Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from RapidNative's own pages, its app-store listings and our grades. Every fact in it is on RapidNative's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 10 of the 89 other AI app builders we grade

RapidNative is a browser-based AI builder that generates React Native and Expo mobile apps from a text prompt, sketch, screenshot or product spec. Projects come with a Postgres backend, sign-in and file storage, and the code can be exported on paid plans. Credits are spent each time the AI generates code.

To get you started, here are **9 things to know about RapidNative**, taken from its own pages and our grades.

> "
>
> **No store rating on record, and building the app is still the work.**
>
> From our grade for ease of use

1 **Best for turning a prompt or sketch into a React Native app**

RapidNative takes a prompt, sketch or spec and produces a React Native and Expo app you can preview on a phone.

2 **Paid plans start at $20 a month**

As its pricing page puts it: $20 per month, billed monthly.

3 **There is a free plan**

20 AI credits a month (up to 5 a day), 5 screens per project and projects that are public by default.

4 **It runs on Web**

Web.

5 **Prompt, sketch, image or spec input**

Describe an app in text, sketch it, drop in a screenshot or upload a product requirements document, and the builder generates the screens.

6 **React Native and Expo code**

Output is standard React Native with Expo and Nativewind styling. The vendor says you own the code; export and the in-browser code editor start on the Starter plan.

7 **Point-and-prompt editing**

Select an element on a screen and describe the change you want, and the AI edits that part of the code.

8 **A 2.0 GPA, above 10 of 89**

That is against the other AI app builders we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace RapidNative you would be making a tool that builds and hosts other apps. That is not a weekend's work, with an AI app builder or without one.

RapidNative at a glance

MADE BY Shaper Studio Inc.	CATEGORY AI App Builders
OUR GRADE 2.0 GPA, fair	

The report card

Best for turning a prompt or sketch into a React Native app

RapidNative takes a prompt, sketch or spec and produces a React Native and Expo app you can preview on a phone. The free plan is 20 credits a month, 5 screens a project and public projects, and Git integration is listed as coming soon on every plan.

TOOLGPA REPORT CARD — **RapidNative** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	Starter is $20 a month, the category's middle. Higher plans run $49, $99 and $199.
Free plan and trial	C	20 credits a month, 5 a day, 5 screens a project and public projects by default is a cap you will hit quickly. No code export on Free.
Features	C	Prompt, sketch and image input, point-and-prompt editing, a backend and phone preview. Git is coming soon, and store publishing goes through a separate paid service.
Ease of use	C	No store rating on record, and building the app is still the work.
Platforms and integrations	C	Web only, with Expo and React Native code out. Three integrations are listed.

Grade point average — Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who RapidNative is for

- ✓ Fits if you want a phone-app prototype from a sketch or description
- ✓ Works for founders who want React Native code they can take over

Who it is not for

- ✕ Tight if you stay free: 20 credits a month and 5 screens a project
- ✕ Not for you if you want private projects free, as they start at Starter
- ✕ Watch out: code export, private projects and team features begin at $20 a month
- ✕ Watch out: Git integration is listed as coming soon
- ✕ Pricey if you want store publishing: it goes through LetsDeployIt, a separate flat-fee service

Good to know

Good for

- ✓ Founders and product managers who want a working mobile prototype
- ✓ Designers moving from a wireframe to an app they can test on a real phone
- ✓ Developers who want a React Native starting point

Worth knowing

- ⓘ The free plan stops at 20 credits a month, 5 screens a project and no code export; projects there are public by default.
- ⓘ Code export, private projects and team collaboration start at Starter ($20 a month).
- ⓘ Git integration is listed as coming soon on every plan.
- ⓘ Publishing to the App Store and Google Play goes through LetsDeployIt, a separate flat-fee service.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

$20

A month to start. There is a free plan too

RapidNative has a free plan. Paid plans start at $20 per month, billed monthly.

FREEMIUM

$0

20 credits a month, 5 screens per project, 10 MB of storage and no code export.

STARTER

$20

per month, billed monthly, 50 credits

Unlimited screens, private projects, code export and editor, team collaboration and 250 MB storage.

PRO

$49

per month, billed monthly, 150 credits

Everything in Starter with 150 credits a month and 1 GB of storage, for teams shipping several apps.

MAX

$99

per month, billed monthly, 330 credits

Everything in Pro with 330 credits a month and 3 GB of storage.

ULTRA

$199

per month, billed monthly, 725 credits

Everything in Max with 725 credits a month and 8 GB of storage.

ENTERPRISE

Custom

Custom design systems, white-labeling, dedicated infrastructure, SLAs and onboarding. Sold through sales.

The free plan

20 AI credits a month (up to 5 a day), 5 screens per project and projects that are public by default.

Ways to pay less

ANNUAL DISCOUNT

Yearly billing costs about half as much

Starter is $119 a year, Pro $199, Max $399 and Ultra $799, shown against $240, $588, $1,188 and $2,388 on monthly billing. Credits come as one annual bundle.

