Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 3 of the 60 other webinar and live streaming tools we grade

Resi is a live streaming service built around its Resilient Streaming Protocol, which sends video from an encoder to Facebook, YouTube, a website or apps. It is aimed at churches, schools, athletics, government and corporate events, with plans for single-site, multisite and on-demand video.

To get you started, here are **8 things to know about Resi**, taken from its own pages and our grades.

1 **Best for dependable live streaming of church and school events**

Resi sends video from an encoder to YouTube, Facebook, a website or apps using its own streaming protocol.

2 **Paid plans start at $99 a month**

As its pricing page puts it: $99 per month, billed annually ($119 billed monthly).

3 **It runs on Web**

Web.

4 **Resilient Streaming Protocol**

Sends the stream through the vendor's own protocol to Facebook, YouTube, a website or apps; the plans differ in where it can go.

5 **Scheduling and presets**

Events can be organized with presets and automated scheduling, and stored video can be rebroadcast as simulated live from Starter Lite.

6 **Cloud transcoding**

Starter Lite and Pro include 3 adaptive bitrate levels; Enterprise goes up to 8, per the pricing page.

7 **A 1.6 GPA, above 3 of 60**

That is against the other webinar and live streaming tools we grade, on value, the free plan, features, ease of use and platforms.

8 **Keep it**

To replace Resi you would be making live video to hundreds of people at once. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for dependable live streaming of church and school events

Resi sends video from an encoder to YouTube, Facebook, a website or apps using its own streaming protocol. The cheapest plan is $99 a month and only streams to social sites, so a website or app means Starter Lite at $159 or Pro at $299. Nothing is free, and it isn't a webinar tool.

TOOLGPA REPORT CARD	Resi	Graded Nov 13, 2026
SUBJECT	GRADE	COMMENT
Value for money	D	$99 a month annually for social-only, but streaming to a website or apps needs $159 or $299. The category's dearer quarter starts at $99 and the dearest tenth at $167.
Free plan and trial	F	Nothing free on record: no free plan and no trial. A non-profit discount exists but its rates aren't shown.
Features	C	Scheduling, cloud transcoding, analytics and multisite overflow. It does the event streaming job, though not webinar registration, polls or attendee chat.
Ease of use	C	No store rating on record. It needs an encoder set up and pointed at your outlets.
Platforms and integrations	B	Web only, but it connects to Facebook, YouTube and ProPresenter.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Resi is for

- ✓ Fits if you stream weekly services or events from one or more campuses
- ✓ Works for venues that need one feed sent to overflow rooms

Who it is not for

- ✕ Pricey if you need a website or app stream: $159 a month at least, $299 on Pro
- ✕ Skip it if you want a webinar tool with registration, polls or chat
- ✕ Watch out: bandwidth is capped per plan
- ✕ Watch out: nothing is free and no trial is shown, and multisite plans run $129 to $669 a month

Good to know

Good for

- ✓ Churches and schools that stream weekly services or events
- ✓ Organizations that need dependable delivery to YouTube and Facebook
- ✓ Venues sending one feed to overflow rooms or several campuses

Worth knowing

- ⓘ Prices shown are for the Live Streaming plan set; Multisite plans run from $129 to $669 a month billed annually and Resi On Demand has its own plans.
- ⓘ The page's source also lists higher regular prices than the ones shown; only the displayed prices are recorded here.
- ⓘ Streaming to a website or apps needs Starter Lite or Pro, and bandwidth is capped per plan.
- ⓘ It is an event streaming service, not a webinar tool with registration, polls or attendee chat.

Where it stands

Its grades against its category, and whether to keep it or make your own

3/60

Other webinar and live streaming tools it is graded above

Resi's GPA of 1.6 is higher than 3 of the 60 other webinar and live streaming tools we grade, and level with 5.

