Welcome

What it is, who it suits, its grades and the ten things to know first

2.0

GPA, above 11 of the 122 other email apps we grade

Right Inbox is a browser extension that adds scheduling and follow-up features to Gmail. It covers send later, reminders, templates, signatures, private notes, email tracking, sequences and mail merge, and it installs in Chrome, Safari or Firefox. A free plan caps most features at five emails a month.

2 **Paid plans start at $7.95 a month**

SUBJECT	GRADE	COMMENT
Value for money	C	Professional is $7.95 a month billed yearly, which is the middle of what email tools charge.

Features	C	Send later, reminders, tracking, sequences, mail merge and CRM sync. Gmail only, so it's a Gmail add-on rather than a mail app.
Ease of use	C	No store rating on record, though the page cites 12,000+ Chrome store reviews. You install an extension and learn its tools.
Platforms and integrations	C	A Chrome, Safari or Firefox extension for Gmail, with CRM integrations. No phone app, and nothing outside Gmail.

Who Right Inbox is for

- ✓ Fits if you live in Gmail and want to schedule and track what you send
- ✓ Works for solo senders who need send later and reminders

Who it is not for

- ✗ Skip it if you use Outlook or any mailbox besides Gmail
- ✗ Tight if you stay free: 5 emails a month for most features
- ✗ Not for you if you want sequences or mail merge without paying, as those aren't on the free plan
- ✗ Pricey if you add teammates, at $16.95 a month on Team
- ✗ Watch out: the page doesn't say whether the Team price is per seat

Good to know

Good for

- ✓ Gmail users who want scheduled sends and follow-up reminders
- ✓ Freelancers and small sales teams doing light outreach from Gmail
- ✓ People who prefer an add-on over switching email apps

Worth knowing

- ⓘ It works only with Gmail, as an extension for Chrome, Safari or Firefox.
- ⓘ The free plan allows 5 emails a month for most features, so regular use needs a paid plan.
- ⓘ The pricing page does not show the yearly total, and its monthly and yearly labels sit behind a toggle.
- ⓘ The page says Team has unlimited team members but does not say whether its price is per seat.

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

11/122

Other email apps it is graded above

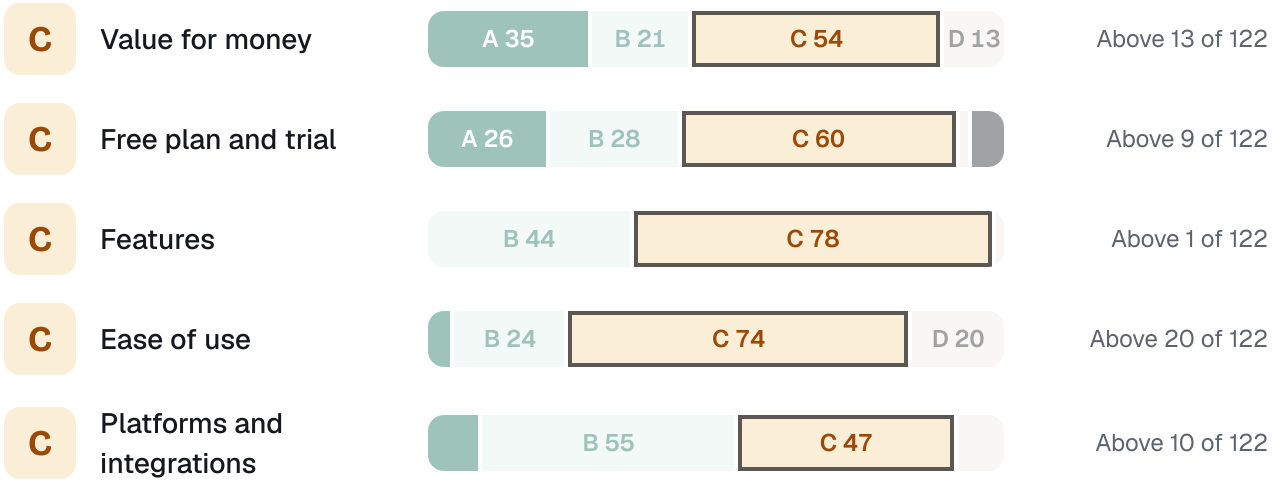

Right Inbox's GPA of 2.0 is higher than 11 of the 122 other email apps we grade, and level with 17.