Stated on rapidnative.com

What it does

Its main features, where it runs, what it works with and who makes it

1

Place it runs: Web

AI builder that turns prompts into React Native mobile apps. Here is what it does, as its own site describes it, and what it covers: AI features, real-time collaboration, templates, app builder.

> **Prompt, sketch and image input, point-and-prompt editing, a backend and phone preview.**
>
> From our grade for features

Prompt, sketch, image or spec input

Describe an app in text, sketch it, drop in a screenshot or upload a product requirements document, and the builder generates the screens.

React Native and Expo code

Output is standard React Native with Expo and Nativewind styling. The vendor says you own the code; export and the in-browser code editor start on the Starter plan.

Point-and-prompt editing

Select an element on a screen and describe the change you want, and the AI edits that part of the code.

Backend included

Every project gets a Postgres database, authentication and file storage, and can be pointed at your own Supabase project from the settings.

Phone preview

Scan a QR code to run the app on a phone through Expo Go while you build, without Xcode or Android Studio.

Store publishing and screenshots

A connected paid service, LetsDeployIt, submits apps to the App Store and Google Play, and Appshots designs store screenshots using the same credits.

Where it runs

Web

What it works with

Supabase · Expo · Lovable

RapidNative is made by Shaper Studio Inc.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

10/89

Other AI app builders it is graded above

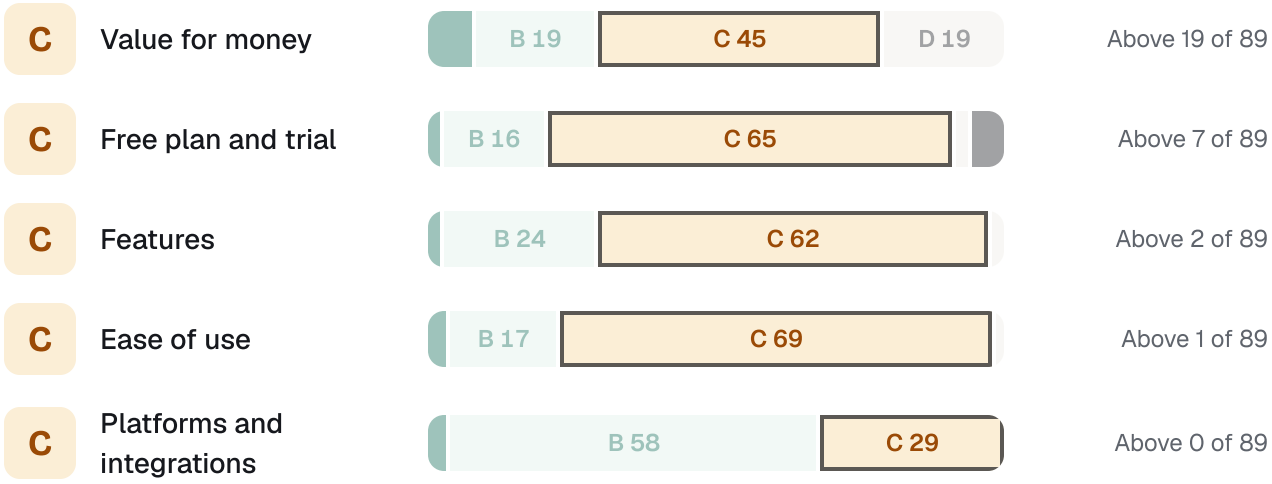

RapidNative's GPA of 2.0 is higher than 10 of the 89 other AI app builders we grade, and level with 12.

Its paid plans start at $20 a month, against a middle price of $20 for the category: 38 of the 82 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 28 tools score higher and cost less.

