Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 31 of the 168 other AI image and video generators we grade

Revid AI turns text, links and ideas into short-form videos with AI visuals, voiceovers and captions. Videos can be published to TikTok, Instagram, YouTube and X from inside the product, with post stats and a library of videos to remix. The company says every plan includes API, MCP and CLI access.

To get you started, here are **9 things to know about Revid AI**, taken from its own pages and our grades.

> **If you want to see the price first, you can't.**
>
> From our report card of Revid AI

1 **Best for short videos made from a link or an idea**

Revid AI turns text, links and ideas into short videos with voiceover and captions, and can post them to TikTok, Instagram, YouTube and X.

2 **Paid plans start at $39 a month**

As its pricing page puts it: $39 per month, billed monthly.

3 **You can try it first**

The site advertises "Try for free" with no credit card required; the pricing page does not state what the free try includes.

4 **It runs on Web**

Web.

5 **Text, link and idea to video**

Creates short-form videos from a prompt, a link or an article, with a script, visuals, voiceover and captions.

6 **Publishing and stats**

Posts to TikTok, Instagram, YouTube and X, and shows post stats with a one-click remix of videos that did well.

7 **Auto-Mode workers**

Workers create and publish videos on a schedule; the count is 3 on Growth and 10 on Ultra.

8 **A 2.0 GPA, above 31 of 168**

That is against the other AI image and video generators we grade, on value, the free plan, features, ease of use and platforms.

9 **Keep it**

To replace Revid AI you would be making a video model, which you can rent by the second but not make. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for short videos made from a link or an idea

Revid AI turns text, links and ideas into short videos with voiceover and captions, and can post them to TikTok, Instagram, YouTube and X. The cheapest plan is $39 a month, the credits don't roll over, and bigger credit tiers climb to hundreds of dollars a month. If you want to see the price first, you can't.

TOOLGPA REPORT CARD **Revid AI** Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	D	$39 a month is in the dearest tenth of AI image and video tools, and the page shows Hobby and Growth at the same figure. Larger credit tiers run to $459 and $2,799 a month.
Free plan and trial	C	A 'try for free' with no card, but the pricing page doesn't say what the free try includes.
Features	C	Text, link and idea to video, publishing, stats, Auto-Mode workers and 100+ video tools. Credits do the metering, so a plan's reach depends on what you make.
Ease of use	C	No rating on record. You build each video from a prompt and edit it, which takes a few tries.
Platforms and integrations	B	Web, with publishing to four networks and API, MCP and CLI access on the plans.
Grade point average		Fair, out of 4.0 **2.0**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Revid AI is for

- ✓ Fits if you post short videos every week and want one tool to make and publish them
- ✓ Works for people who start from a link or an idea instead of a script

Who it is not for

- ✗ Pricey if you're a casual poster: $39 a month is the entry price
- ✗ Watch out: credits don't roll over, and top-ups start at 1,000 credits for $49
- ✗ Watch out: Growth shows $39 against a crossed-out $99, and yearly billing is only in the FAQ
- ✗ Skip it if you want a known free allowance, because the page doesn't give one
- ✗ Tight if you scale up: 30,000 credits is $459 a month

Good to know

Good for

- ✓ Creators who publish short videos to several social channels
- ✓ Faceless channels that post on a schedule
- ✓ Teams that want to generate video from scripts or code via an API

Worth knowing

- ⓘ The pricing page shows Hobby and Growth at the same $39 a month, with Growth's price shown against a crossed-out $99.
- ⓘ The FAQ gives yearly billing as $32 a month for Growth and $166 a month for Ultra; the toggle on the page showed monthly prices when read.
- ⓘ Credits do not roll over from month to month, and Credit Boost top-ups are sold separately, starting at 1,000 credits for $49.
- ⓘ Higher credit tiers raise the price: 30,000 credits is $459 a month and 200,000 credits is $2,799 a month.

Where it stands

Its grades against its category, and whether to keep it or make your own

31/168

Other AI image and video generators it is graded above

Revid AI's GPA of 2.0 is higher than 31 of the 168 other AI image and video generators we grade, and level with 31.

