

7 **REST API and automation**

The REST API is on every plan, and the pricing table also lists Zapier, Make and n8n.

8 **A 2.2 GPA, above 36 of 90**

That is against the other social media schedulers we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace PostFast you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for one composer for 11 networks

PostFast posts to 11 networks from one composer, with workspaces, an inbox, analytics and an API. Prices are in euros, the entry plan covers 4 accounts, 150 queued posts and one user, and X accounts are capped per plan.

TOOLGPA REPORT CARD	PostFast	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	Starter is 12.50 euros a month on yearly billing for 4 accounts, near the $14 cheaper-quarter line; no dollar prices are shown.
Free plan and trial	D	A 7-day trial with no card, but no free plan, and it ends in a paid plan only.
Features	B	11 networks, workspaces, approvals, inbox, analytics and an API. The listing shows no gap in the core job, though Starter has limited analytics and no inbox.
Ease of use	C	A web app where you connect accounts and set up workspaces. No store rating on record.
Platforms and integrations	B	Web, iPhone and Android, with Claude, ChatGPT, Zapier, Make and n8n. No desktop app.
Grade point average		Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who PostFast is for

- ✓ Fits if you post to many networks from one screen
- ✓ Works for developers who want a REST API for posting

Who it is not for

- ✗ Tight if you are on Starter, with 4 accounts, 150 queued posts, 1 user and 30 days of history
- ✗ Not for you if you want dollar prices, as the page shows euros only
- ✗ Skip it if you need an inbox on Starter, as it is not included
- ✗ Watch out: X accounts are capped per plan, from 2 on Starter

Good to know

Good for

- ✓ Agencies that want a client roster priced by account, not by seat
- ✓ Developers and teams who schedule posts through an API or AI agent
- ✓ Solo creators posting to TikTok, Instagram and LinkedIn

Worth knowing

- ⓘ Prices are shown in euros; no dollar prices were found on the pricing page.
- ⓘ Starter is limited to 4 accounts, 150 queued posts, 1 user and 30 days of post history.
- ⓘ X accounts are capped per plan, from 2 on Starter to 45 on Enterprise.
- ⓘ Yearly billing is shown as two months free (for example €150 a year on Starter).

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

36/90

Other social media schedulers it is graded above

PostFast's GPA of 2.2 is higher than 36 of the 90 other social media schedulers we grade, and level with 28.

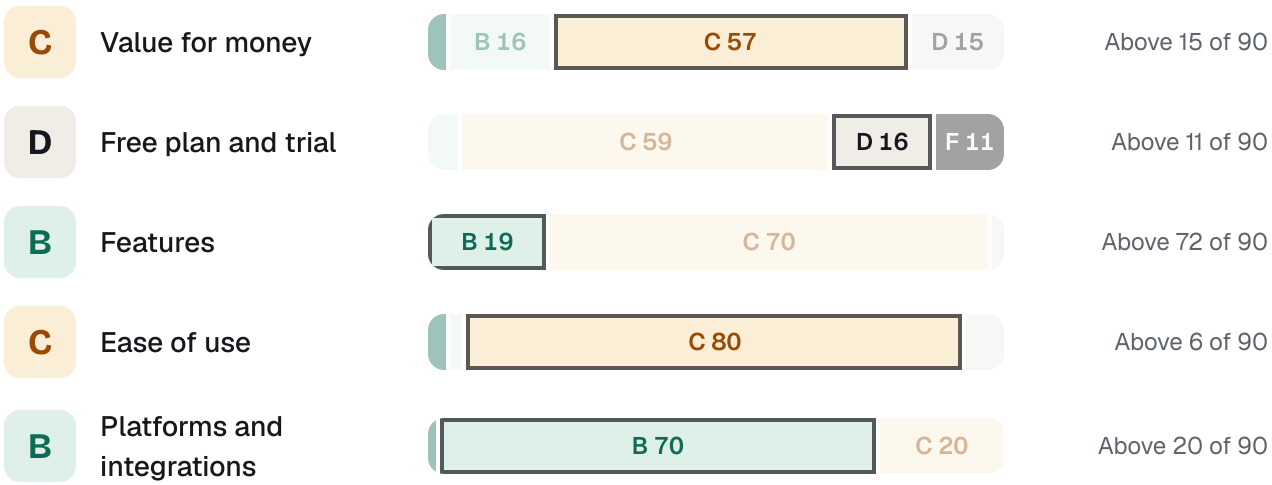

It stands best on features (B, above 72 of 90) and worst on free plan and trial (D, above 11).

Its paid plans start at about $13.97 a month, against a middle price of $24.46 for the category: 19 of the 79 others that charge start lower.

On features, ease of use and platforms it scores 2.7 out of 4. 3 tools score higher and cost less.

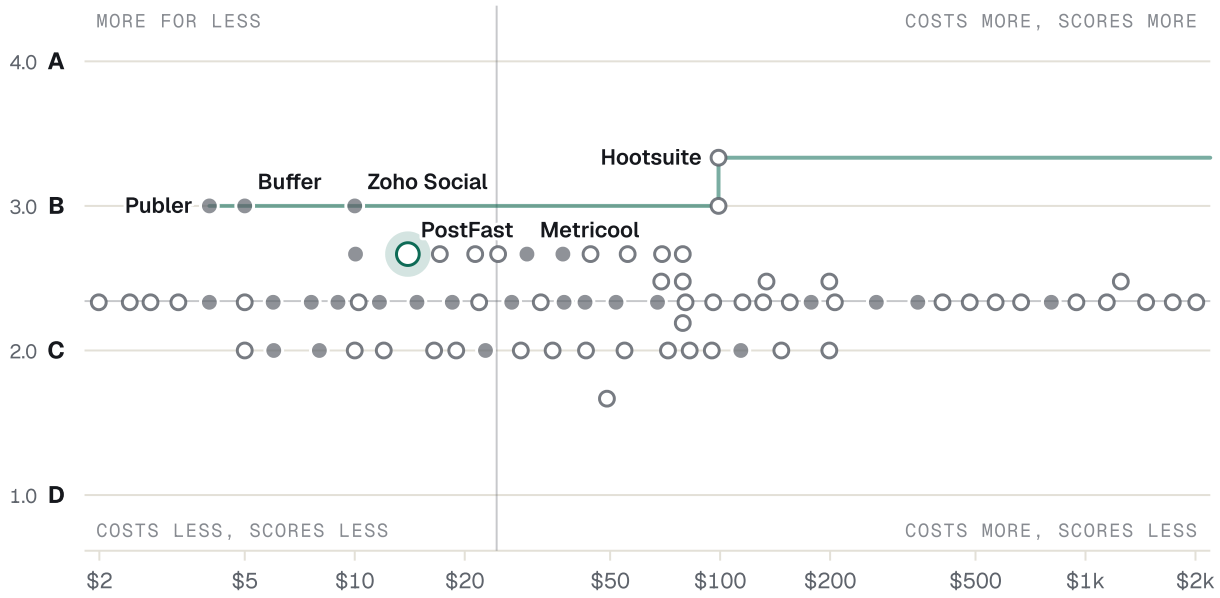

Each grade against the category

Every bar is all 91 social media schedulers we grade, cut by the letter each got. PostFast's own letter is outlined.

Price against what you get

Each dot is one of 80 social media schedulers. Further left costs less; higher up scores better on features, ease of use and platforms. PostFast is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace PostFast you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

It costs $167.58 a year.

What you could make

- Calendar and reports: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.

- A real app for iOS and Android. Something home-made would be a web page.
- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. PostFast's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