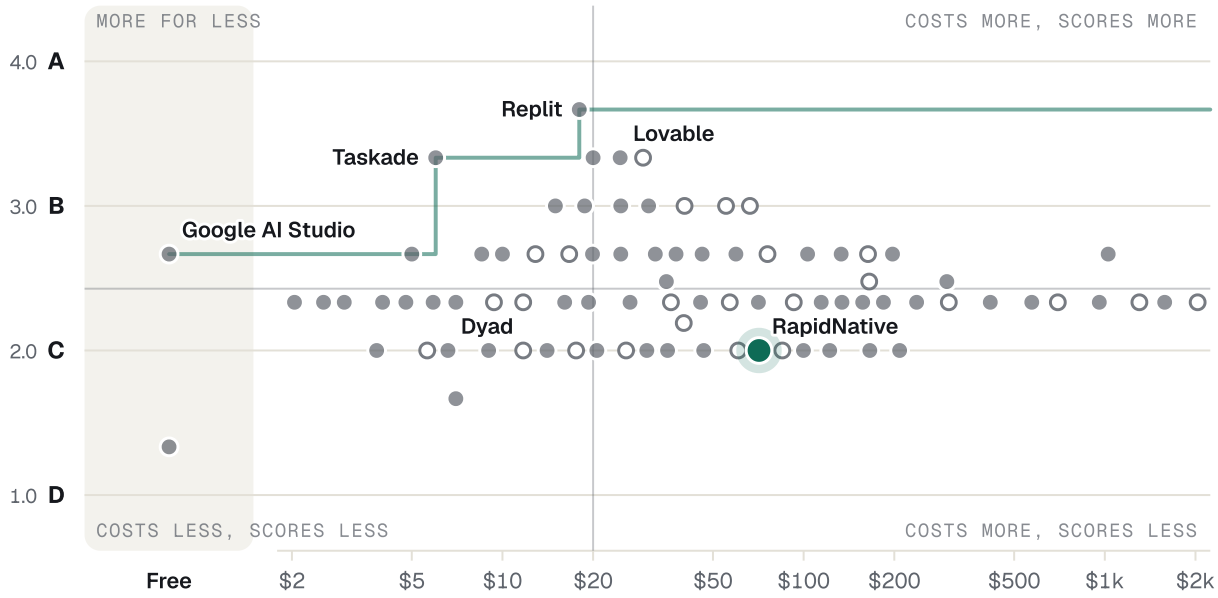

Each grade against the category

Every bar is all 90 AI app builders we grade, cut by the letter each got. RapidNative's own letter is outlined.

Price against what you get

Each dot is one of 85 AI app builders. Further left costs less; higher up scores better on features, ease of use and platforms. RapidNative is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace RapidNative you would be making a tool that builds and hosts other apps. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 67 of the 89 other AI app builders grade higher. It costs $240 a year.

What you could make

- Templates: an app builder makes this well.

What you could not

- A tool that builds and hosts other apps.

- Several people working in it at the same moment.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. RapidNative's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Rork, Dreamflow, FlutterFlow, Vibecode and Lovable

The 5 tools RapidNative is most often weighed against, with where each one differs from it.

2.8 GPA

Rork

Free plan · from $20/mo

AI builder for native iPhone, Android and web apps from a prompt.

- Only Rork lists an iOS app.
- RapidNative also covers templates.
- Rork also covers AI agents and no-code.

RapidNative and Rork compared in full

2.0 GPA

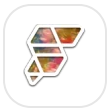

Dreamflow

Free trial · from $20/mo

AI and visual builder for Flutter mobile and web apps.

- RapidNative has a free plan. Dreamflow does not, though it has a free trial.
- RapidNative also covers templates.
- Dreamflow also covers AI agents and no-code.

RapidNative and Dreamflow compared in full

2.4
GPA

FlutterFlow

Free plan · from $29/mo

Visual and AI builder for iOS, Android and web apps.

- RapidNative also covers templates.
- FlutterFlow also covers AI agents and no-code.

RapidNative and FlutterFlow compared in full

2.4
GPA

Vibecode

Free trial · from $16.67/mo

AI builder for native iOS, cross-platform mobile and web apps.

- RapidNative has a free plan. Vibecode does not, though it has a free trial.
- Only Vibecode lists iOS and Android apps.
- RapidNative also covers templates.

RapidNative and Vibecode compared in full

2.8
GPA

Lovable

Free plan · from $21/mo

Chat-based AI builder for full-stack web apps and websites.

- Only Lovable lists macOS, Windows, iOS and Android apps.
- RapidNative also covers templates.
- Lovable also covers no-code.

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

13

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is RapidNative free?

RapidNative has a free plan. 20 AI credits a month (up to 5 a day), 5 screens per project and projects that are public by default.

How much does RapidNative cost?

RapidNative lists 6 plans. Freemium: $0.

What platforms does RapidNative work on?

RapidNative is available on Web.

Does RapidNative offer any discounts?

RapidNative publicly lists the following: Yearly billing costs about half as much.

Does RapidNative have an Android app?

No Android app was listed when its pages were read on Nov 13, 2026. RapidNative is listed for Web.

Does RapidNative have an iPhone app?

No iPhone app was listed when its pages were read on Nov 13, 2026. RapidNative is listed for Web.

Is RapidNative open source?

RapidNative is not described as open source on its own site, as read on Nov 13, 2026.

What does RapidNative integrate with?

RapidNative's listing names Supabase, Expo and Lovable. A listing names up to eight integrations, so it may connect to more.

Who makes RapidNative?

RapidNative is made by Shaper Studio Inc.

What are the alternatives to RapidNative?

The closest alternatives to RapidNative in our directory are Rork, Dreamflow, FlutterFlow, Vibecode and Lovable.

How does RapidNative compare with other AI app builders?

RapidNative's GPA of 2.0 is higher than 10 of the 89 other AI app builders we grade, and level with 12.

Is RapidNative good value for money?

ToolGPA grades RapidNative C for value for money. On features, ease of use and platforms it scores 2.0 out of 4.

Could I make my own version of RapidNative?

To replace RapidNative you would be making a tool that builds and hosts other apps.

Where this guide comes from

The prices, plans, platforms and features were read from RapidNative's own pages on Nov 13, 2026, and the grades were given on Nov 13, 2026. Graded from this listing, whose facts were read from RapidNative's own pages on 13 November 2026. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Shaper Studio Inc. Prices change, so check rapidnative.com before you buy.
