Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 22 of the 101 other HR software we grade

Quantum Workplace is an employee success platform with modules for engagement surveys, performance management, development and succession planning, and recognition and rewards. Buyers build a quote from the modules they want, or take a bundle of all four.

To get you started, here are **7 things to know about Quantum Workplace**, taken from its own pages and our grades.

> "
>
> **The pricing page gives a quote builder and no figures, and no free plan or trial is listed.**
>

Web.

3 **Engagement surveys**

Engagement, lifecycle and pulse surveys, with action planning and a Retention Radar view.

4 **Performance management**

Goals, one-on-ones, ongoing feedback and performance reviews for managers and their teams.

5 **Development and succession**

Growth planning, talent reviews and succession planning for building a leadership pipeline.

6 **A 1.8 GPA, above 22 of 101**

That is against the other HR software we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

The plain part of Quantum Workplace you could make: surveys, goals and reports. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

The report card

Best for engagement, performance and recognition in one suite

Quantum Workplace bundles engagement surveys, performance, development and recognition. The pricing page gives a quote builder and no

figures, and no free plan or trial is listed. Only the web product is described, with no mobile apps named.

TOOLGPA REPORT CARD	Quantum Workplace	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	C	No price is published, so there's nothing to set against the $2 to $9 a seat a month this category charges. That leaves it at C.
Free plan and trial	F	A demo or quote is the only way to start; no free plan or self-serve trial is listed.
Features	B	Four jobs in one suite: engagement, performance, development and recognition. The listing names no gap in them.
Ease of use	C	No store rating on record, and you'd set it up with your own people data first, so it's an ordinary C.
Platforms and integrations	C	Web only on record, no mobile apps named and no integrations listed.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Quantum Workplace is for

- ✓ Fits if you want surveys, reviews and recognition from one vendor

Where it stands

Its grades against its category, and whether to keep it or make your own

22/101

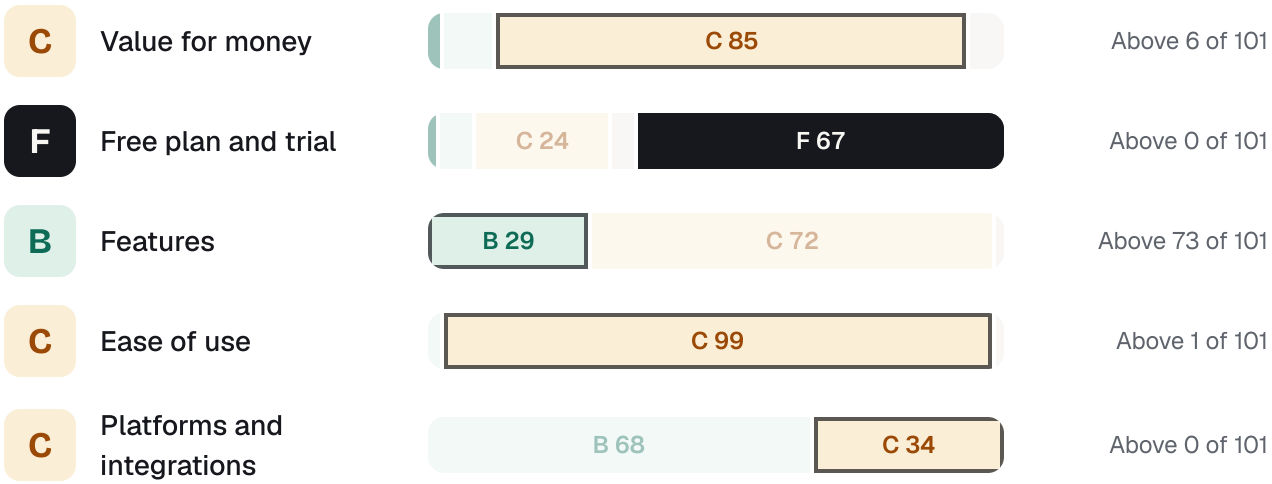

Other HR software it is graded above

Quantum Workplace's GPA of 1.8 is higher than 22 of the 101 other HR software we grade, and level with 33.

It stands best on features (B, above 73 of 101) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 102 HR software we grade, cut by the letter each got. Quantum Workplace's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Quantum Workplace you could make: surveys, goals and reports. What surrounds it you could not. The 2 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 46 of the 101 other HR software grade higher.

What you could make

- Surveys, goals and reports: an app builder makes these well.

What you could not

- AI features, unless you pay a model provider for each request yourself.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Quantum Workplace's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
