Best for guided agile retrospectives

Retrium walks a team through a retro step by step: private brainstorming, grouping, voting and action items. It costs $39 a month per team room, with

a 30-day trial and nothing free after, and the only task tracker it links to is Jira Cloud.

TOOLGPA REPORT CARD **Retrium** Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	$39 a month per team room, about $8 a head for a team of five, which is the category's middle. Business is $59 per room.
Free plan and trial	C	A 30-day trial of the retrospective formats, and the page doesn't say a card is needed to start. Nothing free after it.
Features	C	Guided steps, anonymous input, many formats, action plans and room history. It does the retro job fully, but it's a smaller job, and pricing is per room.
Ease of use	C	No store rating on record. You set up team rooms and invite people before the first retro.
Platforms and integrations	B	Web only, but it connects to Jira Cloud and Slack, which is in beta.

Grade point average Fair, out of 4.0 **2.2**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Retrium is for

- ✓ Fits if you're a scrum master running regular sprint retros
- ✓ Works for remote teams that follow up actions in Jira

Who it is not for

- ✗ Pricey if you run many teams, as each team room costs separately
- ✗ Skip it if you want a free plan, because there's only a 30-day trial
- ✗ Watch out: the Business card shows $715 a year per room while the table shows $59 a month
- ✗ Watch out: the Slack app is labelled beta and Jira Cloud is the only tracker listed

Good to know

Good for

- ✓ Scrum masters and agile coaches running regular sprint retros

- ⓘ The Business card shows $715 per team room per year while the comparison table shows $59 per month; confirm with the vendor.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Your call

A whiteboard at its plainest is boxes and arrows on a canvas.

You could make the core of Retrium for yourself: templates and tasks. What you would give up is listed below. Whether that is worth the price is your call. It costs $468 a year.

What you could make

- Templates and tasks: an app builder makes these well.

What you could not

- × Several people working in it at the same moment.

It runs in a browser, which is where something home-made would run too.

What this rests on. Retrium's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
