Where it stands

Its grades against its category, and whether to keep it or make your own

54/70

Other print-on-demand and dropshipping services it is graded above

Printy6's GPA of 2.8 is higher than 54 of the 70 other print-on-demand and dropshipping services we grade, and level with 6.

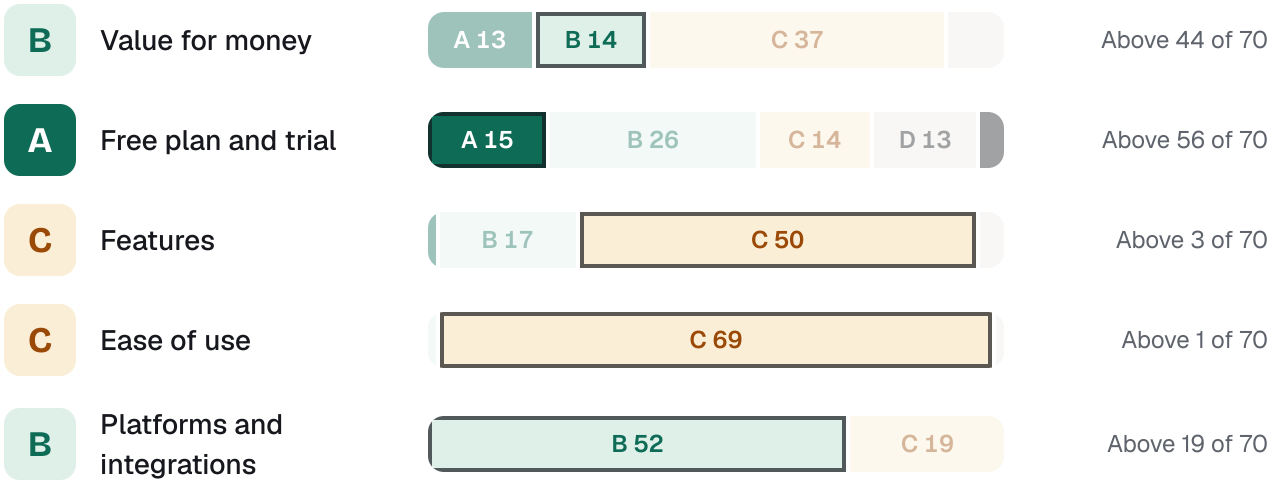

It stands best on free plan and trial (A, above 56 of 70) and worst on ease of use (C, above 1).

On features, ease of use and platforms it scores 2.3 out of 4. Nothing scores higher for less, though at least one tool matches that score at a lower price.

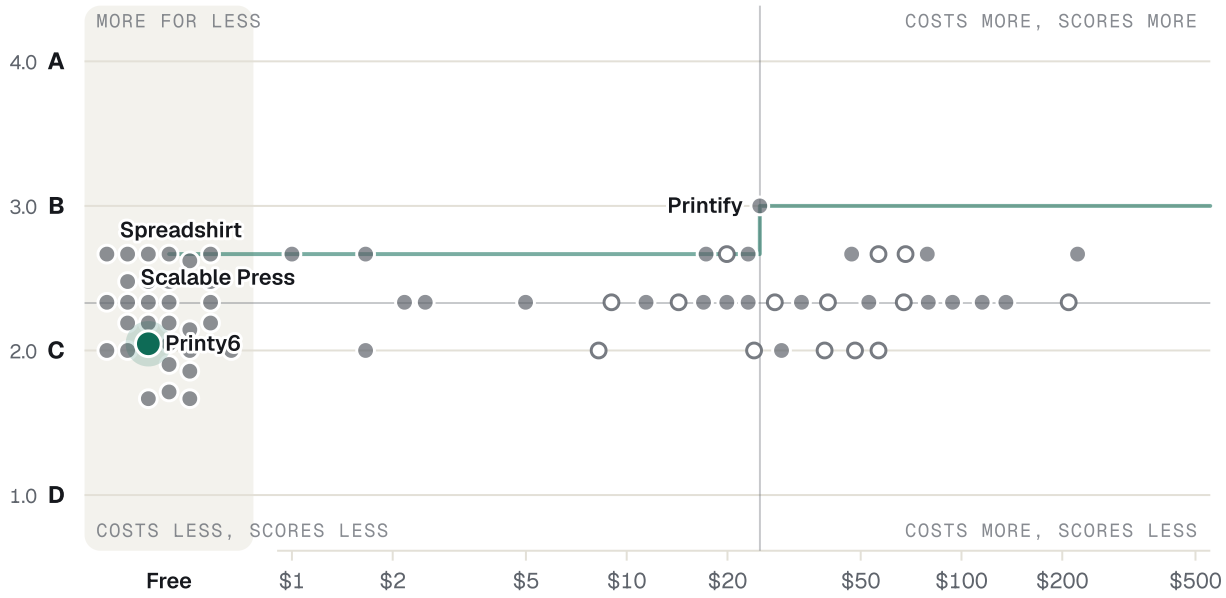

Each grade against the category

Every bar is all 71 print-on-demand and dropshipping services we grade, cut by the letter each got. Printy6's own letter is outlined.

Price against what you get

Each dot is one of 68 print-on-demand and dropshipping services. Further left costs less; higher up scores better on features, ease of use and platforms. Printy6 is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

Printy6 is free, so making your own would save you nothing.

And it is not the kind of software a weekend replaces. It is one of the better ones too: its GPA of 2.8 is higher than 54 of the 70 other print-on-demand and dropshipping services we grade.

What you could not

- ✕ Printers that make and ship each order.
- ✕ Suppliers who ship each order for you.
- ✕ Checkout, card payments and sales tax handled for you.

- ✕ It plugs into other products, Shopify, Etsy and BigCommerce among them, and has an API.

What this rests on. Printy6's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
