07 About ToolGPA
Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Reve's own pages, its app-store listings and our grades. Every fact in it is on Reve's page too, where it is kept up to date. Checked Nov 12, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 4 of the 89 other AI image and video generators we grade

Reve creates and edits images with its own model, Reve 2.1, which represents each image as editable layout regions. The web editor offers a chat agent, live layers, annotation and shared team workspaces, and the company also sells an API and a Chrome extension. Pricing is shown only inside the app.

To get you started, here are **7 things to know about Reve**, taken from its own pages and our grades.

> "
>
> **Pricing is shown only inside the app, so what it costs isn't public.**
>
> From our report card of Reve

1 **Best for image creation and editing in layers with its own model**

Reve makes and edits images with its own model through a web editor with a chat agent and layers.

2 **It runs on Web**

Web, with a browser extension too.

3 **Layout-based images**

Reve represents an image as structured layout regions, so individual elements can be addressed and edited after generation.

4 **Native 4K output**

Reve says its 2.1 model renders at 4K, with 16 megapixels as its native resolution.

5 **Chat agent and live layers**

Create and edit in plain language through a built-in agent, with elements kept on separate layers and annotation directly on the image.

6 **A 1.8 GPA, above 4 of 89**

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Reve you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

Reve at a glance

PRICING Paid	FREE PLAN No

OUR GRADE 1.8 GPA, weak	

The report card

Best for image creation and editing in layers with its own model

Reve makes and edits images with its own model through a web editor with a chat agent and layers. Pricing is shown only inside the app, so what it costs isn't public.

TOOLGPA REPORT CARD	Reve	Graded Nov 12, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No public price: plan names and prices aren't on a page we could read.
Free plan and trial	F	The listing records no free plan or trial.
Features	C	Layout-based images, 4K output, chat agent, live layers, Teams, API and a Chrome extension. Plan limits aren't confirmed.
Ease of use	C	Sign-in is needed and the editor has layers and a chat agent to learn.
Platforms and integrations	B	Web editor, plus a Chrome extension and an API.
Grade point average		Weak, out of 4.0 **1.8**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Reve is for

- ✓ Fits if you edit images by chat and layers
- ✓ Works for teams sharing a workspace

Who it is not for

- ✗ Skip it if you want a public price
- ✗ Not for you if you won't sign in
- ✗ Watch out: the blog mentions a Reve Pro plan that isn't on a pricing page
- ✗ Watch out: Teams and video are described on the blog, not a plan page

Good to know

Good for

- ✓ Designers who want to edit parts of a generated image without re-rolling it
- ✓ Teams that share references and projects in one workspace
- ✓ Developers who want an image API with layout-level control

Worth knowing

- ⓘ Plan names and prices are not on a public page we could read; the vendor's blog mentions a Reve Pro plan, so check the app for current pricing.
- ⓘ Some features, including Teams and video generation, are described on the vendor's blog rather than on a pricing page, so plan limits are not confirmed.
- ⓘ Account sign-in is needed to reach the editor.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Reve's current pricing could not be confirmed from its own site.

> **No public price: plan names and prices aren't on a page we could read.**
>
> From our grade for value for money

We could not confirm Reve's current prices from its own site, so this guide lists no plans. app.reve.com has them.

PART 03 · FEATURES

What it does

Its main features, where it runs, what it works with and who makes it

2

Places it runs: Web and Browser extension

4K image generator and editor built on a layout model. Here is what it does, as its own site describes it, and what it covers: public API, AI features, chat assistant, image generation, video generation.

"

Web editor, plus a Chrome extension and an API.

From our grade for platforms and integrations

Layout-based images

Reve represents an image as structured layout regions, so individual elements can be addressed and edited after generation.

Native 4K output

Reve says its 2.1 model renders at 4K, with 16 megapixels as its native resolution.

Chat agent and live layers

Create and edit in plain language through a built-in agent, with elements kept on separate layers and annotation directly on the image.

Reve for Teams

Shared workspaces and projects hold references, edits and iterations, with video generation models integrated into the app.

API and Chrome extension

The Reve 2.1 API has a single create endpoint plus layout-control endpoints; the Chrome extension saves web images as references or palettes.

Where it runs

Web

Browser extension

What it works with

Its own pages name no integrations.

Reve is made by Reve AI, Inc.