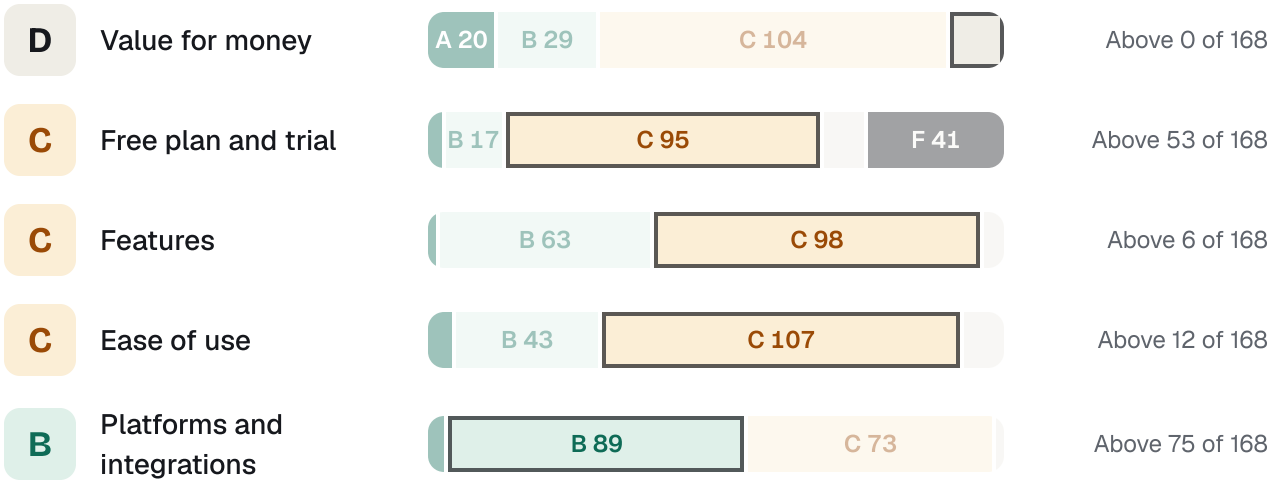

It stands best on platforms and integrations (B, above 75 of 168) and worst on value for money (D, above 0).

Its paid plans start at $39 a month, against a middle price of $11.88 for the category: 115 of the 120 others that charge start lower.

On features, ease of use and platforms it scores 2.3 out of 4. 48 tools score higher and cost less.

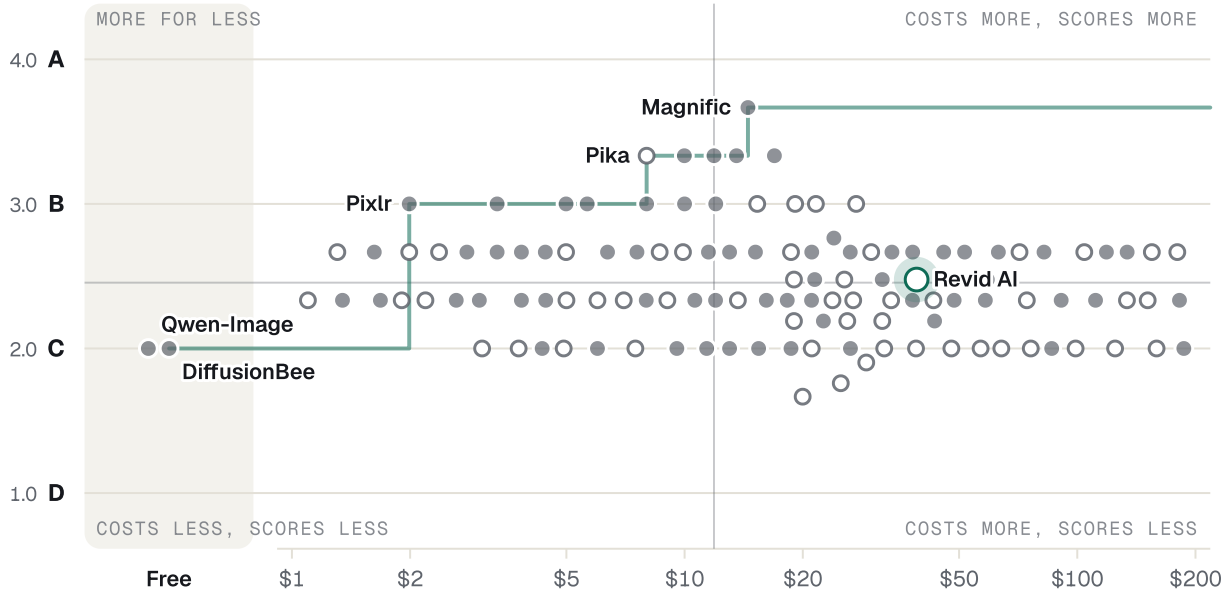

Each grade against the category

Every bar is all 169 AI image and video generators we grade, cut by the letter each got. Revid AI's own letter is outlined.

Price against what you get

Each dot is one of 123 AI image and video generators. Further left costs less; higher up scores better on features, ease of use and platforms. Revid AI is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Revid AI you would be making a video model, which you can rent by the second but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 106 of the 168 other AI image and video generators grade higher. It costs $468 a year.

What you could not

- ✕ A video model, which you can rent by the second but not make.
- ✕ A voice model, which you can rent by the minute but not make.

- ✕ A voice model trained on your recordings.
- ✕ It plugs into other products, TikTok, Instagram and YouTube among them, and has an API.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Revid AI's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
