Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	B	10 euros a unit a month plus 2% of direct bookings, excluding VAT. That's inside the cheaper quarter for one home, but a small portfolio multiplies it per unit.
Free plan and trial	F	No free plan and no trial are on record in the listing, so there is nothing to try before paying.
Features	C	Channel manager, booking engine, guest document scanning and an API. The listing flags that the site is written for the Croatian market first, and the bigger editions are sold by meeting.
Ease of use	C	No store rating on record. Linking channels and setting up units comes first.
Platforms and integrations	B	Web, iPhone and Android apps, with Booking.com, Airbnb and Expedia links and an open API.

Grade point average — Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

- ✗ Skip it if you want a trial first, because none is listed
- ✗ Pricey if most of your bookings come direct, since there's a 2% fee on each

- ✗ Watch out: the English pricing page still has a few untranslated words

Where it stands

Its grades against its category, and whether to keep it or make your own

14/53

Other vacation rental tools it is graded above

Rentlio's GPA of 2.0 is higher than 14 of the 53 other vacation rental tools we grade, and level with 11.

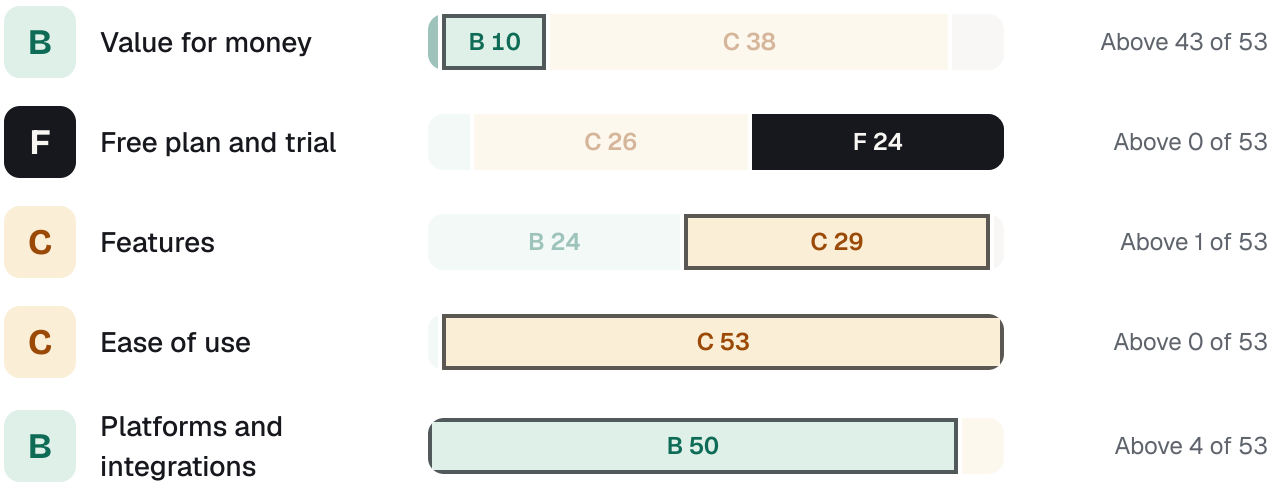

It stands best on value for money (B, above 43 of 53) and worst on free plan and trial (F, above 0).

Its paid plans start at about $11.17 a month, against a middle price of $19.99 for the category: 11 of the 35 others that charge start lower.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Rentlio you would be making two-way connections to Airbnb, Booking.com and Vrbo. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 28 of the 53 other vacation rental tools grade higher. It costs $134.06 a year.

What you could make

- Reports: an app builder makes this well.

What you could not

- Two-way connections to Airbnb, Booking.com and Vrbo.

- Connections to other products, each kept working as those products change.
- A real app for iOS and Android. Something home-made would be a web page.

What this rests on. Rentlio's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