Where it stands

Its grades against its category, and whether to keep it or make your own

4/89

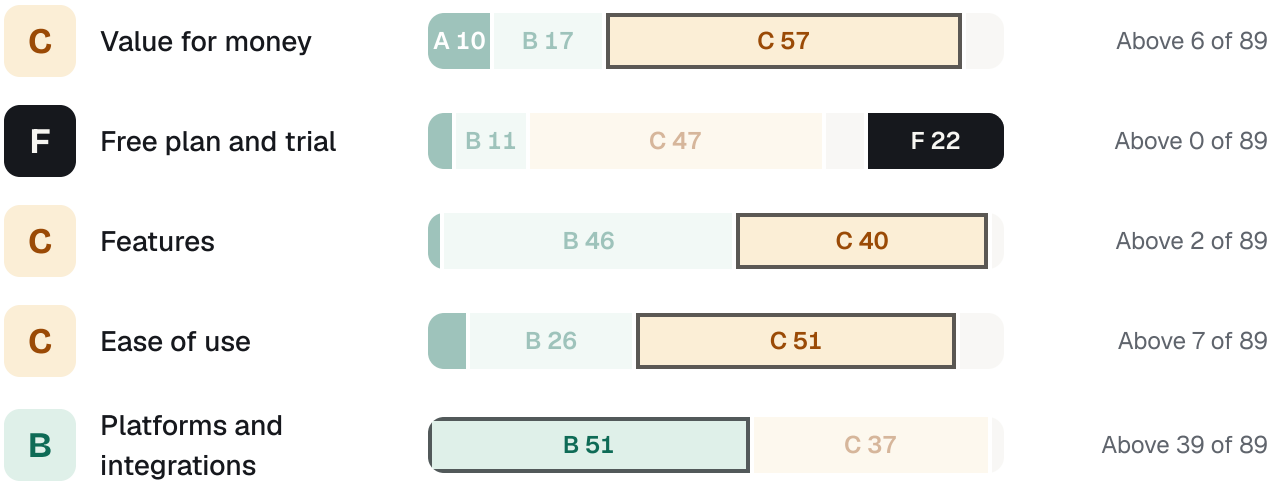

Other AI image and video generators it is graded above

Reve's GPA of 1.8 is higher than 4 of the 89 other AI image and video generators we grade, and level with 11.

It stands best on platforms and integrations (B, above 39 of 89) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 90 AI image and video generators we grade, cut by the letter each got. Reve's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Reve you would be making an image model, which you can rent by the picture but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 74 of the 89 other AI image and video generators grade higher.

What you could not

- An image model, which you can rent by the picture but not make.
- A video model, which you can rent by the second but not make.
- An AI model, which you can rent by the request but not make.
- An API that other software can build on.

What this rests on. Reve's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.

The alternatives

The tools it is most often weighed against, side by side

Midjourney, Ideogram, Recraft, FLUX by Black Forest Labs and Leonardo.Ai

The 5 tools Reve is most often weighed against, with where each one differs from it.

2.0 GPA

Midjourney

From $8/mo

Image and short-video generator run on monthly GPU time.

- Only Reve lists a browser extension.
- Reve also covers chat assistant.

Reve and Midjourney compared in full

2.8 GPA

Ideogram

Free plan · from $15/mo

Image generator for designs with text, plus editing and video apps.

- Ideogram has a free plan. Reve does not.
- Only Reve lists a browser extension.
- Only Ideogram lists an iOS app.

Reve and Ideogram compared in full

2.6
GPA

Recraft

Free plan · from $10/mo

Image and vector generator built for designers and brand work.

- Recraft has a free plan. Reve does not.
- Only Recraft lists iOS and Android apps.
- Reve also covers chat assistant.

Reve and Recraft compared in full

2.0
GPA

FLUX by Black Forest Labs

Free plan

FLUX image and video models, paid per use via API and playground.

- FLUX by Black Forest Labs has a free plan. Reve does not.
- Only Reve lists a browser extension.
- FLUX by Black Forest Labs is self-hostable, according to its own site.

Reve and FLUX by Black Forest Labs compared in full

3.0
GPA

Leonardo.Ai

Free plan · from $12/mo

Image, video and 3D generator with its own and partner models.

- Leonardo.Ai has a free plan. Reve does not.
- Only Reve lists a browser extension.
- Only Leonardo.Ai lists iOS and Android apps.

Reve and Leonardo.Ai compared in full

PART 06 · QUESTIONS

Quick answers

The questions people ask about it, each answered in a line or two

10

Questions, each answered in a line or two

The short version of everything above, for when you only need the answer. Each one is told in full in its part of the guide.

Is Reve free?

No. Reve is a paid product.

What platforms does Reve work on?

Reve is available on Web. It also has a browser extension.

Does Reve have an Android app?

No Android app was listed when its pages were read on Nov 12, 2026. Reve is listed for Web.

Does Reve have an iPhone app?

No iPhone app was listed when its pages were read on Nov 12, 2026. Reve is listed for Web.

Is Reve open source?

Reve is not described as open source on its own site, as read on Nov 12, 2026.

Does Reve have an API?

Yes. Reve offers a public API, according to its own site.

Who makes Reve?

Reve is made by Reve AI, Inc.

What are the alternatives to Reve?

The closest alternatives to Reve in our directory are Midjourney, Ideogram, Recraft, FLUX by Black Forest Labs and Leonardo.Ai.

How does Reve compare with other AI image and video generators?

Reve's GPA of 1.8 is higher than 4 of the 89 other AI image and video generators we grade, and level with 11.

Could I make my own version of Reve?

To replace Reve you would be making an image model, which you can rent by the picture but not make.

Where this guide comes from

The prices, plans, platforms and features were read from Reve's own pages on Nov 12, 2026, and the grades were given on Nov 12, 2026. Graded from this listing, whose facts were read from Reve's own pages on 12 November 2026. Its home page showed no prices, so the grades follow the listing. Not based on using the product, and shorter than our full reviews.

Every tool we list gets five grades, A to F, each with its reason, and a GPA that averages them. How each is decided is at toolgpa.com/grades. This guide is ToolGPA's own work; it is not made, paid for or approved by Reve AI, Inc. Prices change, so check app.reve.com before you buy.
