Your call

You could make the core of QR Creator for yourself: qR codes and reports.

What you would give up is listed below. Whether that is worth the price is your call. It costs $599.40 a year.

What you could make

- QR codes and reports: an app builder makes these well.

What you could not

- AI features, unless you pay a model provider for each request yourself.

It runs in a browser, which is where something home-made would run too.

What this rests on. QR Creator's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
