2.4

GPA, above 45 of the 70 other SEO tools we grade

Rapid URL Indexer is a credit-based service that sends indexing signals for pages and backlinks, then checks whether Google has added them to its index. It works on any URL, so Search Console access is not needed. Credits are bought once and do not expire, and credits for unindexed standard submissions are returned after 14 days.

To get you started, here are **8 things to know about Rapid URL Indexer**, taken from its own pages and our grades.

Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	B	$25 for 500 credits, one-time, down to $0.04 a credit in bulk. The category's one-time prices run $25 to $69, so this is at the cheap end, though credits are used up rather than owned.
Free plan and trial	F	Nothing is free: no plan and no trial, and the smallest pack is $25.
Features	B	Standard and Apex modes, batches of 10,000 URLs, reports, CSV export, an API and plugins. Nothing in the listing is missing for the job, though it cannot promise results.
Ease of use	B	No store rating is on record, but you paste URLs and go with nothing to configure.
Platforms and integrations	B	Web, a Chrome extension, a WordPress plugin, a Zapier integration and a REST API.

Grade point average — Fair, out of 4.0 **2.4**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Rapid URL Indexer is for

- ✓ Fits if you push backlinks or pages you do not own and have no Search Console access
- ✓ Works for people who want one-off credits that do not expire

Who it is not for

- ✗ Skip it if you want something free, since there is no plan or trial
- ✗ Not for you if you need a guarantee, as the vendor says indexing is not guaranteed
- ✗ Watch out: only standard credits are refunded, and Apex returns just 1 of its 3 credits
- ✗ Watch out: the first verified report arrives after 4 days, so it is slow for urgent pages
- ✗ Tight if you want a subscription, as credits come in packs only

Good to know

Good for

- ✓ SEOs who need to get backlinks or new pages crawled and indexed
- ✓ Agencies buying credits in bulk for client campaigns
- ✓ People who prefer paying per result over a monthly subscription

Worth knowing

- ⓘ Google makes the final indexing decision, and the vendor says indexing is not guaranteed.
- ⓘ Only the standard 1 credit per URL is refunded for unindexed links; Bing and Apex credits are non-refundable, and Apex returns just 1 of its 3 credits.
- ⓘ The first verified report arrives after 4 days, so standard mode is not suited to urgent pages.
- ⓘ There is no recurring plan and no free tier; the smallest pack is $25.

Where it stands

Its grades against its category, and whether to keep it or make your own

45/70

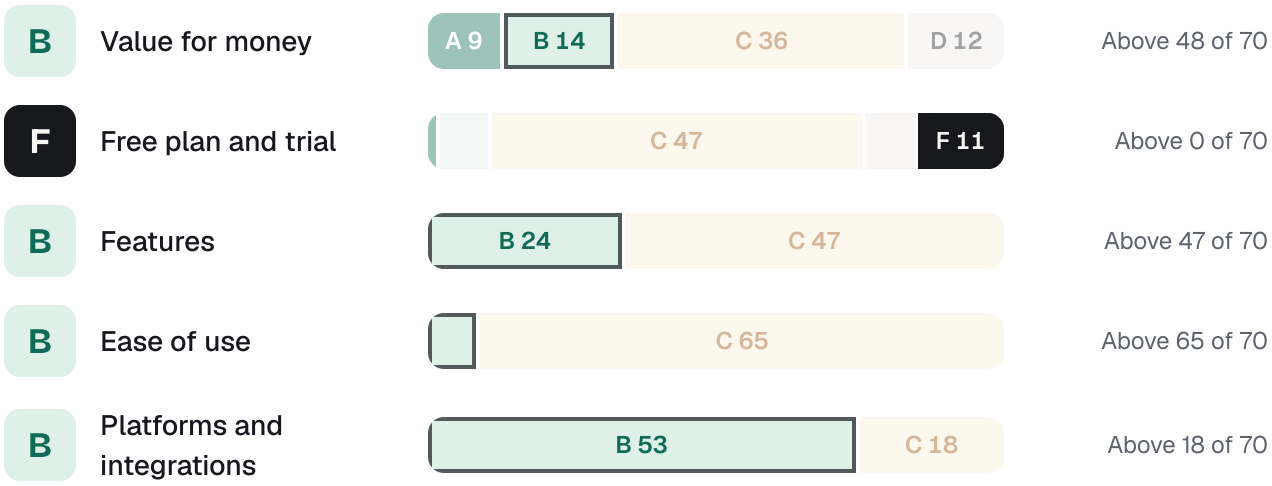

Other SEO tools it is graded above

Rapid URL Indexer's GPA of 2.4 is higher than 45 of the 70 other SEO tools we grade, and level with 15.

It stands best on ease of use (B, above 65 of 70) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 71 SEO tools we grade, cut by the letter each got. Rapid URL Indexer's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Your call

You could make the core of Rapid URL Indexer for yourself: reports.

What you would give up is listed below. Whether that is worth the price is your call. At $25, paid once, it costs less than the weekend it would take to replace, which is the argument for keeping it.

What you could make

- Reports: an app builder makes this well.
- It runs in a browser, which is where something home-made would run too.

What you could not

- It plugs into other products, WordPress, Zapier and Chrome among them, and has an API.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Rapid URL Indexer's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
