07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Prompt Health's own pages, its app-store listings and our grades. Every fact in it is on Prompt Health's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 1 of the 38 other therapy and clinic software we grade

Prompt Health sells an EMR for physical, occupational, speech and pediatric therapy and chiropractic practices. It combines scheduling, documentation, billing and reporting, and sells add-ons such as an AI scribe, revenue cycle management and a patient app. No prices are published on its site; a practice books a demo.

To get you started, here are **7 things to know about Prompt Health**, taken from its own pages and our grades.

"

A full practice system takes onboarding.

From our grade for ease of use

1 **Best for rehab therapy and chiropractic practices**

No prices, plans or trial are published and you book a demo to get a quote, and several parts are sold as separate products.

2 **It runs on Web**

Web.

3 Scheduling and retention

Online booking and rescheduling, smart waitlists, automatic reminders for under-scheduled patients and plan-of-care tools that create recurring visits.

4 Billing and clearinghouse

Payer rules, claim automation and an integrated clearinghouse, with automatic eligibility and benefits checks before an appointment.

5 AI documentation

The Sidekick add-on, formerly PredictionHealth, offers AI scribing with real-time CPT feedback. The vendor says clinicians keep control of the final note.

6 A 1.6 GPA, above 1 of 38

That is against the other therapy and clinic software we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace Prompt Health you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

Prompt Health at a glance

PRICING Paid	FREE PLAN No

MADE BY Prompt Health	CATEGORY Therapy & Clinic Software
OUR GRADE 1.6 GPA, weak	

The report card

Best for rehab therapy and chiropractic practices

Prompt Health is an EMR and billing system for rehab and chiropractic practices, with scheduling, a clearinghouse, AI documentation and referral tracking. No prices, plans or trial are published and you book a demo to get a quote, and several parts are sold as separate products.

TOOLGPA REPORT CARD

Prompt Health

Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, so we hold it at the middle of the therapy-clinics range ($39 a month).
Free plan and trial	F	No free plan and no trial are listed. A practice must book a demo.
Features	C	Scheduling, billing, AI notes, referral tracking and reporting, but the AI scribe, compensation tools and kiosk are separate products.
Ease of use	C	No store rating on record. A full practice system takes onboarding.
Platforms and integrations	C	A web service with no integrations or apps listed.

Grade point average — Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Prompt Health is for

- ✓ Fits if you run a rehab or chiropractic clinic that wants billing and scheduling together
- ✓ Makes sense if you track referrals and want reporting

Who it is not for

- ✗ Not for you if you do counseling or primary care, as it is built for rehab and chiropractic
- ✗ Skip it if you want a price, as none is published and a demo comes first
- ✗ Watch out: the AI scribe, compensation tools and kiosk are sold as separate products
- ✗ Skip it if you want to try before you talk to sales, as no trial is listed

Good to know

Good for

- ✓ Physical and occupational therapy clinics, including multi-clinic groups
- ✓ Practices that want an EMR with outsourced billing available
- ✓ Speech, pediatric and chiropractic practices that bill insurance

Worth knowing

- ⓘ No prices, plans or free trial are published; a practice must book a demo to get a quote.
- ⓘ Several capabilities, including the AI scribe, compensation tools and kiosk, are sold as separate products.
- ⓘ It is built for rehab and chiropractic care, so it is a weaker fit for counseling or primary care.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Prompt Health's current pricing could not be confirmed from its own site.

We could not confirm Prompt Health’s current prices from its own site, so this guide lists no plans. promptthealth.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

AI-assisted EMR and billing for rehab therapy practices. Here is what it does, as its own site describes it, and what it covers: AI features, reports, clinical notes, insurance billing, appointment booking.

> **Scheduling, billing, AI notes, referral tracking and reporting, but the AI scribe, compensation tools and kiosk are separate products.**
>
> From our grade for features

Scheduling and retention

Online booking and rescheduling, smart waitlists, automatic reminders for under-scheduled patients and plan-of-care tools that create recurring visits.

Billing and clearinghouse

Payer rules, claim automation and an integrated clearinghouse, with automatic eligibility and benefits checks before an appointment.

AI documentation

The Sidekick add-on, formerly PredictionHealth, offers AI scribing with real-time CPT feedback. The vendor says clinicians keep control of the final note.

Referral and lead tracking

Incoming referrals are organized and routed, with automated follow-ups meant to keep schedules full.

Add-on products

Separate products include Compensation, Insight for compliance and coding visibility, Engage for a patient app and remote monitoring, a check-in kiosk and outsourced billing services.

Reporting

Built-in reports track clinic performance and operations across a single clinic or multiple locations.

Where it runs

What it works with

Its own pages name no integrations.

Prompt Health is made by Prompt Health.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

1/38

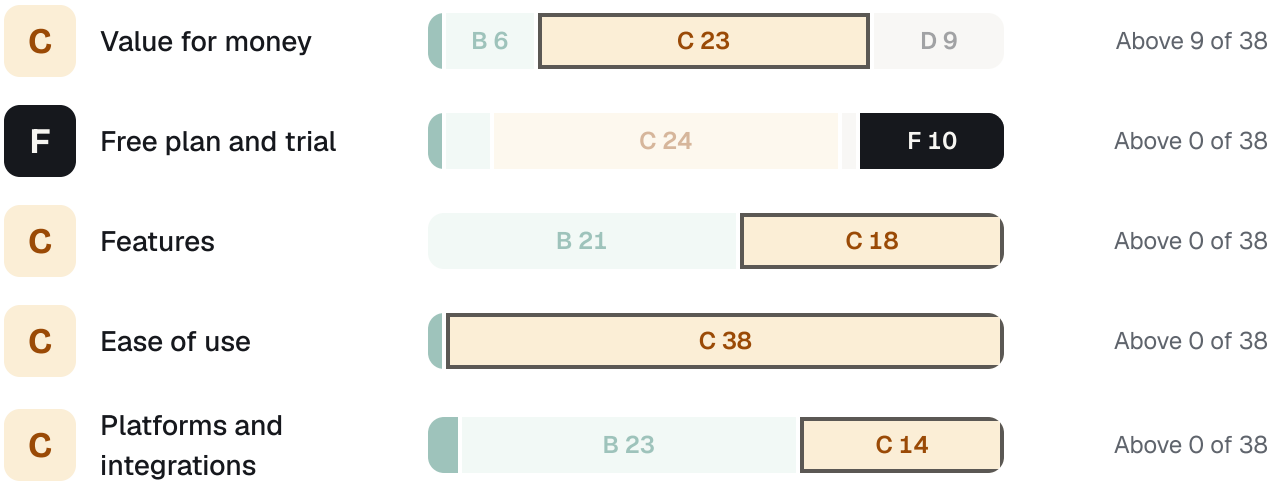

Other therapy and clinic software it is graded above

Prompt Health's GPA of 1.6 is higher than 1 of the 38 other therapy and clinic software we grade, and level with 2.

It stands best on value for money (C, above 9 of 38) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 39 therapy and clinic software we grade, cut by the letter each got. Prompt Health's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Prompt Health you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 35 of the 38 other therapy and clinic software grade higher.

What you could make

- Clinical notes, appointment booking and reports: an app builder makes these well.

What you could not

- Insurance claims sent to payers through a clearinghouse.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Prompt Health's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

WebPT, Physitrack, ChiroTouch, Jane and Cliniko

The 5 tools Prompt Health is most often weighed against, with where each one differs from it.
