Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 6 of the 87 other field service apps we grade

Praxedo is cloud-based field service management software covering scheduling, dispatch, work order tracking and a mobile app with offline mode. Four per-user tiers are published, plus customer and appointment portals, video assistance and ERP or CRM connectors as add-ons. Plans need at least 5 users.

To get you started, here are **8 things to know about Praxedo**, taken from its own pages and our grades.

> **Dispatch rules and connectors to Business Central or Salesforce need setting up first.**
>
> From our grade for ease of use

1 **Best for mid-size service firms with offline crews**

The listed rates leave out setup fees, the portals, video and connectors are priced as add-ons, and there is no trial on record.

2 **Paid plans start at $39 a month for each person**

As its pricing page puts it: $39 per user / month.

3 **It runs on 3 platforms**

Web, iOS and Android.

4 **Scheduling and dispatch**

Schedule and dispatch jobs with centralized scheduling constraints, and group work orders by route or project.

5 **Offline mobile app**

Technicians fill out work order reports and view documents and history in a mobile app with offline mode and real-time syncing.

6 **Customer and appointment portals**

Add-ons let customers track work orders and book appointments themselves; appointment pricing is progressive by volume.

7 **A 1.8 GPA, above 6 of 87**

That is against the other field service apps we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Praxedo you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for mid-size service firms with offline crews

Praxedo is scheduling, dispatch and an offline phone app for field teams, from $39 a user a month with a 5-user minimum. The listed rates leave out setup fees, the portals, video and connectors are priced as add-ons, and there is no trial on record.

TOOLGPA REPORT CARD — **Praxedo** — Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	Basic is $39 a user a month, with a minimum of 5 users, so $195 a month is the floor. Advanced is $69, Optimized $99 and Automated $149 per user.
Free plan and trial	F	No free plan and no trial on record, so nothing to try before paying.
Features	C	Scheduling and dispatch, an offline phone app, customer and appointment portals, video assistance and ERP and CRM connectors. The portals, video and connectors are priced as add-ons.
Ease of use	C	No store rating on record. Dispatch rules and connectors to Business Central or Salesforce need setting up first.
Platforms and integrations	B	Web, iPhone and Android, with Microsoft Business Central, Salesforce and QuickBooks. No desktop app.

Grade point average — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Praxedo is for

- ✓ Fits if you have 5 or more field staff and want dispatch with an app that works offline
- ✓ Works for firms on Microsoft Business Central or Salesforce

Who it is not for

- ✕ Not for you if you are under 5 users, as plans need a minimum of 5
- ✕ Skip it if you want a trial, since none is on record
- ✕ Pricey if you want portals, video or connectors, which are priced as add-ons
- ✕ Watch out: listed rates exclude one-time implementation and setup fees, and the page doesn't say whether they are monthly or annual

Good to know

Good for

- ✓ Telecom, energy, HVAC and plumbing teams with 5 or more technicians
- ✓ Companies that want published per-user prices up to a mid-size tier
- ✓ Teams that need an offline-capable mobile app

Worth knowing

- ⓘ Plans need a minimum of 5 users.
- ⓘ Listed rates exclude one-time implementation and setup fees.
- ⓘ The page does not say whether the per-user rates are billed monthly or annually.
- ⓘ Customer portal, appointment portal, video assistance and connectors are priced as add-ons.

Where it stands

Its grades against its category, and whether to keep it or make your own

6/87

Other field service apps it is graded above

Praxedo's GPA of 1.8 is higher than 6 of the 87 other field service apps we grade, and level with 24.

