07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Psyquel's own pages, its app-store listings and our grades. Every fact in it is on Psyquel's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 1 of the 60 other therapy and clinic software we grade

Psyquel combines a behavioral health EHR, scheduling and a patient intake portal with an insurance billing service staffed by its own billing specialists. It serves only mental and behavioral health practices. Prices are given on request, not published.

To get you started, here are **7 things to know about Psyquel**, taken from its own pages and our grades.

> "
>
> **Prices are given on request, and because billing is a service rather than a tool, you hand that work over rather than run it yourself.**
>
> From our report card of Psyquel

1 **Best for mental health practices that want billing handled for them**

Psyquel pairs a behavioral health EHR with an insurance billing service run by its own staff.

2 **It runs on Web**

Web.

3 **Behavioral health EHR**

Web-based patient records with note templates for mental health providers.

4 **Insurance billing service**

A US-based team submits claims and reconciles payments; the vendor says it paid 98% of claims.

5 **Scheduling and reminders**

Patient scheduling with email and text appointment reminders.

6 **A 1.6 GPA, above 1 of 60**

That is against the other therapy and clinic software we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Psyquel you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for mental health practices that want billing handled for them

Psyquel pairs a behavioral health EHR with an insurance billing service run by its own staff. Prices are given on request, and because billing is a service rather than a tool, you hand that work over rather than run it yourself.

TOOLGPA REPORT CARD

Psyquel

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	Price is given on request through a form, so it sits in the middle; the vendor says there is no setup, training or support fee and no long-term contract.
Free plan and trial	F	No free plan and no trial on record, only a demo.
Features	C	EHR, scheduling, intake portal, card processing, credentialing and billing, but it serves only mental and behavioral health and billing is staff-run, not self-serve.
Ease of use	C	No store rating on record, and the intake portal and billing hand-over need setting up.
Platforms and integrations	C	Web only on the listing, with no integrations named.

Grade point average — Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Psyquel is for

- ✓ Fits if you run a mental health practice and would rather hand off insurance billing
- ✓ Makes sense if you want credentialing and billing from the same vendor as your EHR

Who it is not for

- ✗ Skip it if you want to run your own claims, as billing is a service done by Psyquel staff
- ✗ Skip it if you want a price on the page, as the pricing page is a request form
- ✗ Not for you if you work outside mental and behavioral health
- ✗ Tight if you want to try first, as no trial is listed

Good to know

Good for

- ✓ Therapy and psychiatry practices that want someone else to handle insurance claims
- ✓ Practices that want an EHR and billing from one vendor

Worth knowing

- ⓘ No prices are published; the pricing page is a request form.
- ⓘ The vendor says it has no long-term contract and charges nothing for self-pay patients, setup, training, upgrades or support.
- ⓘ Billing is a service run by Psyquel staff, so it is not a self-serve claims tool only.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Psyquel's current pricing could not be confirmed from its own site.

> **No free plan and no trial on record, only a demo.**
>
> From our grade for free plan and trial

We could not confirm Psyquel's current prices from its own site, so this guide lists no plans. psyquel.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

Mental health billing service with a built-in EHR and scheduling. Here is what it does, as its own site describes it, and what it covers: forms, clinical notes, insurance billing, appointment booking.

> **Web only on the listing, with no integrations named.**

From our grade for platforms and integrations

Behavioral health EHR

Web-based patient records with note templates for mental health providers.

Insurance billing service

A US-based team submits claims and reconciles payments; the vendor says it paid 98% of claims.

Scheduling and reminders

Patient scheduling with email and text appointment reminders.

Patient intake portal

Clients complete intake information online before visits.

Credit card processing

Card payments through Psyquel Pay, with card on file.

Credentialing services

Help with joining insurance networks, listed as a separate service.

Where it runs

Web

What it works with

Its own pages name no integrations.

Psyquel is made by Psyquel, and has been around since 1997.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

1/60

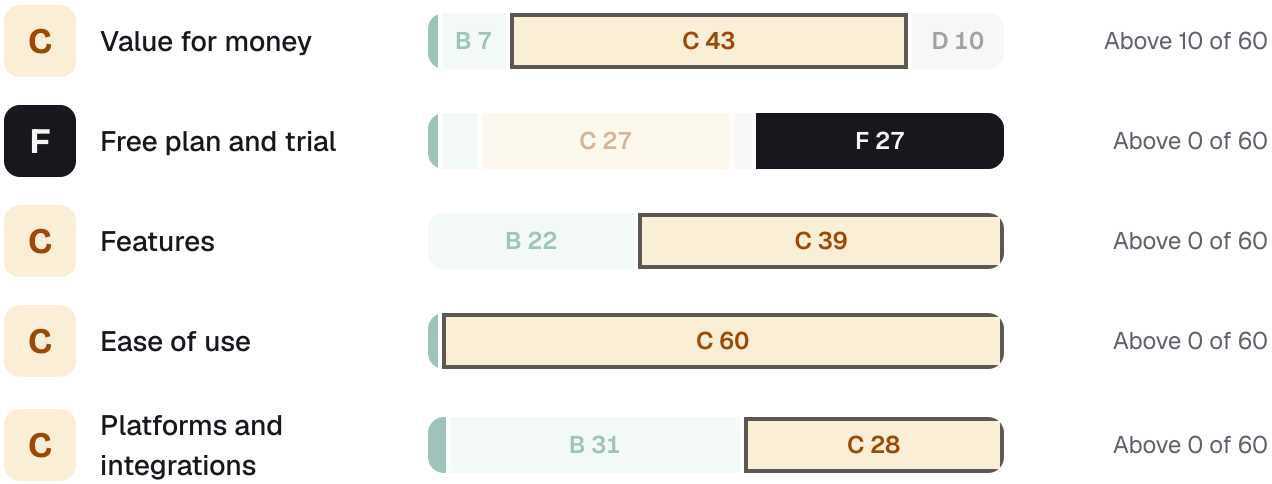

Other therapy and clinic software it is graded above

Psyquel's GPA of 1.6 is higher than 1 of the 60 other therapy and clinic software we grade, and level with 13.

It stands best on value for money (C, above 10 of 60) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 61 therapy and clinic software we grade, cut by the letter each got. Psyquel's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Psyquel you would be making insurance claims sent to payers through a clearinghouse. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 46 of the 60 other therapy and clinic software grade higher.

What you could make

- Clinical notes, appointment booking and forms: an app builder makes these well.

What you could not

- Insurance claims sent to payers through a clearinghouse.

What this rests on. Psyquel's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

TherapyNotes, SimplePractice, TheraNest, ICANotes and Valant

The 5 tools Psyquel is most often weighed against, with where each one differs from it.

2.2 GPA

TherapyNotes

Free trial · from $69/mo

Behavioral health EHR with notes, insurance billing and client portal.

- Only TherapyNotes lists iOS and Android apps.
- Psyquel also covers forms and appointment booking.
- TherapyNotes also covers transcription and telehealth.
