1.6

GPA, above 5 of the 81 other cold outreach tools we grade

Premium Inboxes sets up Google Workspace and Microsoft 365 mailboxes for cold email senders. It configures domains, DNS records, inbox creation, sequencer upload and warmup, and charges a flat price per inbox. The customer brings the domains.

5 **Technical setup handled**

The vendor says it configures DNS with SPF, DKIM and DMARC, creates the inboxes, sets up profiles and enables warmup.

6 **Sequencer upload**

Inboxes are uploaded directly to the sequencer. The site lists Instantly, Smartlead, Apollo, Lemlist, Reply.io and Bison.

7 **A 1.6 GPA, above 5 of 81**

That is against the other cold outreach tools we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Premium Inboxes you would be making a network of real inboxes that open and answer your emails. That is not a weekend's work, with an AI app builder or without one.

Who Premium Inboxes is for

- ✓ Fits if you want 30 or more inboxes set up and handed over
- ✓ Works for agencies that already have a sequencer

Who it is not for

- ✗ Tight if you need fewer than 30 inboxes, because both plans have a 30-inbox minimum
- ✗ Skip it if you want a trial, as there is none
- ✗ Watch out: domains are not in the price, so you buy them yourself
- ✗ Pricey if you want an account manager, a Slack channel or 24-hour monitoring, since all three need the $4.50 tier

Good to know

Good for

- ✓ Agencies that want mailboxes built for them rather than DIY
- ✓ Teams that want official Google or Microsoft accounts
- ✓ Senders who prefer per-inbox pricing with no contract

Worth knowing

- ⓘ You supply the domains; the site does not list domain purchase in the price.
- ⓘ Both plans start with a minimum order of 30 inboxes.
- ⓘ It provides mailboxes only; you need a separate sequencer to send campaigns.
- ⓘ Account manager, Slack channel and 24-hour monitoring come only with the $4.50 tier.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

5/81

Other cold outreach tools it is graded above

Premium Inboxes's GPA of 1.6 is higher than 5 of the 81 other cold outreach tools we grade, and level with 12.

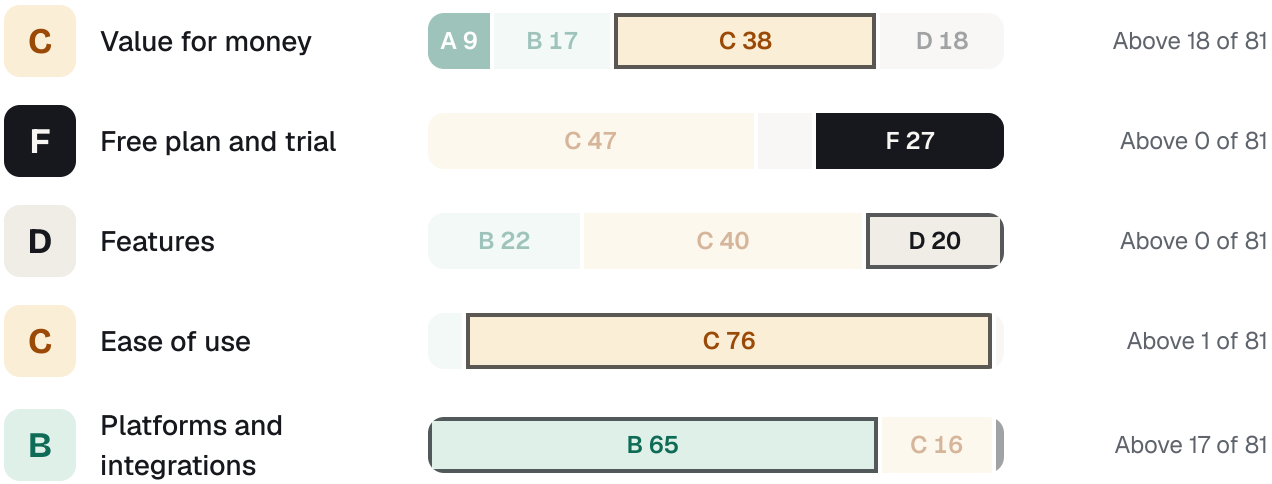

It stands best on platforms and integrations (B, above 17 of 81) and worst on free plan and trial (F, above 0).

Its paid plans start at $3.50 a month, against a middle price of $39 for the category: 4 of the 73 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. Nothing scores higher for less, though at least one tool matches that score at a lower price.

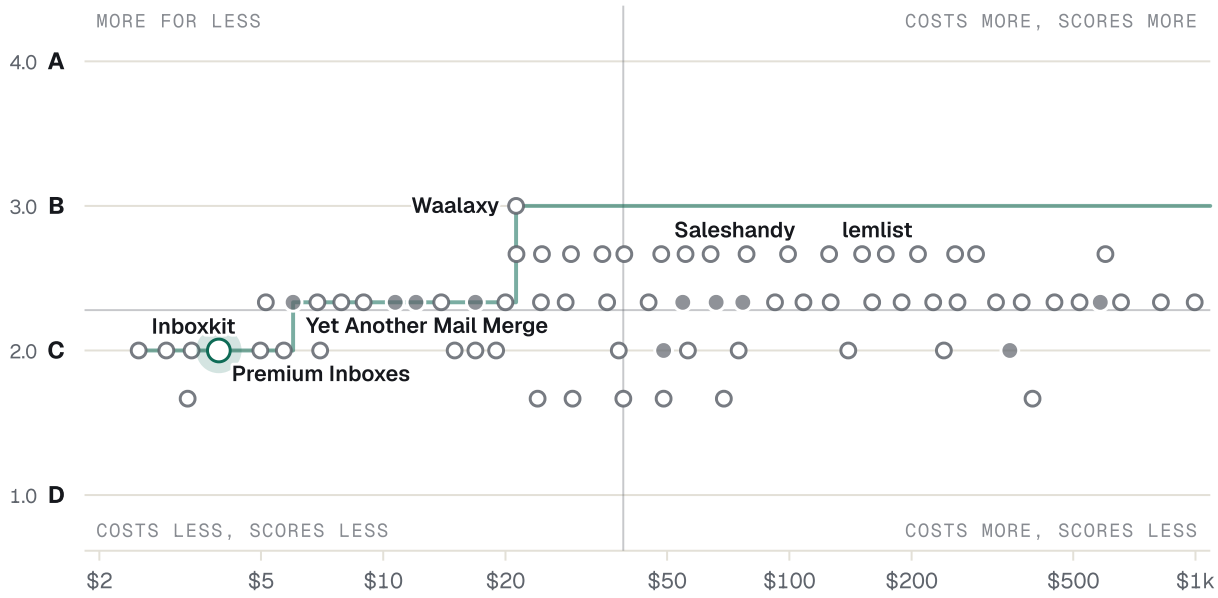

Each grade against the category

Every bar is all 82 cold outreach tools we grade, cut by the letter each got. Premium Inboxes's own letter is outlined.

Price against what you get

Each dot is one of 74 cold outreach tools. Further left costs less; higher up scores better on features, ease of use and platforms. Premium Inboxes is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Premium Inboxes you would be making a network of real inboxes that open and answer your emails. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 64 of the 81 other cold outreach tools grade higher. It costs $42 a year.

What you could not

- ✕ A network of real inboxes that open and answer your emails.
- ✕ Reading the reports inbox providers send about your domain.

- ✕ It plugs into other products, Instantly, Smartlead and Apollo among them.

What this rests on. Premium Inboxes's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