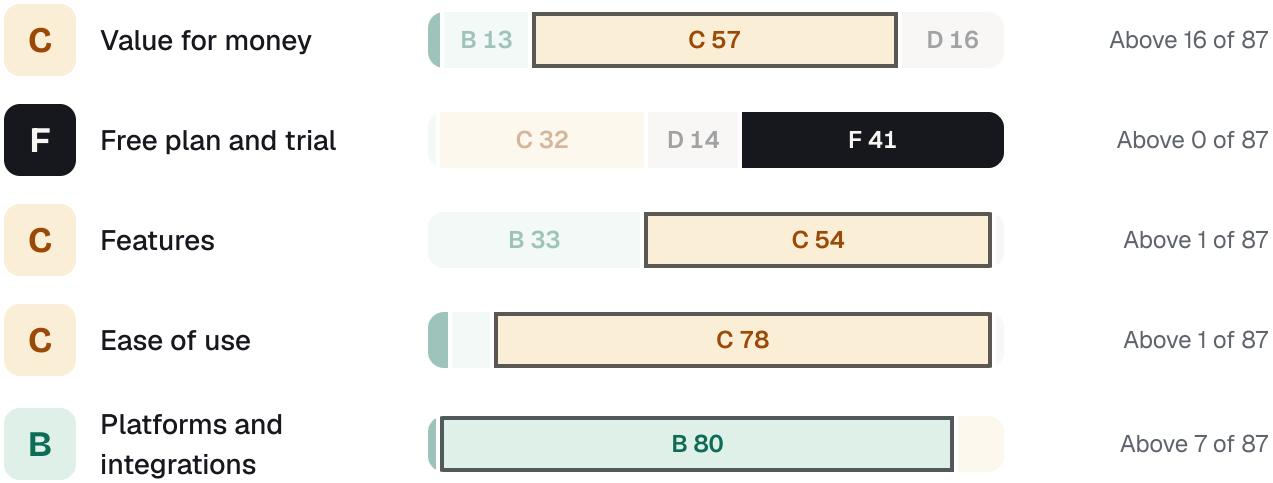

It stands best on platforms and integrations (B, above 7 of 87) and worst on free plan and trial (F, above 0).

Its paid plans start at $39 a month for each person, against a middle price of $50 for the category: 16 of the 53 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 4 tools score higher and cost less.

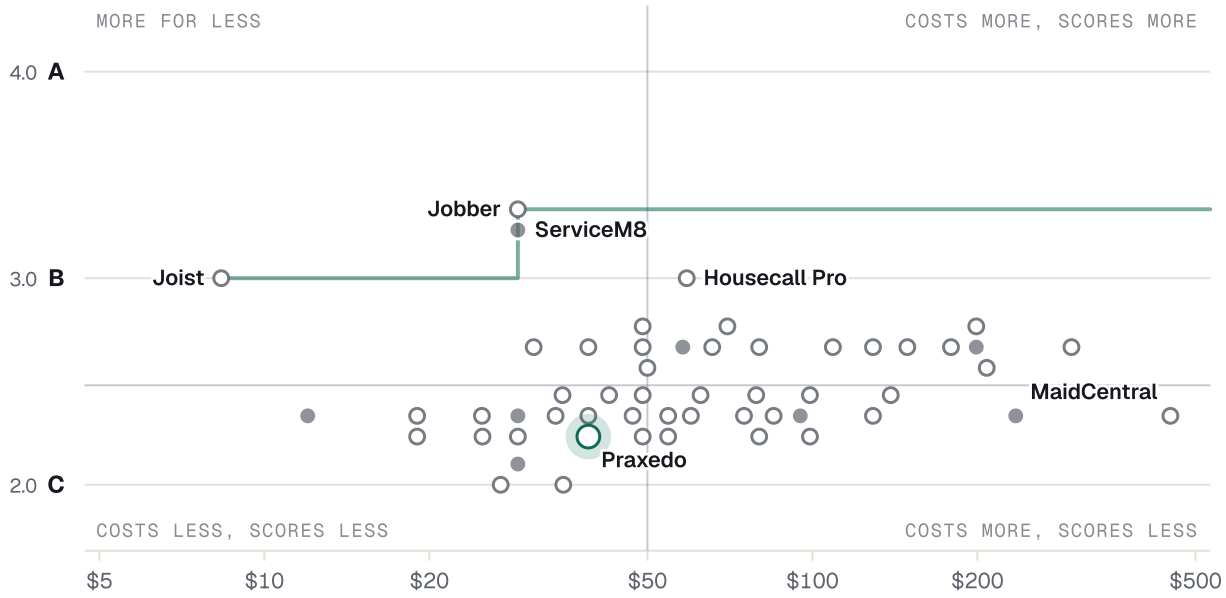

Each grade against the category

Every bar is all 88 field service apps we grade, cut by the letter each got. Praxedo's own letter is outlined.

Price against what you get

Each dot is one of 54 field service apps. Further left costs less; higher up scores better on features, ease of use and platforms. Praxedo is the marked dot.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Praxedo you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 57 of the 87 other field service apps grade higher. It costs $468 a year.

What you could make

- Job scheduling: an app builder makes this well.

What you could not

- Connections to other products, each kept working as those products change.
- A real app for iOS and Android. Something home-made would be a web page.
- It is priced for each person, which means accounts and billing for a team.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Praxedo's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
