Who made this guide, what else is on the site, and how to cite it

ToolGPA put this guide together from Rotageek's own pages, its app-store listings and our grades. Every fact in it is on Rotageek's page too, where it is kept up to date. Checked Nov 13, 2026.

Welcome

What it is, who it suits, its grades and the ten things to know first

1.6

GPA, above 0 of the 49 other shift scheduling apps we grade

Rotageek is workforce management software from the UK for retail, hospitality, care homes, manufacturing and similar operators. It builds rotas, forecasts labor demand, records clock-ins, applies pay rules and exports payroll. Customers pick a package that starts with Digital Scheduling and add auto-scheduling, forecasting, labor modelling and insights.

> "
>
> **It's an enterprise package with add-ons.**
>
> From our grade for ease of use

To get you started, here are **7 things to know about Rotageek**, taken from its own pages and our grades.

1 **Best for retail and hospitality chains**

No price is published, and its /pricing page returns not-found.

2 **It runs on Web**

Web.

3 **Rota building and auto-scheduling**

Rota building with skills, tasks and rules checks, plus an auto-scheduling add-on that creates optimized schedules.

4 **Forecasting and labor planning**

Demand forecasting, labor modelling and labor budgets are sold as add-ons to the core scheduling package.

5 **Time and attendance**

Clock in by app, kiosk or geofence, with timesheets.

6 **A 1.6 GPA, above 0 of 49**

That is against the other shift scheduling apps we grade, on value, the free plan, features, ease of use and platforms.

7 **Keep it**

To replace Rotageek you would be making payroll taxes worked out and filed with the government for you. That is not a weekend's work, with an AI app builder or without one.

The report card

Best for retail and hospitality chains

Rotageek builds rotas, forecasts demand and tracks time, but auto-scheduling, forecasting and labor modelling are add-ons beyond the core package. No price is published, and its /pricing page returns not-found.

TOOLGPA REPORT CARD	Rotageek	Graded Nov 13, 2026

SUBJECT	GRADE	COMMENT
Value for money	C	No price on record, and the site's /pricing page is not found. Demos only.
Free plan and trial	F	Nothing free is listed: no free plan and no trial on the pages we read.
Features	C	Rotas, forecasting, time and attendance, pay rules and an app. But auto-scheduling, forecasting and labor modelling are add-ons beyond Digital Scheduling.
Ease of use	C	No store rating on record. It's an enterprise package with add-ons.
Platforms and integrations	C	Web only on the listing, with ELMO the one named integration.
Grade point average		Weak, out of 4.0 **1.6**

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Rotageek is for

- ✓ Fits if you run a retail or hospitality chain and want forecast-led rotas
- ✓ Works for teams using ELMO for HR

Who it is not for

- ✕ Skip it if you want a price, as none is shown
- ✕ Tight if you need auto-scheduling or forecasting, since they are add-ons
- ✕ Watch out: the HR modules are powered by ELMO, not built by Rotageek

Good to know

Good for

- ✓ UK retailers and hospitality operators with many sites
- ✓ Care homes and other services with rule-heavy rotas
- ✓ Teams that want forecasting feeding the rota

Worth knowing

- ⓘ No prices are published; the site routes to demos, and /pricing returns a not-found page.
- ⓘ Auto-scheduling, forecasting, labor modelling and insights are add-ons beyond the core Digital Scheduling package.
- ⓘ The HR modules are powered by ELMO rather than being a separate Rotageek product.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Rotageek's current pricing could not be confirmed from its own site.

> **No price on record, and the site's /pricing page is not found.**
>
> From our grade for value for money

We could not confirm Rotageek's current prices from its own site, so this guide lists no plans. rotageek.com has them.

What it does

Its main features, where it runs, what it works with and who makes it

1

PART 04 · STANDING

Where it stands

Its grades against its category, and whether to keep it or make your own

0/49

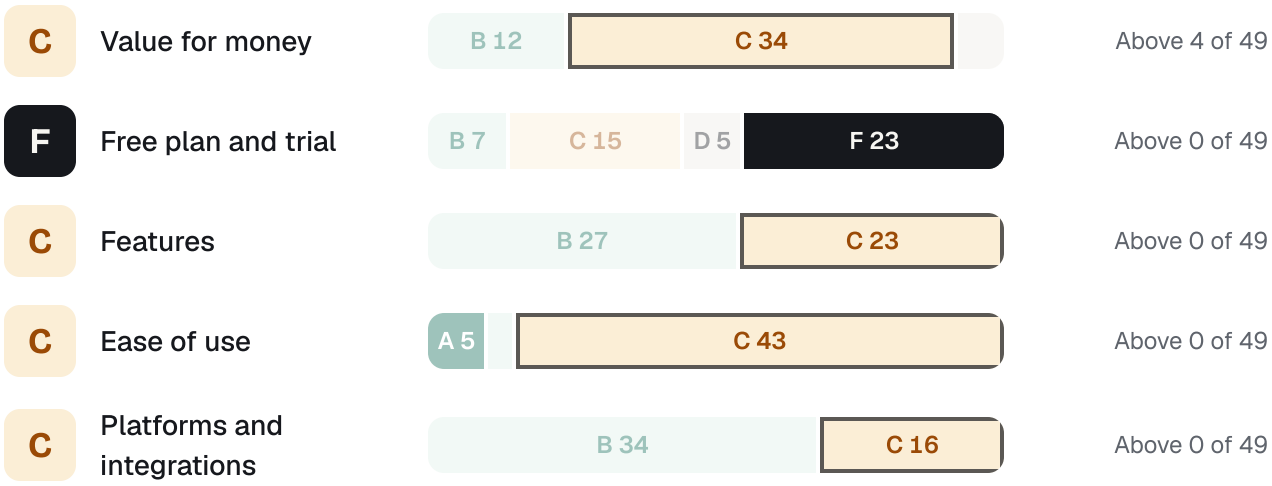

Other shift scheduling apps it is graded above

Rotageek's GPA of 1.6 is higher than 0 of the 49 other shift scheduling apps we grade, and level with 3.

It stands best on value for money (C, above 4 of 49) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 50 shift scheduling apps we grade, cut by the letter each got. Rotageek's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Rotageek you would be making payroll taxes worked out and filed with the government for you. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 46 of the 49 other shift scheduling apps grade higher.

What you could make

- Time off and reports: an app builder makes these well.

What you could not

- Payroll taxes worked out and filed with the government for you.
- A rota the whole staff sees on their phones, with swaps and alerts.
- Clocking in from a phone, checked against where and when.
- It plugs into other products, ELMO among them, and has an API.
- AI features, unless you pay a model provider for each request yourself.

What this rests on. Rotageek's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
