The report card

Best for a small-team ATS that posts to many boards

Recooty is an ATS that posts to 200-plus boards, builds a careers page and tracks candidates, with AI resume scoring. It's priced by company size, so the $79 starting plan is for up to 20 employees and 5 open jobs, and the same plan with unlimited jobs is $149.

TOOLGPA REPORT CARD — **Recooty** — Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	$79 a month on yearly billing ($99 monthly) is just above the category's cheaper quarter at $74. Unlimited posts need Standard at $149, or $249 at 21 to 50 employees.
Free plan and trial	C	A 15-day trial with no card is listed. There's no free plan, so this is a trial and not a free tier.
Features	C	Multiposting, careers page, pipeline, AI scoring and scheduling. Starter caps at 5 active jobs and 20 employees, and SSO needs Premier.
Ease of use	C	No store rating on record, and the listing shows a careers page and pipeline to build. That puts it at C.
Platforms and integrations	B	Web product connecting to Indeed, LinkedIn, Glassdoor, Monster, Gmail, Outlook, Zoom and Google Meet. No desktop or phone app, so B.

Grade point average — Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Its grades against its category, and whether to keep it or make your own

Recooty's GPA of 2.2 is higher than 76 of the 101 other hiring and applicant tracking tools we grade, and level with 11.

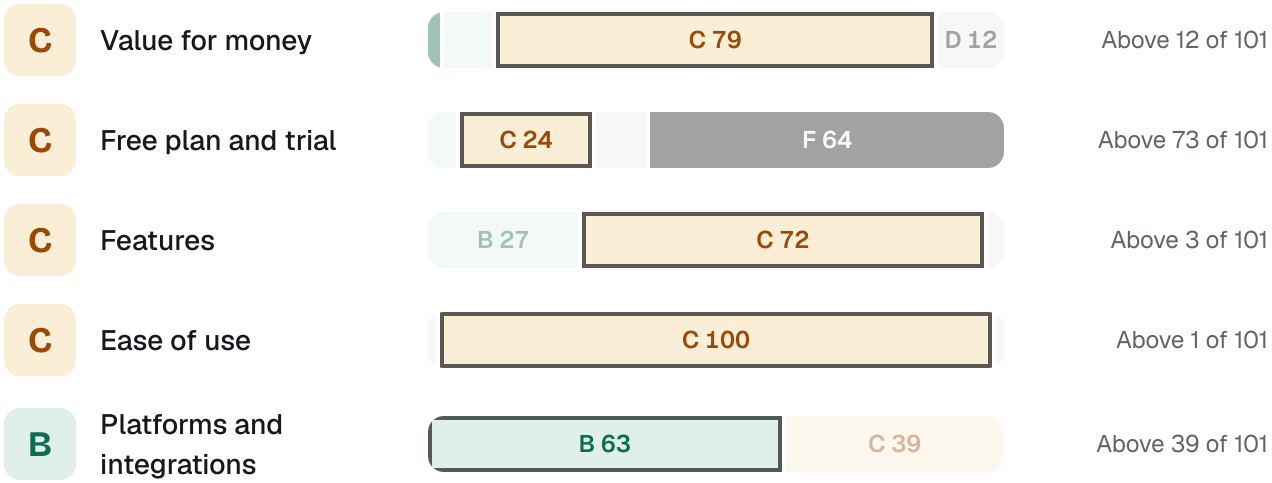

It stands best on platforms and integrations (B, above 39 of 101) and worst on ease of use (C, above 1).

Its paid plans start at $79 a month, against a middle price of $99 for the category: 12 of the 42 others that charge start lower.

Each grade against the category

Every bar is all 102 hiring and applicant tracking tools we grade, cut by the letter each got. Recooty's own letter is outlined.

Price against what you get

Each dot is one of 43 hiring and applicant tracking tools. Further left costs less; higher up scores better on features, ease of use and platforms. Recooty is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Recooty you would be making jobs posted to dozens of job boards at once, which takes an agreement with each board. That is not a weekend's work, with an AI app builder or without one.

It is one of the better ones too: its GPA of 2.2 is higher than 76 of the 101 other hiring and applicant tracking tools we grade. It costs $948 a year.

What you could make

- Applicant tracking and reports: an app builder makes these well.

What you could not

- Jobs posted to dozens of job boards at once, which takes an agreement with each board.
- It plugs into other products, Indeed, LinkedIn and Glassdoor among them.
- AI features, unless you pay a model provider for each request yourself.
- Hooks into the device itself: widgets.
- Sharing with other people, which means accounts and invitations.

What this rests on. Recooty's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
