PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

16/116

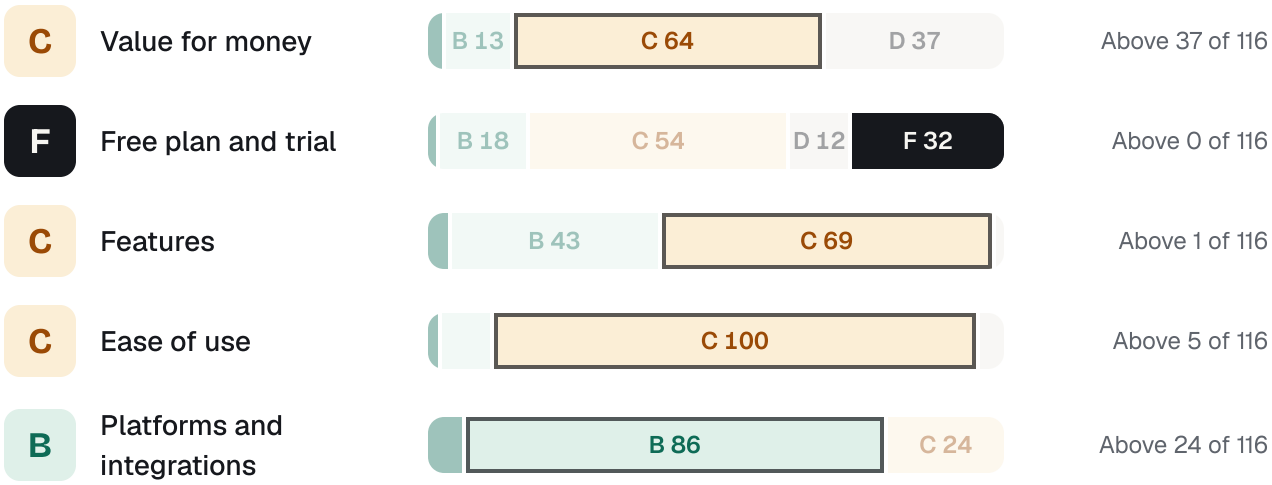

Other CRM tools it is graded above

Raiser's Edge NXT's GPA of 1.8 is higher than 16 of the 116 other CRM tools we grade, and level with 20.

It stands best on platforms and integrations (B, above 24 of 116) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 117 CRM tools we grade, cut by the letter each got. Raiser's Edge NXT's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Raiser's Edge NXT you would be making connections to other products, each kept working as those products change. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 80 of the 116 other CRM tools grade higher.

What you could make

- Sales pipeline and reports: an app builder makes these well.

What you could not

- Connections to other products, each kept working as those products change.
- Connections that pull numbers from dozens of other services.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Raiser's Edge NXT's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
