Who Revoicer is for

- ✓ Fits if you want a one-time purchase for voiceovers rather than a monthly bill
- ✓ Works for English video makers who want a voice that sounds friendly, sad or whispering

Who it is not for

- ✗ Skip it if you want a free try, because there is no free plan or trial, only a 60-day money-back guarantee
- ✗ Not for you if you need moods in other languages: emotions are English-only and only 11 voices have them
- ✗ Pricey if you need PRO features: translation, background music and agency rights cost $47 a month
- ✗ Watch out: every plan shows a crossed-out regular price with no end date, so the cheaper price may not last
- ✗ Watch out: plans are counted in credits and the page doesn't say how many characters a credit covers

Good to know

Good for

- ✓ Marketers and course makers who want a quick voiceover for a video
- ✓ People who prefer to pay once instead of subscribing

Worth knowing

- ⓘ Only 11 English voices support emotions, and emotions do not work in other languages.
- ⓘ The pricing page shows each paid plan against a crossed-out regular price with no end date, so the cheaper figures are recorded here.
- ⓘ Plans are metered in monthly credits, and the page does not say how many characters a credit covers.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Revoicer you would be making a voice model, which you can rent by the minute but not make. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 43 of the 72 other AI voice generators grade higher. It costs $564 a year.

What you could not

- ✕ A voice model, which you can rent by the minute but not make.
- ✕ AI features, unless you pay a model provider for each request yourself.

What this rests on. Revoicer's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
