Welcome

What it is, who it suits, its grades and the ten things to know first

1.8

GPA, above 4 of the 49 other shift scheduling apps we grade

RotaMaster is workforce management software for UK healthcare and care providers, including NHS trusts, GP practices, primary care networks and care homes. It combines rostering with modules for staff records, leave, attendance, pay calculation and staff banks, plus a Staff Hub app for employees. Prices are not published; the vendor sells through demos.

To get you started, here are **7 things to know about Rotamaster**, taken from its own pages and our grades.

> **But no price is published, and it targets NHS and CQC compliance, so it suits few other sectors.**
>
> From our report card of Rotamaster

1 **Best for UK care and healthcare providers**

Rotamaster rosters by role, skill and location with staff banks and clocking, for UK healthcare and care.

2 **It runs on Web**

Web.

3 Rostering by role, skill and location

Shifts are assigned automatically from availability, compliance and local staffing rules, from single sites to multi-site operations.

4 Staff banks

Bank+ identifies available bank or part-time staff and fills gaps by set rules, and can build shared banks across trusts and integrated care systems.

5 Attendance and clocking

Attendance+ clocks by mobile, tablet app or biometric device and produces timesheet reports.

6 A 1.8 GPA, above 4 of 49

That is against the other shift scheduling apps we grade, on value, the free plan, features, ease of use and platforms.

7 Keep it

To replace Rotamaster you would be making payroll taxes worked out and filed with the government for you. That is not a weekend's work, with an AI app builder or without one.

SUBJECT	GRADE	COMMENT
Value for money	C	No price on record: the calls to action are demo requests.
Free plan and trial	F	Nothing free is listed: no free plan and no trial on the pages we read.
Features	B	Rostering by role and skill, staff banks, clocking, leave alongside rotas, pay calculation and an app.
Ease of use	C	No store rating on record. It's a sales-led rollout.
Platforms and integrations	C	Web only on the listing; the Staff Hub app is named but not its phones, and no integrations are named.

An A is worth 4 points, a B 3, a C 2, a D 1 and an F nothing. The GPA is the average of the five.

Who Rotamaster is for

- ✓ Fits if you run a UK care home or healthcare service with a staff bank
- ✓ Works for providers who need NHS and CQC-focused compliance

Who it is not for

- ✗ Skip it if you're outside UK healthcare and care
- ✗ Not for you if you want a price, since none is published
- ✗ Watch out: figures like 70% less admin are the vendor's own claims

Good to know

Good for

- ✓ NHS trusts, GP practices and primary care networks running rotas
- ✓ Care providers that want rostering, leave, clocking and pay in one system
- ✓ Organizations building collaborative staff banks to reduce agency use

Worth knowing

- ⓘ No prices are published; the site's calls to action are demo requests.
- ⓘ It is built for UK healthcare and care, with NHS and CQC compliance as its stated focus, so it suits few other sectors.
- ⓘ The vendor's pages name the Staff Hub app but do not list which phone platforms it supports.
- ⓘ Figures such as 70% less admin are the vendor's own claims.

What it costs

Every plan, the free plan, ways to pay less and how prices have moved

Rotamaster's current pricing could not be confirmed from its own site.

> **No price on record: the calls to action are demo requests.**

Place it runs: Web

UK healthcare and care rostering with staff banks and clocking. Here is what it does, as its own site describes it, and what it covers: payroll, shift scheduling, time clock, employee records, time off.

> From our grade for features

Rostering by role, skill and location

Shifts are assigned automatically from availability, compliance and local staffing rules, from single sites to multi-site operations.

Staff banks

Bank+ identifies available bank or part-time staff and fills gaps by set rules, and can build shared banks across trusts and integrated care systems.

Attendance and clocking

Attendance+ clocks by mobile, tablet app or biometric device and produces timesheet reports.

Leave alongside rotas

Leave+ handles annual leave requests together with the rota so cover is checked at the time of approval.

Pay calculation

Finance+ manages different pay structures; the vendor says it cuts payroll admin time by 70%.

Staff Hub app

Staff see shifts, get push notifications, request leave, swap shifts, bid for open shifts and submit mileage and expense claims.

Where it stands

Its grades against its category, and whether to keep it or make your own

4/49

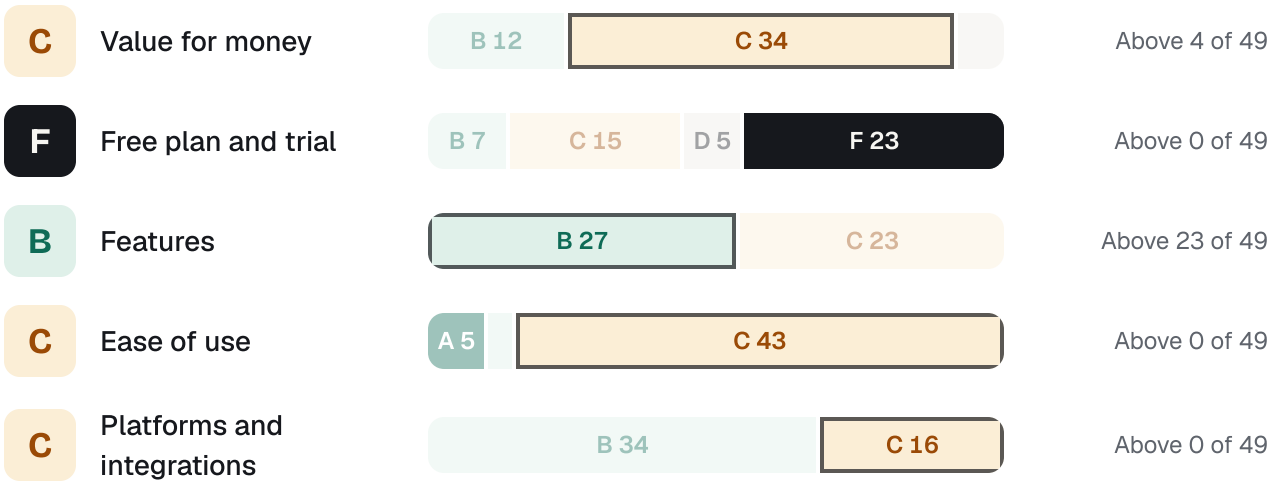

Other shift scheduling apps it is graded above

Rotamaster's GPA of 1.8 is higher than 4 of the 49 other shift scheduling apps we grade, and level with 12.

It stands best on features (B, above 23 of 49) and worst on free plan and trial (F, above 0).

Each grade against the category

Every bar is all 50 shift scheduling apps we grade, cut by the letter each got. Rotamaster's own letter is outlined.

Keep it, or make your own?

Whether this is something you could build for yourself with an AI app builder, and what you would give up.

Keep it

To replace Rotamaster you would be making payroll taxes worked out and filed with the government for you. That is not a weekend's work, with an AI app builder or without one.

That makes this kind of software worth paying for, not this one in particular: 33 of the 49 other shift scheduling apps grade higher.

What you could make

- Time off and employee records: an app builder makes these well.

What you could not

- Payroll taxes worked out and filed with the government for you.
- A rota the whole staff sees on their phones, with swaps and alerts.
- Clocking in from a phone, checked against where and when.
- The depth: we grade its features B, which means it covers the whole job.

What this rests on. Rotamaster's listing: what it does, where it runs, what it plugs into and what it costs. It is a judgement about the kind of software this is. We have not built a replacement for it, and making your own means looking after it too. How we decide, and every tool's verdict.