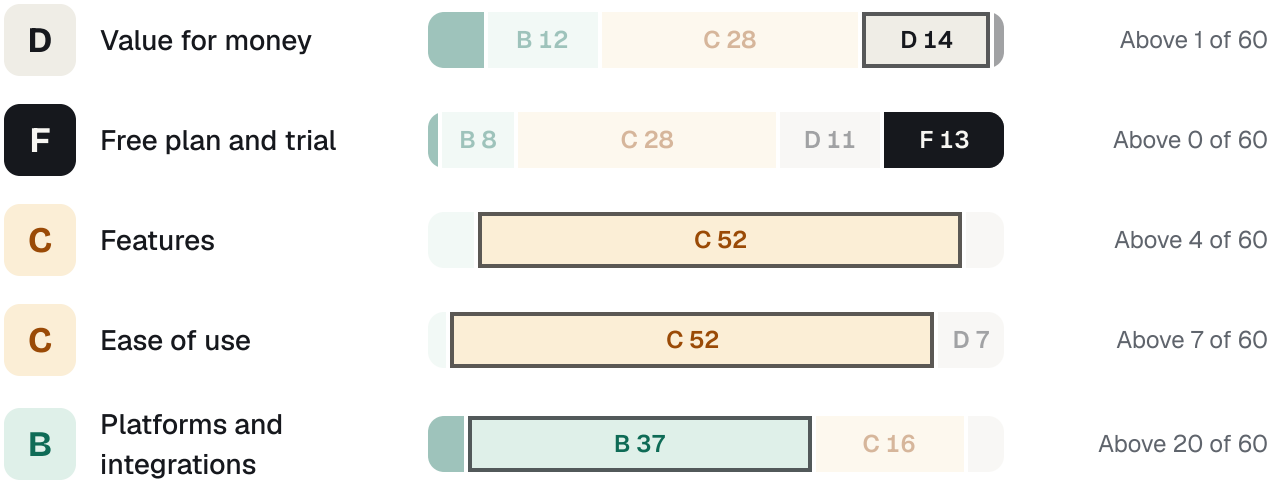

It stands best on platforms and integrations (B, above 20 of 60) and worst on free plan and trial (F, above 0).

Its paid plans start at $99 a month, against a middle price of $47 for the category: 33 of the 45 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 6 tools score higher and cost less.

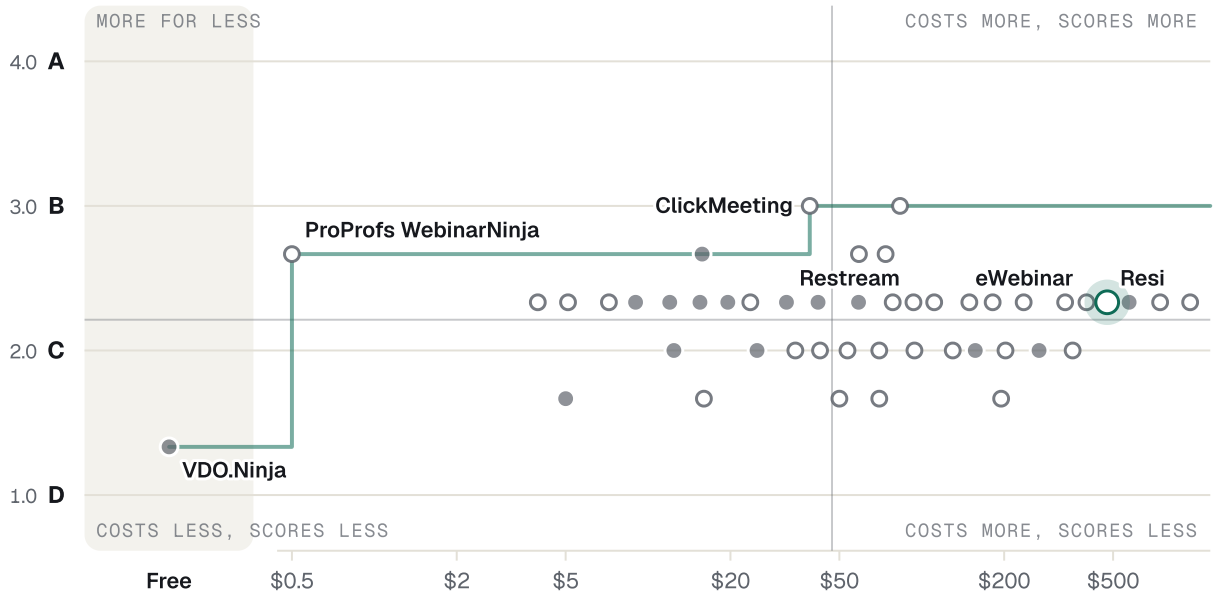

Each grade against the category

Every bar is all 61 webinar and live streaming tools we grade, cut by the letter each got. Resi's own letter is outlined.

Price against what you get

Each dot is one of 47 webinar and live streaming tools. Further left costs less; higher up scores better on features, ease of use and platforms. Resi is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Resi you would be making live video to hundreds of people at once. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 52 of the 60 other webinar and live streaming tools grade higher. It costs $1,188 a year.

What you could make

- Reports: an app builder makes this well.

What you could not

- Live video to hundreds of people at once.

- One live stream sent to several platforms at once.
- It plugs into other products, Facebook, YouTube and ProPresenter among them, and has an API.

What this rests on. Resi's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