Its paid plans start at $7.95 a month, against a middle price of $4.92 for the category: 49 of the 76 others that charge start lower.

On features, ease of use and platforms it scores 2.0 out of 4. 48 tools score higher and cost less.

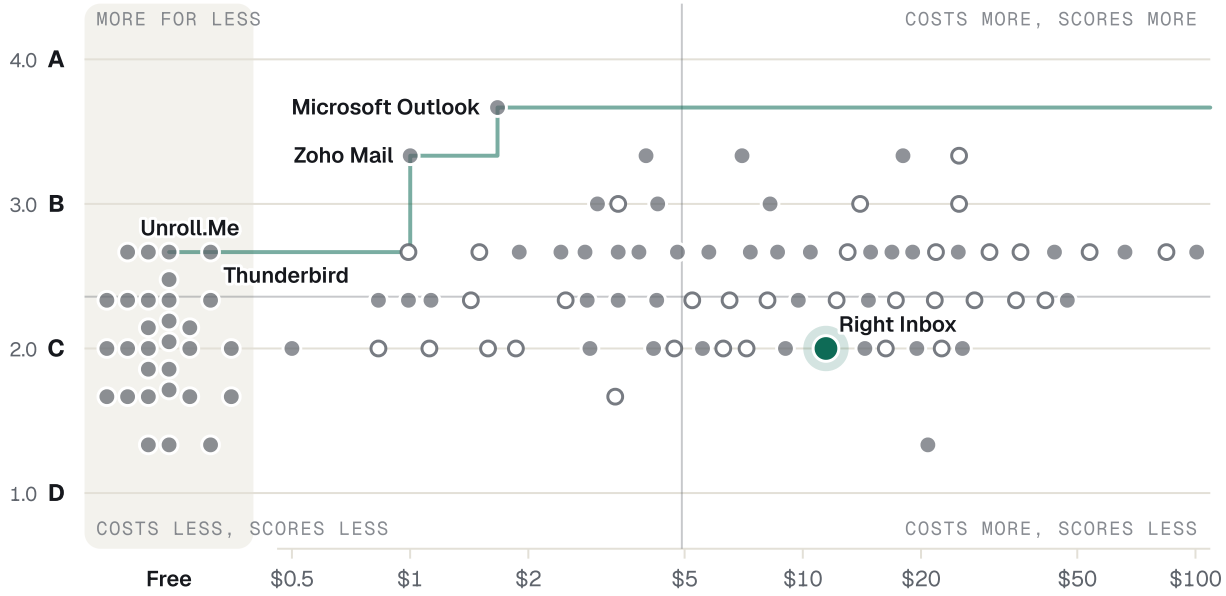

Each grade against the category

Every bar is all 123 email apps we grade, cut by the letter each got. Right Inbox's own letter is outlined.

Price against what you get

Each dot is one of 107 email apps. Further left costs less; higher up scores better on features, ease of use and platforms. Right Inbox is the marked dot.

What paid plans start at, a month (each step along is roughly double)

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

The plain part of Right Inbox you could make: templates and email signature. What surrounds it you could not. The 1 things listed below take a company, not a weekend.

That makes this kind of software worth paying for, not this one in particular: 94 of the 122 other email apps grade higher. It costs $95.40 a year.

What you could make

- Templates and email signature: an app builder makes these well.

What you could not

- AI features, unless you pay a model provider for each request yourself.

What this rests on. Right Inbox's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
