- ✗ Watch out: the plan moves up on its own as your active and lead client count grows
- ✗ Watch out: a branded mobile app is a $40 a month add-on, and SMS costs extra
- ✗ Not for you if you want a free start, as only a 14-day trial is listed
- ✗ Watch out: the site says PTminder is part of Xplor

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

58/85

Other salon, spa and studio booking apps it is graded above

PTminder's GPA of 2.4 is higher than 58 of the 85 other salon, spa and studio booking apps we grade, and level with 16.

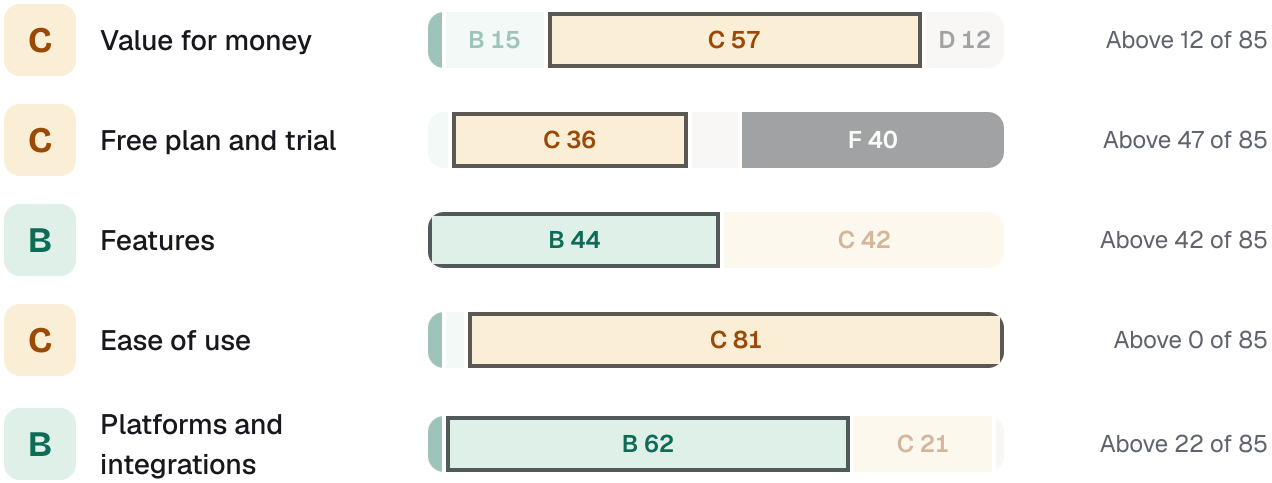

It stands best on features (B, above 42 of 85) and worst on ease of use (C, above 0).

Its paid plans start at $59 a month, against a middle price of $49 for the category: 35 of the 57 others that charge start lower.

Each grade against the category

Every bar is all 86 salon, spa and studio booking apps we grade, cut by the letter each got. PTminder's own letter is outlined.

Price against what you get

Each dot is one of 58 salon, spa and studio booking apps. Further left costs less; higher up scores better on features, ease of use and platforms. PTminder is the marked dot.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of PTminder you could make: appointment booking, class booking, invoicing, reports and templates. What surrounds it you could not. The 3 things listed below take a company, not a weekend.

It is one of the better ones too: its GPA of 2.4 is higher than 58 of the 85 other salon, spa and studio booking apps we grade. It costs $708 a year.

What you could make

- Appointment booking, class booking, invoicing, reports and templates: an app builder makes these well.

What you could not

- A real app for iOS and Android. Something home-made would be a web page.
- Sharing with other people, which means accounts and invitations.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. PTminder's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
