Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 6 of the 37 other QR code generators we grade

QR Diffusion turns a QR code and a text prompt into artwork that still scans, using Stable Diffusion with ControlNet. Static and dynamic codes are supported, and templates are provided as starting points. Paid plans raise the weekly generation limits and the number of dynamic URLs.

To get you started, here are **9 things to know about QR Diffusion**, taken from its own pages and our grades.

> **The pricing page never says what the free allowance is, and the cheapest plan runs on low queue priority.**
>
> From our report card of QR Diffusion

1 **Best for AI-styled QR code art**

QR Diffusion makes QR codes with AI-generated artwork, and each plan is capped by weekly generations.

2 **Paid plans start at $11 a month**

As its pricing page puts it: $11 per month, billed annually.

3 There is a free plan

The site calls itself freemium and says generating QR codes is free; the free allowance is not stated on the pricing page.

4 It runs on Web

Web.

5 AI QR art

Stable Diffusion and ControlNet turn a text prompt into an image that keeps the QR code scannable.

6 Static and dynamic codes

Dynamic codes can be edited after creation and come with scan tracking; static codes cannot be changed.

7 Templates

A template gallery offers ready-made styles, some of them image-to-image; Pro and Ultimate unlock extra template sets.

8 A 2.0 GPA, above 6 of 37

That is against the other QR code generators we grade, on value, the free plan, features, ease of use and platforms.

9 Keep it

To replace QR Diffusion you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

Who QR Diffusion is for

- ✓ Fits if you want an artistic QR code for a poster or a flyer
- ✓ Works for people making a handful of codes a week

Who it is not for

- ✕ Tight if you make more than 40 codes a week, which is the Lite cap
- ✕ Skip it if you only need a plain black and white code, as free tools make those
- ✕ Watch out: Lite has low queue priority, so renders may wait behind paying plans
- ✕ Watch out: the pricing page still mentions NFT minting as due in Q3 2024, and shows only yearly rates
- ✕ Pricey if you want the top plan, at $79 a month on yearly billing

Good to know

Good for

- ✓ Designers and marketers who want decorative QR codes for posters or social posts

Its paid plans start at $11 a month, against a middle price of $11 for the category: 14 of the 29 others that charge start lower.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace QR Diffusion you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 26 of the 37 other QR code generators grade higher. It costs $132 a year.

What you could make

- QR codes and templates: an app builder makes these well.

What you could not

- An image model, which you can rent by the picture but not make.

	× AI features, unless you pay a model provider for each request yourself.

What this rests on. QR Diffusion's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
