Other resume builders it is graded above

Its paid plans start at $12 a month, against a middle price of $14 for the category: 12 of the 26 others that charge start lower.

Each grade against the category

Every bar is all 46 resume builders we grade, cut by the letter each got. ResumeCat's own letter is outlined.

Price against what you get

Each dot is one of 32 resume builders. Further left costs less; higher up scores better on features, ease of use and platforms. ResumeCat is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Your call

You could make the core of ResumeCat for yourself: resume builder and templates.

What you would give up is listed below. Whether that is worth the price is your call. It costs $144 a year.

What you could make

- Resume builder and templates: an app builder makes these well.

What you could not

- AI features, unless you pay a model provider for each request yourself.

- It runs in a browser, which is where something home-made would run too.

What this rests on. ResumeCat's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
