# Welcome

What it is, who it suits, its grades and the ten things to know first

**1.8**

GPA, above 11 of the 72 other inventory management tools we grade

RELEX is an enterprise planning platform used by retailers, wholesalers and manufacturers for demand planning, inventory and replenishment, merchandising, pricing and production planning. The vendor describes it as an AI-native platform with 700+ enterprise implementations and sells it through demos rather than published plans.

To get you started, here are **7 things to know about RELEX Solutions**, taken from its own pages and our grades.

> **A many-module enterprise platform needs a long rollout, and no store rating is on record.**
>
> From our grade for ease of use

**1** **Best for an enterprise planning suite for large retailers**

No price is published, and the site's only route in is a demo request.

**2** **It runs on Web**

Web.

**3** **Demand planning**

Demand planning and demand sensing feed forecasts that draw on sales, supply, pricing and promotion signals in one model.

**4** **Inventory and replenishment**

End-to-end inventory planning, automatic replenishment and allocation, fresh inventory and planner diagnostics.

**5** **Store and retail operations**

Fresh expiration management, markdowns, store ordering and in-store production planning, plus workload forecasting.

**6** **A 1.8 GPA, above 11 of 72**

That is against the other inventory management tools we grade, on value, the free plan, features, ease of use and platforms.

**7** **Keep it**

The plain part of RELEX Solutions you could make: inventory and reports. What surrounds it you could not. The 4 things listed below take a company, not a weekend.

## RELEX Solutions

Graded Nov 13, 2026

| SUBJECT | GRADE | COMMENT |
|---|---|---|
| **Value for money** | C | No price is published, and the call to action is a demo request, so there is no figure to set against this category's $91 middle price. |
| **Free plan and trial** | F | No free plan or trial; it is sold by demo. |
| **Features** | B | Demand planning, inventory and replenishment, store operations, merchandising, pricing and manufacturing planning. The listing shows no gap in the core work. |
| **Ease of use** | C | A many-module enterprise platform needs a long rollout, and no store rating is on record. |
| **Platforms and integrations** | C | Web only, and the pages we read list no integrations. |

**Grade point average** — Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

### Who RELEX Solutions is for

- ✓ Fits if you run a large retail or wholesale chain with a planning team
- ✓ Makes sense if you want forecasting, replenishment and pricing from one vendor

### Who it is not for

- ✗ Not for you if you are a small business, as it is aimed at enterprises
- ✗ Skip it if you want a price on the page, as none is published
- ✗ Watch out: confirm which of its many modules a quote covers
- ✗ Watch out: no free plan or trial is shown, only demos

## Good to know

### Good for

- ✓ Large grocery and general retailers planning stock down to the store
- ✓ Wholesalers and consumer goods makers running planning end to end
- ✓ Enterprises that want one vendor for planning and store operations

### Worth knowing

- ⓘ No price is published; the site's call to action is to request a demo.
- ⓘ It is positioned at enterprises, so a small business is unlikely to be its target buyer.
- ⓘ The platform spans many modules, so a buyer should confirm which ones a quote covers.

# What it costs

Every plan, the free plan, ways to pay less and how prices have moved

RELEX Solutions's current pricing could not be confirmed from its own site.

> **No free plan or trial; it is sold by demo.**
>
> From our grade for free plan and trial

We could not confirm RELEX Solutions's current prices from its own site, so this guide lists no plans. relexsolutions.com has them.

# Where it stands

Its grades against its category, and whether to keep it or make your own

**11**/72

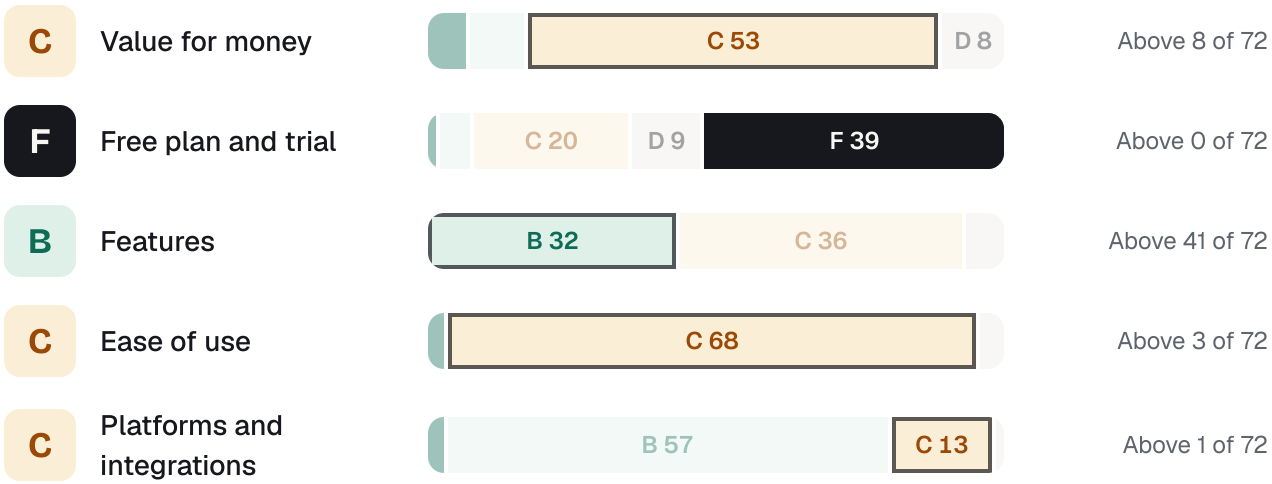

Other inventory management tools it is graded above

RELEX Solutions's GPA of 1.8 is higher than 11 of the 72 other inventory management tools we grade, and level with 16.

It stands best on features (B, above 41 of 72) and worst on free plan and trial (F, above 0).

## Each grade against the category

Every bar is all 73 inventory management tools we grade, cut by the letter each got. RELEX Solutions's own letter is outlined.

## Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

## Keep it

The plain part of RELEX Solutions you could make: inventory and reports. What surrounds it you could not. The 4 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 45 of the 72 other inventory management tools grade higher.

### What you could make

- Inventory and reports: an app builder makes these well.

### What you could not

- Connections that pull numbers from dozens of other services.
- AI features, unless you pay a model provider for each request yourself.
- Sharing with other people, which means accounts and invitations.
- The depth: we grade its features B, which means it covers the whole job.

**What this rests on.** RELEX Solutions's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
